Hear What Our Bachelor's Degrees Graduates Are Saying

Shelby S.

B.S. Middle Childhood Education '20

“I have grown so much as
a person during my time
with Franklin University.”

Tiphanie B.

B.S. Business Administration '20

“Achieving my degree is a
goal I set many years ago.
I am proud and excited to
see the new opportunities
this will lead me to on a
new career journey.”

Taylor A.

B.S. Human Resources Management '20

"This accomplishment has
brought a sense of pride
as well as confidence that I

can do anything I set my
mind to."

Kevin S.

B.S. Human Resources Management '16

"It was important for me to
feel supported during my
education. The 3+1
transfer program exceeded
by expectations."

Juan B.

B.S. Business Administration '11

"Franklin taught me how to
be a more effective leader.
I learned I don't always
have to be out in front and
in charge to be a leader.
Effective leaders identify
the strengths of every
person to advance the
team."

Steve N.

B.S. Business Administration '20

"I am so happy and proud
of this accomplishment. I

am a first-generation
college graduate."

Michelle O.

B.S. Human Resources Management '15

"Franklin's course format
helped me because the
assignments were laid out
for me and organized. I
knew what I needed to
complete and by when. It
helped me with my time
management and helped
me to be successful."

Alexandra R.

B.S. Business Administration '20

"I feel like I now have the
tools to being successful in
everything that I do."

Chris R.

B.S. Human Resource Management

"Having this education
from Franklin has really
allowed me to be the
successful, professional I

am today and without it, I
would not be where I am
today for sure."

Andrea M.

B.S. Human Resources Management '20

"Receiving my degree is
one of the happiest
moments of my life, as it
solidifies the hard work
and time dedicated to
achieving this throughout
these years. I now look
forward to the future and
opportunities ahead of
me."

Sarah D.

B.S. Business Administration '20

"This accomplishment
means everything to me.
Being a single mom,
working full time, and
going to school definitely
required a lot of faith,
strength and dedication -
but I did it!"

Hear What Our Master's Degree Graduates Are Saying

Emily M.

M.S. in Business Psychology '21

Completing my master's degree has provided me the opportunity to show my children that it is possible to accomplish your goals, no matter what.

Nathan, MBA '20

"A dream come true for me! Dreams can come true if you work hard and set your sails toward the goal."

Nicole E.

MBA '20

"Earning this degree
means having so much
more confidence in myself!

I am eternally grateful to
my professors, classmates
and my family for the
support and guidance that
has been given to me."

Mahlet B.

M.S. Computer Science '20

Receiving my degree from
Franklin University means
a lot to me. I was always
taught that education is a
path to reach ones'
destiny, create a cultivated
mind and enable growth
personally and
professionally.

Oyauma G.

MBA

"I learned how to stand out
and become the leader I

knew I could be."

Alexandra D.

Master of Healthcare Administration '21

"This accomplishment gives me the ability to have a greater impact and give back to healthcare in our community."

Tonya P.

Master of Healthcare Administration '21

"Obtaining my master's degree in healthcare administration allows me to expand my horizons and my career."

Matt, B.S. '16 + MBA '18

U.S. Army Veteran

"I started my degree online at Franklin while I was still enlisted. Franklin accepted my previously earned credit and made the transfer process easy."

Derrick Y.

Master of Healthcare Administration '20

Franklin University's
Master of Healthcare
Administration program
fundamentally taught me
about myself. This
program has helped
prepare me to become the
best healthcare
professional possible and
helped me become a
continuous and lifelong
learner.

Christie A.

MBA

"Franklin really has
prepared me for my career
and my future. Franklin
taught me how to interact
in the business community.
The networking side of it
really helped prepare me
for the working world and
beyond. It made me a well
rounded person. I really
grew as an employee right
before my employers eyes

just because I was at
Franklin."

Angela B.

M.S. Human Resource Management '20

I'm overjoyed. In just a
short time, I was able to
transition from my previous
job, to a career in HR.
Make a plan and turn it
into reality.

Hear What Our Doctoral Students Are Saying

Rachel

Doctor of Professional Studies-Instructional Design Leadership Student + Instructional Design Professional

"I can't stop my life as a parent with a full-time job to pursue academics.

Franklin bridges that gap for me. I still have all my responsibilities but I'm challenged in a good way.

And I can see myself graduating in a couple of years with a doctorate."

Anh Thu

Doctor of Healthcare Administration Student + Project Director, Ohio Asian American Health Coalition

"I didn't really have any hesitations. I knew right away that Franklin was the school for me. I knew that a doctorate in healthcare is what I wanted from the beginning to help make an impact on the community."

Daniel

Doctor of Business Administration Student + Manager, Abbott Nutrition

"What drew me to Franklin's program was the online coursework that enabled me to continue to

work full time while progressing through the program. The flexibility allowed me to learn how I could improve my organization and implement changes in real time.”

Angel

Doctor of Business Administration Student + Executive Director, Dress for Success Columbus

“Earning my doctorate will help me hone my leadership skills and build my knowledge within my discipline, which is nonprofit management. I want to learn how to ask tough questions of myself, my leadership team and my staff to really make my organization an even stronger one than it is today.”

Tomika

Doctor of Healthcare Administration Student + Instructional Assistant with Columbus City Schools

“The positive part is the

faculty. They're amazing teachers. I've been at other universities prior to this, but the faculty members at Franklin are what keep me coming."

Get 360-Degree Support Throughout Your Doctoral Program

You'll receive robust academic support from a variety of resources throughout your doctoral program. Together, our practice-minded faculty and your fellow doctoral students will support, mentor, encourage and keep you accountable to the program – and to yourself.

Doctoral Faculty Advisor

Your faculty advisor guides your research interests and appropriate coursework selection.

1:1 Research Support

Convenient online access to Franklin's librarians helps you maximize our robust research and library services.

Graduate Advisor

A graduate advisor regularly reviews academic progress, creates a personal education plan, ensures you are registered for courses each term, and connects you with other University departments and resources.

Academic Support Team

Our academic support services staff are available for paper review (prior to your dissertation courses), tutoring, and pertinent workshops such as APA (American Psychological Association) style and stress management.

Differentiate Yourself With An Applied Doctorate

Different than a theoretical, academia-focused doctor of philosophy (Ph.D.) degree, our

applied doctorate degrees for the working professional prepares you to lead, innovate and transform.

Chapter 1: Overview and Philosophy

Franklin's doctorates are professionally oriented degrees that enable you to apply doctoral-level thinking to complex problems in the real world. The cross-disciplinary programs also provide an avenue to expand your research, communication and decision-making competencies.

ACCREDITED UNIVERSITY & QUALITY DEGREES

[HOME](#) / [THE FRANKLIN EXPERIENCE](#) / ACCREDITED UNIVERSITY & QUALITY DEGREES

Choose an Institutionally Accredited University with High Standards

Franklin is an accredited university invested in one thing: You. We offer career-focused academic programs and a continually evolving and relevant curriculum, taught by industry-experienced faculty who help you apply classroom concepts to real-world situations.

Designed by Insiders

Gain in-demand skills with an industry-aligned curriculum.

Institutional Accreditation

We meet established criteria for quality teaching, student-centered learning and innovative improvement from the HLC.

Franklin University is accredited by the Higher Learning Commission (hlcommission.org), an institutional accreditation agency recognized by the U.S. Department of Education.

Urbana University was accredited as a separate institution by the Higher Learning Commission from 04/09/1975 through 07/31/2017. The University voluntarily resigned affiliation with the Higher Learning Commission, effective 08/01/2017, and became a Branch Campus of Franklin University. The Urbana University Branch Campus ceased enrollments at the end of the 2020 Spring Semester; its records are maintained by Franklin University.

Specialized Accreditation

Commission on Accreditation for Health Informatics and Information Management Education

The Health Information Management accreditor of Franklin University is the Commission on Accreditation of Health Informatics and Information Management (CAHIIM). The College's accreditation for the Bachelor's degree in Health Information Management has been reaffirmed through 2028-2029. All inquiries about Franklin University's accreditation status should be directed by mail to CAHIIM, 200 East Randolph Street, Suite 5100, Chicago, IL, 60601; by phone at (312) 235-3255; or by email at info@cahiim.org.

For more information about the Commission on Accreditation for Health Informatics and Information Management Education, please click [here](#).

Commission on Collegiate Nursing Education (CCNE)

The Bachelor of Science in Nursing, Master of Science in Nursing, post-graduate APRN certificates, and Doctor of Nursing Practice programs at Franklin University are accredited by the Commission on Collegiate Nursing Education (<http://www.ccneaccreditation.org>).

Council for
Accreditation of
Educational Programs

programs were included in the CAEP accreditation review: Adolescence to Young Adult Education (7-12), Intervention Specialist: Mild-Moderate (K-12), Middle

Childhood Education, and Primary Education (PK-5).

Excel Skills Certificate Online

Boost your career prospects and productivity with MS Excel certificate courses that show you how to maximize the power of Microsoft's popular data analysis tool.

**CERTIFICATE | BEGINNER | 4-5 MONTHS ⓘ | COURSERA
SKILLS:
PRICE: INCLUDED IN \$49 MONTHLY SUBSCRIPTION**

GET UP TO 1 COLLEGE CREDIT

Franklin University has partnered with Coursera Campus to provide cutting-edge certificates to learners seeking to advance. Courses are open to all learners. No application required.

Included in your subscription

Get unlimited access to over 7,000 offerings found on the Coursera website – including guided projects, specializations and professional certificates offered by hundreds of leading universities and companies. You also get access to all 39 professional certificates found in the Franklin Marketplace.

LEARN MORE

What You Will Learn

- Develop competency in designing worksheets, tables, charts, formulas and functions to help solve business problems
- Learn how to use Microsoft Excel spreadsheets to manage, analyze and present data for the purpose of analyzing trends and recognizing patterns
- Manage datasets, extract meaningful information and transform it into smart data visualizations for collaboration
- Become well-versed in validating data, preventing errors and creating forecasts and models to inform decision making

About the Excel Skills Professional Certificate

The Excel Skills Professional Certificate is ideal for anyone looking to learn and validate their ability to work efficiently and effectively with MS Excel applications and tools. If you're a data or numbers person who is ready to do more with Excel than create a simple spreadsheet, this Professional Certificate is for you.

The courses comprising the online Excel Skills Professional Certificate will help you unleash the powerful capabilities of Excel and apply them to your role in information technology.

Completing these certificate courses will help you develop a valuable, in-demand set of skills across the IT function. Through your online studies, you'll learn and practice a wide variety of real-world uses, ranging from data loading to data manipulation to data visualizations.

Plus, these courses will help you explore and understand the ins, outs, and shortcuts of Excel to capture and validate data, generate relevant reports and results, and identify efficiencies and improvements.

Complete all the courses and hands-on assignments to earn your online Excel Professional Certificate and prepare yourself for entry-level positions and a foundation for deeper roles as data scientist, program analyst and software developer.

Intuit Bookkeeping Certificate Online

Take control of your professional life with Intuit bookkeeping certificate courses that train you help businesses record, track and analyze essential financial records.

**CERTIFICATE | BEGINNER | 3-4 MONTHS ⓘ | COURSERA
SKILLS:
PRICE: INCLUDED IN \$49 MONTHLY SUBSCRIPTION**

GET UP TO 2 COLLEGE CREDITS

Franklin University has partnered with Coursera Campus to provide cutting-edge certificates to learners seeking to advance. Courses are open to all learners. No application required.

Included in your subscription

Get unlimited access to over 7,000 offerings found on the Coursera website – including guided projects, specializations and professional certificates offered by hundreds of leading universities and companies. You also get access to all 39 professional certificates found in the Franklin Marketplace.

LEARN MORE

What You Will Learn

- Learn essential bookkeeping concepts and examine measuring and valuation in accounting
- Examine assets, liabilities and equity accounts and their effect on the balance sheet
- Understand and work through the accounting cycle to produce accurate and consistent financial statements
- Analyze financial statements, troubleshoot errors and explain how financial statements support decision making

About the Intuit Bookkeeping Professional Certificate

Bookkeeping is more than a numbers game. It's a professional career that's both challenging and rewarding. If you're looking to launch a bookkeeping career or consultancy, here's how to gain the skills you need without prior experience or a degree: the Intuit Bookkeeping Professional Certificate.

Offered by financial global technology company, Intuit, this Professional Certificate is designed to prepare you for a variety of bookkeeping jobs across a wide variety of organizations, including public accounting, private industry, government and nonprofits.

The four courses that comprise this Professional Certificate program will give you a foundational understanding of accounting principles and bookkeeping best practices. You'll work through the many phases of the accounting cycle, generate essential financial documents, and practice synthesizing and presenting financial findings to key stakeholders.

You'll use Excel, Google Sheets, Numbers or an equivalent spreadsheet program for some of your assignments. Even better, you'll gain relevant QuickBooks Online experience through hands-on practice labs that let you apply what you learn to real-world accounting scenarios.

Once you've earned your certificate, you'll also be prepared to sit for the Intuit Certified Bookkeeping Professional Exam – a certification that qualifies you to apply for a bookkeeper position at Intuit QuickBooks Live or anywhere in the field.

If you're a detail-oriented, problem solver who wants to help organizations make more informed financial decisions, then the Intuit Bookkeeping Professional Certificate is for you.

IBM Data Science Professional Certificate Online

Ready yourself for a professional career in data science with IBM data science online courses that prepare you to perform data analytics and apply ML techniques to cloud computing.

CERTIFICATE | BEGINNER | 4-5 MONTHS ⓘ | COURSERA

SKILLS:

PRICE: INCLUDED IN \$49 MONTHLY SUBSCRIPTION

GET UP TO 12 COLLEGE CREDITS

Franklin University has partnered with Coursera Campus to provide cutting-edge certificates to learners seeking to advance. Courses are open to all learners. No application required.

Included in your subscription

Get unlimited access to over 7,000 offerings found on the Coursera website – including guided projects, specializations and professional certificates offered by hundreds of leading universities and companies. You also get access to all 39 professional certificates found in the Franklin Marketplace.

LEARN MORE

What You Will Learn

- Gain a fundamental understanding of the role of the data science professional and the tools and methodologies used to inform data-driven decision making
- Learn to apply data science tools, languages and libraries, including databases and SQL, to solve real-world data science problems
- Use Python and data analysis libraries to load, manipulate, analyze and visualize data
- Dive into machine learning (ML) and practice ML skills, such as regression, classification, clustering, sci-kit learn and SCiPy

About the IBM Data Science Professional Certificate

Aspiring data scientists will find the IBM Data Science Professional Certificate program to be ideal for quickly and confidently learning what data science is and how data scientists think and work.

If you're mathematically minded as well as inquisitive, this specialized certificate program is for you. This program, developed by IBM, is specifically designed to jumpstart your career in the hottest fields with the best occupation: data science and machine learning (ML).

This self-paced program consists of 10 courses, each designed to help you develop hands-on skills and experience with the top-notch data science tools, languages and libraries.

Your studies will take you on a data science and ML journey that includes working with open source tools and libraries, the Python programming language, databases and SQL queries, statistical and data analysis, predictive modeling, machine learning algorithms and data visualizations.

Through a series of applied learning labs in the IBM cloud, you'll also acquire practical skills in Jupyter/Jupyter Lab, GitHub, R Studio and Watson Studio. Plus, you'll work highly regarded data libraries like Pandas, NumPy, Matplotlib, Seaborn, Folium, ipython-sql, Scikit-learn and ScipPy. Finally, your assignments will culminate in the creation of a professional, attention-getting portfolio you can share with prospective employers to land that first career position.

How To Go To College As An Adult: 5 Strategies To Be Successful

Adult Learner

If you're considering going back to college as an adult, the number one thing you should know is that it's

never too late to go to college. In fact, with today's workforce education requirements, technology-driven work environments and a trend toward later retirements, it's very normal to go to college as an adult.

Currently, 1 in 10 college students in the United States is age 40 or older, according to the National Center for Education Statistics. By 2027, 3.3 million students will fall within this age group.

While there are many compelling reasons to go to college at any age, that doesn't mean being a nontraditional student is always easy. Going to college as a working adult comes with its own set of unique challenges.

If you're dedicated to improving your personal, professional and financial outlook for yourself or your family, we're here to help you prepare for success. Let's dive into 5 strategies that can help you navigate the challenges of going to college as an adult and thrive as a nontraditional college student.

Strategy 1: Remove the Intimidation Factor

One of the biggest hurdles for many adults aspiring to go to college is uncertainty. Many prospective adult college students ask themselves questions like:

- Can I even get into college?
- Will I be surrounded by traditional age students and feel isolated?
- Do I have the tools to be successful in today's college environment?
- Is now really the right time for me to go back to school?

Going back to college is a big decision—but don't let yourself get in the way of achieving your goal.

Success Strategy: Remove the intimidation factor by applying to colleges or universities that consider your holistic experience and education when making admission decisions.

There are many reasons the college application process can feel intimidating. Maybe you aren't a strong

test taker and entrance exams are your number one fear. Maybe your previous high school or college GPA wasn't strong.

Whatever your concerns, never assume you won't get accepted to college. There are high-quality, accredited colleges that lower the barriers to entry to help motivated students from all backgrounds get a college education.

At Franklin, we remove many traditional barriers to entry like entrance exams. We don't believe one test is indicative of your ability to be successful in college. Our mission is to open doors to a college education and provide opportunities designed for nontraditional adult students. That's why we evaluate your comprehensive academic, professional and personal profile and work with you to ensure you're set up for success.

Dr. Doug Ross

Program Chair, Business Administration at Franklin University

Strategy 2: Reduce Financial Stress

One of the major considerations for adults returning to college is the cost of a college education. There are many ways to plan for the financial realities of going to college, including:

- Completing the **FAFSA** to ensure you're considered for grants and federal student loans.

- Asking if your employer offers tuition reimbursement for the cost of college courses.
- Planning ahead, making a budget and setting aside savings dedicated to your college education.
- Doing your research into the total cost of your college education, including tuition costs, additional fees, and textbook or software costs.

Heading back to school? Make sure you max out your Financial Aid with the help of this free FAFSA report.

When considering the financial investment of a college education, keep the long-term benefits in mind.

“Most people don’t think twice before taking out a loan for a car,” says Dr. Ross, “They see it as essential and plan for the costs. An education, on the other hand, is less tangible and many people question taking out student loans. While loans shouldn’t be your first option, an education only appreciates in value over time, while an investment like a car depreciates in value. As you evaluate your financing options, always take a long-term perspective and think about how an education will help you reach professional and salary goals.”

An education only appreciates in value over time, while an investment like a car depreciates in value. As you evaluate your financing options, always take a long-term perspective and think about how an education will help you reach professional and salary goals.

Dr. Doug Ross

Program Chair, Business Administration at Franklin University

In fact, for many adults without a college degree, it's becoming a long-term financial necessity to go back to college. According to the Social Security Administration, **men with bachelor's degrees earn approximately \$900,000 more in median lifetime earnings than high school graduates. Women with bachelor's degrees earn \$630,000 more.**

Success Strategy: Choose an affordable online college that gives you the flexibility to work while you get a college degree.

One way to reduce the opportunity cost of a college degree is to choose an online college that allows you to maintain your current job and salary. Going back to school full-time inevitably costs more because you lose out on salary earnings in addition to adding the cost of tuition to your financial picture.

As a nonprofit, private institution solely dedicated to serving working adults, **Franklin University's tuition rate is 66% lower** than the national average for private, nonprofit four-year colleges. By offering online

courses that are designed for the needs of working adults, Franklin makes it easier to maintain the balance of your career and your college education.

Strategy 3: Proactively Manage Your Time and Workload

Time management is critical to success when going to college as a working adult. If you're going to pursue your degree online, you want to make sure your flexible curriculum doesn't become a detriment to your success. You need to proactively plan your schedule to make sure you don't procrastinate or fall behind. You also want to make sure you're maintaining balance between your educational, professional and personal pursuits.

Here are some tips to help you stay organized and on schedule:

- Create a dedicated, quiet workspace that allows you to focus on your coursework.
- Download a task management app like [Todoist](#) to manage your workload.
- Block off time each week on your calendar to dedicate to your coursework.
- Regularly check your course website to track your progress on assignments.
- Break up work and set personal deadlines to pace out the completion of larger projects.

In addition to basic time management best practices, choosing the right college degree program can make it easier to manage your workload.

Success Strategy: Look for a college that offers a balanced workload format that makes it easier to plan around your college courses.

At Franklin, we purposefully design our courses to ensure your workload is approximately the same week-to-week. Unlike many traditional institutions where coursework varies widely—like time-intensive studying for mid-term exams or writing term papers—we spread that work evenly across your 6-8 week course. As a working adult, you're able to know exactly how much time you need to dedicate in advance, making it easier to balance other responsibilities.

Dr. Doug Ross

Program Chair, Business Administration at Franklin University

Strategy 4: Find Support and Resources

As an adult going back to college, you may need different types of support than traditional college students.

Not sure what to look for? Here are some of the types of support that can be most beneficial to adult learners.

- Make connections with other students and form study groups to work through assignments.
- Take advantage of professor office hours to ask questions about course material.
- Look for networking opportunities offered through your degree program and university.

- Use library, tutoring and writing center resources when you need extra help.

Success Strategy: Choose a program with dedicated support services that cater to the needs of working adults.

Support services that are only offered during normal working hours often don't work for adults going to college. You also shouldn't have to sacrifice personal support because you choose to attend college online.

At Franklin, every student is assigned an academic advisor who can help them make decisions about their courses and educational path. I regularly hear from advisors soliciting advice on behalf of their students. We also offer support services like the Student Learning Center. For example, if you need help on a paper you can submit it and receive feedback within 24-hours. It's these types of services that help us cater specifically to working adults.

Dr. Doug Ross

Program Chair, Business Administration at Franklin University

"At Franklin, every student is assigned an academic advisor who can help them make decisions about

their courses and educational path,” says Dr. Ross, “I regularly hear from advisors soliciting advice on behalf of their students. We also offer support services like the Student Learning Center. For example, if you need help on a paper you can submit it and receive feedback within 24-hours. It’s these types of services that help us cater specifically to working adults.”

Strategy 5: Don’t Forget to Enjoy Life

Going back to college can be stressful at times, but it’s also very rewarding. Take the time to engage with professors and classmates and truly enjoy what you’re learning. Also, don’t forget to find the balance in life.

Success Strategy: Make a list of your most important personal and professional responsibilities and plan your school work accordingly.

Whether it’s attending a work outing or tucking your children in at night, make sure you set your priorities early and stick to them. By making time for social engagements and family time, you’ll stay grounded and motivated to reap the benefits of a college education.

Choose a College Designed for Working Adults

While online colleges provide the most flexibility, not every online college is designed to meet the specific needs of working adults.

For over 115 years, Franklin University has been dedicated to serving working adults. Franklin University is a regionally-accredited university, meaning it meets the highest quality standards while providing education in a flexible online format that works around your schedule. Franklin’s dedicated resources, tools and systems make sure you have what you need to succeed as a working adult going to college.

Going Back To School at 40: Is It Worth It?

Adult Learner

Going back to school is a major undertaking. As a mid-career professional, you might be wondering if it's too late to earn your degree.

Don't worry, you're never too old to earn your degree. It's becoming increasingly common for individuals 40 and over to go back to school. As of 2019, over 1.6 million adults 40 and over were enrolled in college ([Chronicle of Higher Education](#)).

If you're thinking of joining this growing student cohort, we want to help you understand the opportunities getting a degree offers and provide advice that can help set you up for success.

7 Great Reasons To Go Back to School At 40

There are many reasons to consider going back to school in your 40s. Common motivations include:

1. **Changing careers** or working in a new industry.
2. **Increasing job security** and improving upward mobility.
3. **Learning new technologies** and tools to help future-proof your skill set.
4. **Advancing to management** or leadership roles that require a degree.
5. **Qualifying for a salary increase** and improving long-term earnings potential.
6. **Overcoming a gap in employment** or work history.
7. **Enjoying the sense of personal fulfillment** and accomplishment that comes with earning a degree.

If any of these reasons resonate with you, going back to school is an excellent way to accomplish these goals. Let's look at ways you can set yourself up for success as a working adult over 40 returning to college.

Heading back to school? Make sure you max out your Financial Aid with the help of this free FAFSA report.

If you're looking to go back to school at 40 to change career paths, you want a well-paying, stable career with high growth prospects. These 5 careers can be attained with a bachelor's degree and offer significant opportunities to professionals over 40.

Market Research Analysts

Market research analysts gather data to help a company sell its products or services. They gather information such as consumer demographics, preferences, needs and buying habits. This data helps them determine potential markets, product demand and pricing for products or services.

- **Median Salary (EMSI): \$65,811**
- **Projected Growth (2031): 19%**
- **Minimum Education:** Bachelor's Degree in Marketing

Management Analysts

Also known as management consultants, these professionals are typically hired by organizations to provide an unbiased perspective on improving efficiency, productivity and profitability. Management analysts collect and analyze data about how a company works and then recommend changes that will decrease costs or boost revenue.

- **Median Salary (EMSI): \$87,651**
- **Projected Growth (2031): 13.8%**
- **Minimum Education:** Bachelor's Degree in Business Administration

Training and Development Specialists

Training and development specialists help create, administer and deliver training programs for businesses and organizations. They are responsible for identifying skills or knowledge gaps and then developing custom programs to improve employee performance.

- **Median Salary (EMSI): \$62,691**
- **Projected Growth (2031): 10.3%**
- **Minimum Education:** Bachelor's Degree in Human Resources

Information Security Analysts

Information security analysts are responsible for monitoring their organization's networks for security breaches and investigating a violation when one occurs. They must stay at the forefront of technology, using the latest software, such as firewalls and data encryption programs, to protect sensitive information.

- **Median Salary (EMSI): \$103,584**

- **Projected Growth (2031):** 27.8%
- **Minimum Education:** Bachelor's Degree in Cybersecurity

Personal Financial Advisors

Personal financial advisors help clients plan for short- and long-term financial goals. They assess the financial needs of individuals and families, helping them with decisions on investments (such as stocks and bonds), tax laws and insurance.

- **Median Salary (EMSI):** \$89,336
- **Projected Growth (2031):** 10.4%
- **Minimum Education:** Bachelor's Degree in Financial Planning

5 Tips for Going Back to School at 40

Going back to school at 40 or older is a significant undertaking. It's also much different from going to college as a traditional-age student. Here are some of the top tips we give working professionals in their 40s who want to go back to school.

- **Choose a college designed for working professionals.** Your needs as a student at 40 are completely different from the needs of 18-22 year olds. Look for schools that are specifically geared toward the needs of working adults and have a strong history of helping them succeed. For example,

Franklin University's average student age is 34, which helps surround you with other dedicated peers looking to advance their careers. Franklin also offers resources outside of traditional school hours to support you on your schedule.

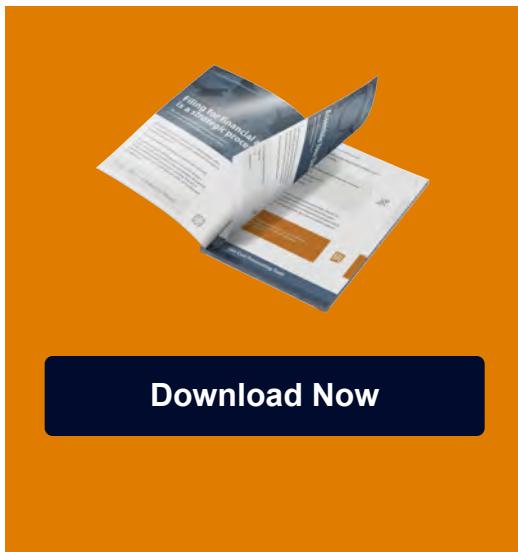

- **Opt for a degree you can complete fully online.** As someone over 40 returning to school, maintaining career momentum while advancing your education is key. Choosing a 100% online degree program can give you the flexibility to accomplish both. The best online degree programs will still offer meet sessions and group projects that help you feel engaged and connected.
- **Set aside dedicated time in your schedule every week.** Staying organized and managing your time effectively will be crucial to earning your degree. Expect to spend approximately 15 hours per week on your school work. You can make it even easier to maintain a schedule by choosing a program with a balanced learning schedule. At Franklin University, coursework is spread evenly across the term to ensure you don't have major fluctuations in the time you need to dedicate to your studies.
- **Determine how you'll finance your education.** Paying tuition is a major concern for anyone completing a degree. It can be even more important if you have other major financial considerations like supporting a family, repaying a mortgage or making car payments. Make sure you have a solid plan—whether that's financial aid, savings, loans—or a combination of the three. Look for a college that offers transfer credit for previous college courses, professional credentials or work experience, which can reduce the amount of time (and cost) to graduate.
- **Ask your employer about tuition reimbursement or other support.** Some employers offer tuition stipends or discounts for employees returning to school. Even if your employer doesn't, make sure they know you plan to pursue your degree. This notice can help them support you in other ways, like managing your work schedule.
- **Develop a support system that always has your back.** Going back to school isn't easy. However, with the support of friends, family, colleagues and classmates, you'll find it much easier to stay motivated and complete your degree.

Choose a School Designed For Busy, Working Adults

Franklin University is an ideal [school for professionals who are 40 or older](#) that want to get their degree. For more than 115 years, Franklin has pioneered higher education for ambitious, goal-oriented adults.

From convenient, online classes to extensive student-centered services, every aspect of the Franklin experience is designed with you, your schedule and finishing your degree in mind. You will be surrounded by like-minded peers and faculty with in-depth real world experience, creating a 360-degree learning environment that helps you [grow personally](#) and professionally.

See all of the ways Franklin will support you in earning your degree and advancing your career.

Heading back to school? Make sure you max out your Financial Aid with the help of this free FAFSA report.

We've compiled a list of 15 of the top careers for 30 year olds going back to school. These positions were selected for their growth potential, job stability and career longevity, which suggest they would be an ideal fit for this age group. Each job includes figures for median salary and projected job growth, as well as suggested education and degree difficulty. High difficulty indicates that a degree requires highly specialized and technical skills—such as advanced mathematics or computer coding. Low difficulty indicates that transferable skills—such as communication and critical thinking—play a large role in the degree coursework.

1. Operations Research Analysts

Operations research analysts use advanced mathematical and analytical methods to help organizations solve challenges and make more informed decisions. These professionals help allocate resources, develop production schedules, manage the supply chain and set prices.

- **Median Salary (BLS):** \$86,200
- **Projected Growth (2029):** 25%
- **Suggested Education:** Bachelor's Degree in Operations and Supply Chain Management
- **Difficulty of Education:** High

2. Market Research Analysts

Market research analysts study industry and competitive conditions to examine potential sales of a product or service. They help organizations determine what products people want, who will buy them and at what price.

- **Median Salary (BLS):** \$65,810
- **Projected Growth (2029):** 18%
- **Suggested Education:** Bachelor's Degree in Marketing
- **Difficulty of Education:** Medium

3. Public Relations Specialists

Public relations specialists create and sustain a favorable public image for the organization they represent. They develop media releases and social media programs to help shape public perception and increase awareness of the organization's work and goals.

- **Median Salary (BLS):** \$62,810
- **Projected Growth (2029):** 7%
- **Suggested Education:** Bachelor's Degree in Public Relations
- **Difficulty of Education:** Low

4. Human Resources Specialists

Human resources specialists have a broad base of responsibilities. They recruit, screen, interview and hire employees. They also handle employee relations as well as compensation, benefits and training.

- **Median Salary (BLS):** \$63,490
- **Projected Growth (2029):** 7%
- **Suggested Education:** Bachelor's Degree in Human Resources Management
- **Difficulty of Education:** Low

5. Medical and Health Services Managers

Medical and health services managers plan, direct and coordinate the business activities of healthcare providers. They may manage an entire facility, a specific clinical area or department or physicians' medical practices.

- **Median Salary (BLS):** \$104,280
- **Projected Growth (2029):** 32%
- **Suggested Education:** Bachelor's Degree in Healthcare Management

- **Difficulty of Education:** Medium

6. Information Security Analysts

Information security analysts plan and carry out security measures to protect an organization's computer networks, systems and data. As the number of cyberattacks increases, their responsibilities, as well as job opportunities, are continually expanding.

- **Median Salary (BLS):** \$103,590
- **Projected Growth (2029):** 31%
- **Suggested Education:** Bachelor's Degree in Cybersecurity
- **Difficulty of Education:** High

7. Fundraisers

Fundraisers organize events and campaigns to raise money and gather other donations for an organization. They also design promotional materials to increase awareness of an organization's work, goals and financial needs.

- **Median Salary (BLS):** \$59,610
- **Projected Growth (2029):** 14%
- **Suggested Education:** Bachelor's Degree in Communications
- **Difficulty of Education:** Medium

8. Training and Development Specialists

Training and development specialists help plan, conduct, and administer programs that train employees to improve their skills and knowledge. In today's technologically advanced workplace, they often design online learning modules and course materials.

- **Median Salary (BLS):** \$62,700
- **Projected Growth (2029):** 9%

- **Suggested Education:** Bachelor's Degree in Human Resources Management

- **Difficulty of Education:** Low

9. Meeting, Convention and Event Planners

Meeting, convention and event planners arrange all aspects of events and professional gatherings. They meet with clients to determine the purpose of the event, negotiate contracts with suppliers or talent, and handle day-of logistics.

- **Median Salary (BLS):** \$51,560

- **Projected Growth (2029):** 8%

- **Suggested Education:** Bachelor's Degree in Communications

- **Difficulty of Education:** Low

10. Administrative Services and Facilities Managers

Administrative services and facilities managers plan, direct, and coordinate activities that help an organization run efficiently. Typically, these professionals maintain facilities and supervise activities that include recordkeeping, mail distribution and office upkeep.

- **Median Salary (BLS):** \$98,890

- **Projected Growth (2029):** 6%

- **Suggested Education:** Bachelor's Degree in Applied Management

- **Difficulty of Education:** Low

11. Accountants and Auditors

Accountants and auditors prepare and examine financial records for businesses and individuals, as well as identify potential areas of financial opportunity and risk. They ensure that all records are accurate, data risks are evaluated, and taxes are paid properly.

- **Median Salary (BLS):** \$73,560

- **Projected Growth (2029):** 7%
- **Suggested Education:** Bachelor's Degree in Accounting
- **Difficulty of Education:** High

12. Digital Designer

Digital designers are responsible for the look and user experience of a website or application. They develop, create and test website or interface layout, functions and navigation for usability.

- **Median Salary (BLS):** \$77,200
- **Projected Growth (2029):** 8%
- **Suggested Education:** Bachelor's Degree in Interactive Media Design
- **Difficulty of Education:** High

13. Software Developers

Software developers design computer applications or programs. They are responsible for identifying the core functionality a user needs and system requirements, as well as writing code to meet these requirements.

- **Median Salary (BLS):** \$110,140
- **Projected Growth (2029):** 22%
- **Suggested Education:** Bachelor's Degree in Computer Science
- **Difficulty of Education:** High

14. Exercise Physiologists

Exercise physiologists develop fitness and exercise programs that help injured or sick patients recover. These programs are typically for patients with chronic diseases that need to improve fitness in areas such as cardiovascular function, body composition and flexibility.

- **Median Salary (BLS):** \$50,280
- **Projected Growth (2029):** 11%
- **Suggested Education:** Bachelor's Degree in Exercise Science
- **Difficulty of Education:** Low

15. Social and Community Service Managers

Social and community service managers coordinate and supervise programs and organizations that support public well-being. Oftentimes, these professionals work for organizations that focus on working with a particular demographic, such as veterans, or specific challenges, such as substance abuse.

- **Median Salary (BLS):** \$69,600
- **Projected Growth (2029):** 17%
- **Minimum Required Education:** Bachelor's Degree in Public Administration or Bachelor's Degree in Health Education & Promotion
- **Difficulty of Education:** Medium

Of The Top Growing Industries For Career Changers Over 30

As technology continues to advance at an exponential rate, you need to position yourself for the future. Going back to school in your 30s gives you the opportunity to gain new skills that will future-proof your career and help you join a thriving industry.

Fastest Growing Industries For Professionals Changing Careers After 30

Industry	Projected Job Growth (2015-2025)
Professional, Scientific and Technical Services	19.4%
Healthcare and Social Assistance	17.0%
Management of Companies and Enterprises	10.9%
Finance and Insurance	10.9%

Source: Bureau of Labor Statistics

FRANKLIN
UNIVERSITY

Let's look at 4 of the fastest growing industries that offer outsized opportunities for professionals in their 30s.

- **Professional, Scientific and Technical Services:** Organizations in this industry provide highly technical or specialized services to clients. These organizations offer a wide variety of services—including consulting, research, design and technology—making this a diverse industry full of career potential.
- **Healthcare and Social Assistance:** This industry includes organizations that provide medical and/or social services—including hospitals, extended care facilities, nonprofits and government agencies. An aging population, diverse healthcare needs and more accessible health insurance continue to spur growth in this industry.

- **Management of Companies and Enterprises:** Establishments in this industry perform strategic or organizational planning and decision making roles. Growth in this industry will require more professionals with strong business administration and management skills.
- **Finance and Insurance:** Companies in this industry primarily engage in raising funds by taking deposits and/or issuing securities, pooling risk by underwriting insurance and providing specialized financial services to clients. As this sector grows, finance and business analysis occupations will continue to trend higher.

With the right education and skills, opportunities in these sectors will continue to grow. As someone 30 or over returning to school, this growth provides higher earnings potential, advancement opportunities and job stability far into the future.

Should I Go Back To College? Understanding the Benefits of Going Back To School

Adult Learner

According to the National Student Clearinghouse Research Center's [Some College, No Degree report](#),

more than 36 million Americans hold some postsecondary education but have not completed a degree and are no longer enrolled.

For these individuals, answering the question of going back to college can feel like a wrestling match. On the surface it seems easy, but as individuals with some college and no degree navigate the complexities, challenges and costs of going back to school, they may begin to question if it's worth it.

We're here to give you the facts about the value of getting a college degree, proving why it's worth it to go back to college.

Going Back To School: Education Trends For Nontraditional Students

If you're planning to go back to school, you most likely fall into the category of nontraditional student. Nontraditional age students are considered those 25 years of age and older. Many of these students are worried about going back to college and feeling awkward and out of place among younger students.

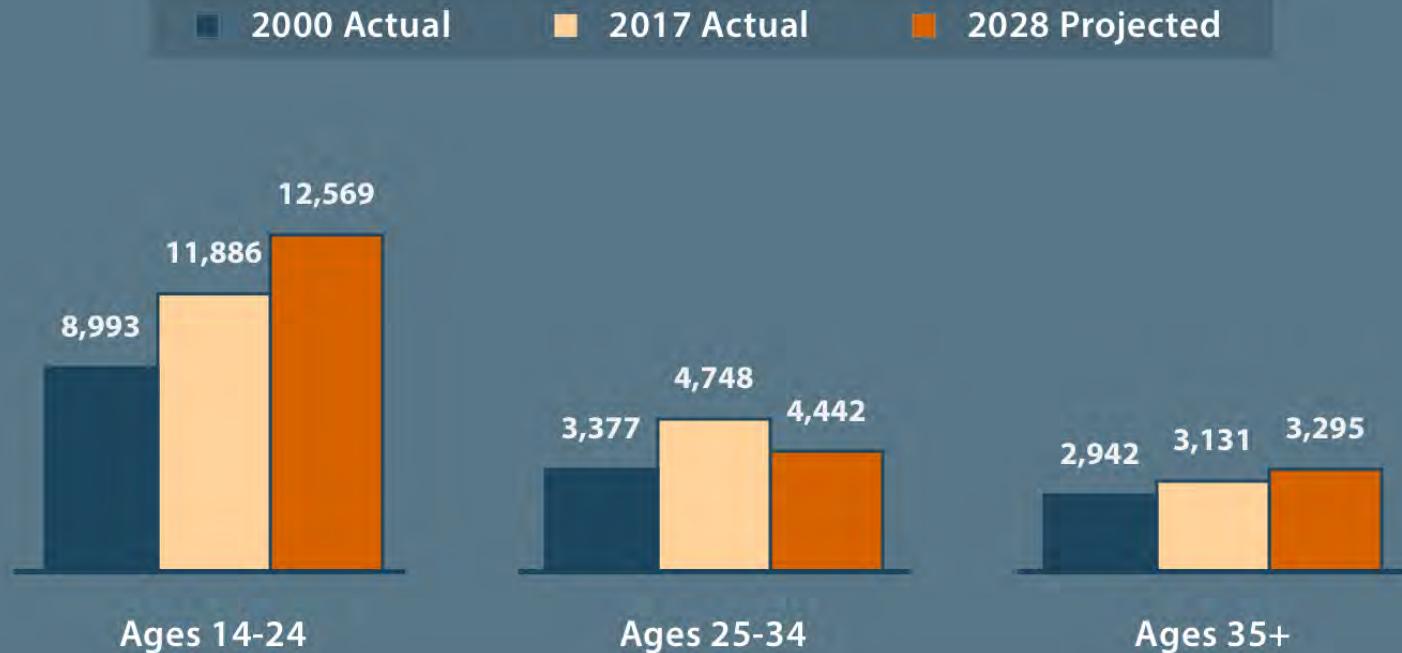

However, the term nontraditional is becoming less accurate as the number of students 25 and older attending college increases. According to the government-run National Center for Education Statistics, it's increasingly common for adult students to complete their degrees.

Let's look at the breakdown of enrollment for adults attending college.

- **41%:** Growth of students 25-34 years old enrolled in college between 2000 to 2017
- **4.4 million:** Number of students 25-34 years old projected to be enrolled in college by 2028
- **6%:** Growth of students 35 years and older enrolled in college between 2000 to 2017
- **3.3 million:** Number of students 35 years and older projected to be enrolled in college by 2028

Nontraditional Student Enrollment By The Numbers

Enrollment (in thousands)

Source: National Center for Education Statistics

If you're concerned about going back to school as a working adult, know that you won't be alone in your pursuits. As the population of adults attending college becomes larger, there are more colleges designed to meet the needs of working adults.

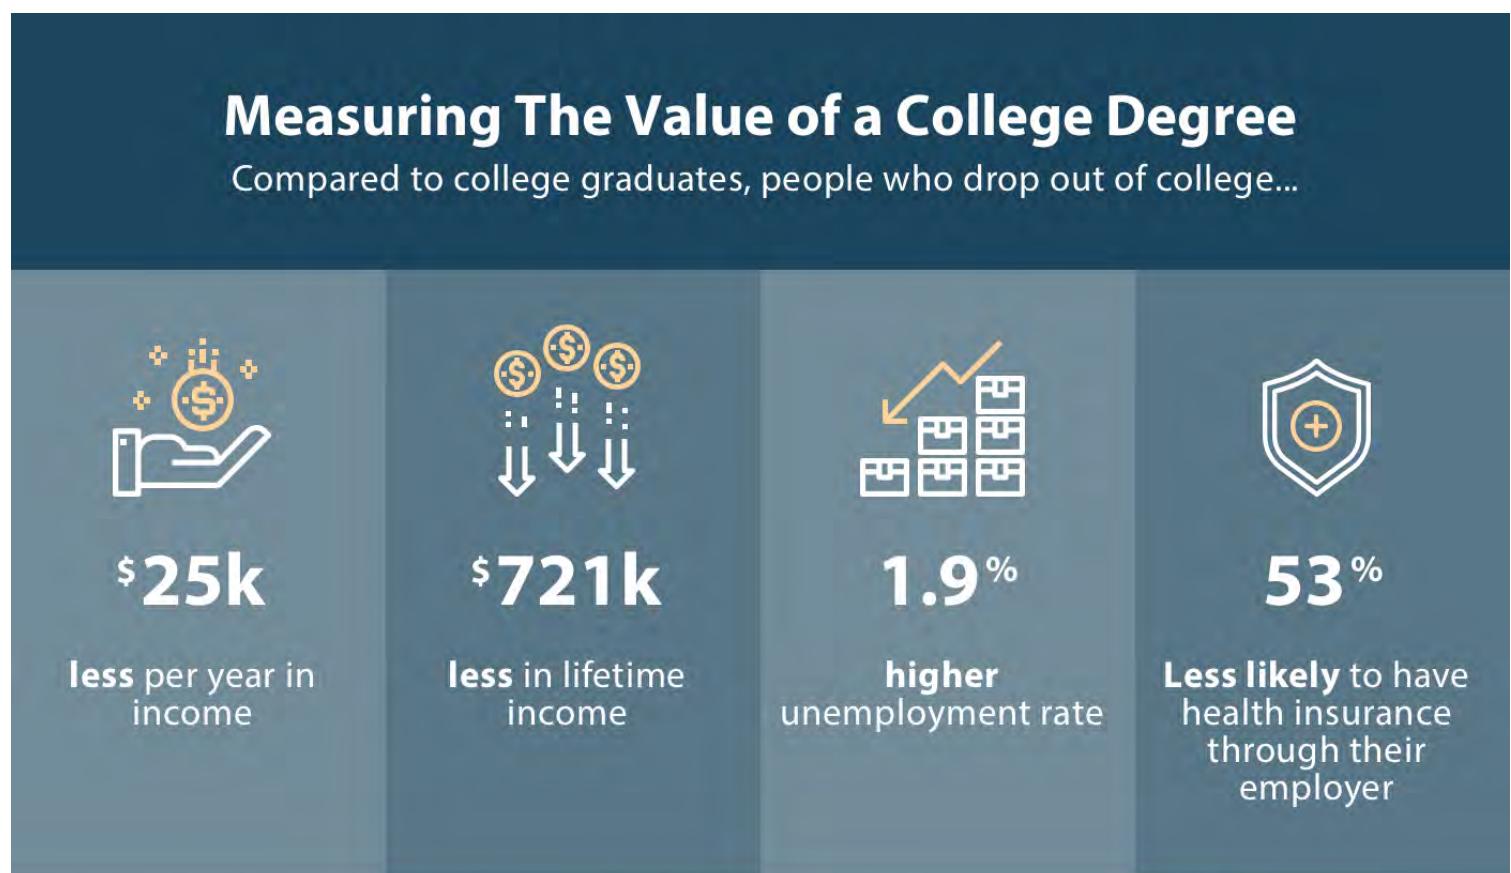

You're never too old to reap the benefits of getting your college degree. Let's look at some of the tangible reasons to go back to college.

When it comes to paying for school, grants are among your best options.

But do you know how to find them? Remove the guesswork by downloading this free guide.

5 Compelling Reasons to Go Back To College

The impact of a college degree is more than a sales pitch, there's hard-and-fast data to support the value of returning to college to earn your degree.

**Source: Education Data, Bureau of Labor Statistics,
Association of Public and Land Grant Institutions**

Let's look at ways a college degree provides tangible value for graduates:

1. The cost of dropping out of college measured by lost earnings is a **combined \$3.8 billion a year** (Education Data). For most students, **dropping out of college can mean signing up for \$25,000**

less per year in income than those who graduate.

2. The unemployment rate is consistently higher for individuals who do not earn their bachelor's degree ([Bureau of Labor Statistics](#)). In July 2021, **the unemployment rate for individuals with an associate degree or some college but no degree was 5%**, compared with 3.1% for individuals with a bachelor's degree or higher.
3. According to the [National Association of Colleges and Employers \(NACE\)](#) **56.6% of employers screen candidates by their GPA**. Going back to college is not only an opportunity to earn your degree, but also to improve your GPA and stand out to top employers.
4. According to the [Association of Public and Land Grant Universities \(APLU\)](#), **college graduates are 47% more likely to have health insurance provided by their employer, and employers contribute 74% more to the costs of health coverage** for employees with degrees.
5. The [Association of American Colleges and Universities](#) 2021 survey of employers found that nearly **nine out of ten employers think that getting a college degree is either definitely or probably worth it**. The highest ranked outcomes of a college degree were ability to work in teams, critical thinking, ability to analyze and interpret data, application of knowledge in real-world settings and digital literacy.

Answering 4 Big Questions About Going Back To College

Going back to college is a major decision. As you weigh your options, you probably have many questions. We're here to help you answer some of the most common questions about returning to college.

- **Does going back to college make good financial sense?** Getting your college degree is a significant financial investment. However, you need to keep long-term earnings potential in mind when evaluating the cost of your education. Lifetime earnings of individuals with some college is \$1,547,000 compared with \$2,268,000 for bachelor's degree holders ([APLU](#)).
- **Will I have to start from scratch?** Most likely, no, you will not have to start from scratch. Transfer credit policies are set at the university level, meaning some schools have more generous transfer credit policies than others. Make sure you have a strong understanding of how your credit will transfer before choosing the university where you will complete your degree. Free tools like [Franklin's transfer credit evaluation tool](#) provide an unofficial evaluation that estimates your transfer credits in as few as

10 minutes.

- **When is too late to go back to college?** It's never too late to go back to college. Finishing your degree is an achievement that is rewarding personally, professionally and financially. However, some previously earned credits may expire. Typically, course credits within the science, technology, engineering, and mathematics (STEM) fields expire within 10 years due to the constant advancements in these fields. [You can find more answers to credit expiration questions here.](#)
- **How difficult will it be to finish?** Finishing your degree will take dedication, but with proper planning you can make it happen. Choosing the right college can make it much easier to complete your degree. As a working adult, finding a flexible, online program that will help you earn your degree on your schedule can be the key difference in whether or not you finish your degree.

Choose A Transfer-Friendly Online College For Working Adults

Franklin University has been dedicated to helping busy adults complete their college degrees for 115 years. This commitment and experience has built an experience designed to meet the specific needs of working professionals, especially those with some college and no degree.

Franklin University is a transfer-friendly university that offers 100% online degrees that fit your schedule. Franklin accepts up to 94 transfer credit hours, which is about 75% of the credit you need to earn your degree. Whether you have taken a short or long break in your education, Franklin can help you get back on track to graduation.

Can I Go Back To College If I Dropped Out?

Adult Learner

If you withdrew from college, you aren't alone. In the United States, the overall dropout rate for undergraduate college students is 40%, with approximately 30% of college freshmen dropping out before

their sophomore year.

There are many valid reasons students drop out. Rising tuition costs, family and personal circumstances and inability to balance work and school can all contribute to a student's choice to withdraw from college.

However, just because you dropped out doesn't mean you can't go back to college.

Can I Go Back To College If I Dropped Out?

1 million

Previous college dropouts returned to school and completed their degree

1.1 million

Previous college dropouts returned to school were still working on their degree

Source: National Student Clearinghouse (NCS) Research Center 2014-2019

College dropout rates can be deceiving because they often don't represent the number of students who return to successfully complete their degree. The National Student Clearinghouse Research Center reported that 1 million dropout students returned to school and completed their degree between 2014 and 2019. Another 1.1 million students were still working to complete their degree.

If you're a working adult who withdrew from college and is ready to recommit to getting your degree, we're here to help. Let's address some of the top questions and concerns for working adults re-applying to

college.

When it comes to paying for school, grants are among your best options. But do you know how to find them? Remove the guesswork by downloading this free guide.

Four Paths for Going Back to College After Dropping Out

Every student's path back to school is different. For some students, withdrawing from college is a short break. For others it may take over a decade before they return to school. No matter how long it's been or where you attended college previously, you have options for how to re-apply to college.

Let's look at four of the most common pathways to college completion and for whom they are the best fit:

1. **Completing your degree at your former college** may be right if you want to pursue the same career path and are happy with the student experience at the college.
2. **Completing the degree at a different college** may be right if you want to pursue the same career path but have different needs as a student—whether that's more affordable courses, a flexible online learning environment or better student support services.
3. **Earning a new degree at the former college** may be right if you want to pursue a different career but appreciate the learning environment at your previous college.
4. **Earning a new degree at a new college** may be right for you if your previous credits have expired or you want a fresh start at a college that's a better fit for working adults.

Finding The Right College To Finish Your Degree

What To Look For When Choosing a School To Complete Your Degree After Dropping Out

**In-Field Expert
Faculty**

**Networking
Opportunities**

Microcredentials

**Certification
Qualifications**

**Flexible
Scheduling**

**Online
Courses**

**FRANKLIN
UNIVERSITY**

Whether attending the same college or a new one, most successful returning students choose to complete their degree through an online program. Finishing your degree online provides a flexible option

that makes it easier to balance your work, education and personal life.

Let's look at what makes an online degree program ideal for a working adult with some college credit who wants to re-enroll in college. Look for online colleges that specialize in meeting the needs of transfer students, indicated by the following characteristics:

- **Accreditation**, which shows the college meets the highest standards of academic quality.
- **Policies that maximize transfer credit**, including acceptance of non-traditional transfer credits like previous work experience, professional credentials or military credit. The percentage of students receiving transfer credit is also a strong indicator of transferability. For example, more than 90% of Franklin University students receive transfer credit toward their degree.
- **Affordable cost per credit hour** and one-on-one financial aid support.
- **Faculty with extensive industry experience** who can translate course content into practical learning experiences.
- **Networking opportunities** that will help you grow your professional connections.
- **Microcredentials and certification qualifications** built into degree programs, helping to showcase mastery of in-demand skills.
- **Flexible online courses** that combine independent study with real-time meetings and individualized support.

5 Tips for Returning to College After Dropping Out

Going back to school is a significant undertaking. It's also a major accomplishment that provides many rewards. Make sure you're prepared to succeed by following these tips.

1. **Know why you want to go back—and why you're prepared to succeed.** Determining your "why," whether it's career advancement, a salary increase, or a sense of accomplishment, will help you stay motivated as you complete your degree. Recognizing your personal and professional growth since the last time you attended college can give you confidence as you undertake this endeavor.
2. **Make a realistic schedule and stick to it.** Plan to spend 10-15 hours per week on your coursework

and pace it out so you don't fall victim to procrastination. Effective time management is one of the top indicators of success for working adults who return to school.

3. **Reduce time to graduation by choosing a transfer-friendly school.** A transfer-friendly college will work with you to determine how many of your previous credits transfer. For example, Franklin University provides a free, online transfer credit tool to help you estimate your transfer credit. Franklin's transfer credit team is also happy to meet with you one-on-one to discuss your potential transfer credit.
4. **Watch out for colleges that sound too good to be true.** There are online colleges out there that will over promise and under deliver. Make sure you thoroughly vet any college to ensure that student outcomes show that adult learners are successful. Nonprofit colleges may be a better fit since they are designed to support students, not deliver profits on behalf of shareholders.
5. **Build a strong support network.** As an adult returning to college, you can't do it alone. Whether you're balancing professional pursuits or family responsibilities, you need people in your corner. Look to professional mentors, peers, faculty members and friends and family to help you stay the course and complete your degree.

Remember: there's never a perfect time to go back to school. However, if you make a plan, stay dedicated, and build your support system, you can reap the rewards of finishing your college degree.

Choose an Online College Built For Working Adults

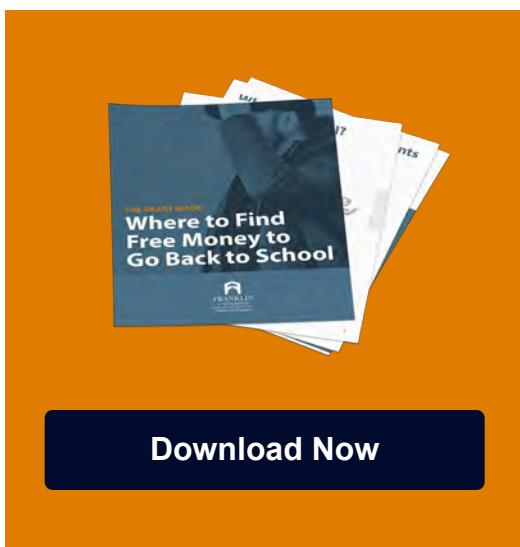

As a working professional who is returning to school after dropping out, you have a unique set of needs that traditional colleges may not be able to meet.

At Franklin University, the average age of students is 34. Franklin's programs are designed to meet the needs of working adults who want to maximize previous experience to complete their degree. Here are the top reasons Franklin stands out from other colleges:

- **Flexible online courses** ensure you can take your classes and complete your coursework on your schedule and your terms.
- **Our balanced learning approach** equally allocates workload throughout the course to help you balance your study time with other commitments.

- **Multiple start dates and variable course lengths** make sure you can start and finish faster and schedule courses that fit into your busy life.
- **Types of transfer credit**, including military training, professional certifications, work experience and portfolio credit, and more can count toward your degree.

Explore even more ways that the Franklin experience can set you up for success and help you earn your college degree.

Valued by Employers

Pick a university that employers both recognize and respect: Franklin University. Our graduates are working and advancing their careers at a wide variety of organizations, from Fortune 100 companies to regional powerhouses all around the world. Find out why our reach and reputation matter to you.

[LEARN MORE](#)

As a Nonprofit, We're Invested in You

Choose a university built for students, not shareholders. From committed leadership, to career-focused academics, to 360-degree student support, we provide a learning experience that's all about you.

Why Nonprofit Matters

Because we're a private, nonprofit institute of higher education, we're free to invest in you, your college education, and your future rather than pleasing profit-focused shareholders and holding group entities.

Nonprofit vs For-Profit

At Franklin, you, your education, and your future always come first. In fact, everything we do is student-centered. But, because they're bottom line-focused, for-profit universities must make turning a profit their number one priority.

Investing In The Future

We invest our time, energy, and budget into creating high-quality, in-demand academic programs, attracting and retaining stellar faculty and staff, enhancing relationships, building partnerships, engaging our communities, and expanding our accessibility and reach.

Campus Safety

Staying Safe at Franklin

Help us keep Franklin's Main Campus safe and secure. Although security personnel are on duty whenever classes are in session and during routine business hours, they simply cannot be everywhere at once. So we rely on you to report suspicious activity, and to take

reasonable precautions to enhance your personal safety while on campus.

[VIEW SAFETY TIPS](#)

Intervention & Awareness

If you're concerned about a situation or behavior that seems inappropriate for campus, please report it (we don't need your name) so our Franklin Intervention & Awareness Team (FIAT) can address it. FIAT is comprised of both Franklin faculty and administration and is tasked with promoting health and safety through awareness and prevention.

[REPORT A CONCERN ANONYMOUSLY](#)

Emergency Procedures

What to Do In An Emergency

Because safety matters, we want you to know what to do in case of an on-campus emergency at Franklin. We've put together a series of emergency procedures to help ensure that the Franklin University community is a safe and secure learning and working environment.

[DOWNLOAD EMERGENCY MANAGEMENT GUIDE](#)

Active Shooter Emergency Response

The Franklin University Department of Safety & Security Services works hard to maintain the highest level of safety across our campus community. In collaboration with our students, staff, faculty, visitors and local law enforcement, we participate in safety services

and crime-prevention programs that help make Franklin a safe and secure place to work and learn.

With this goal in mind, the Department of Safety & Security Services has collaborated with our safety partners to provide a video addressing what you can do to stay safe in the event of an active shooter and/or active aggressor incident on our campus.

While it is everyone's hope we never have to deal with this situation, we hope you will make time to watch this important video:

Naloxone and the Opioid Task Force

Franklin University recognizes the impact that opioid addiction has on the community. Since 2019, the Department of Safety & Security Services has received regular training in recognizing the signs of an opioid overdose and in administering Naloxone. Naloxone (commonly known as NARCAN®) is a medication that can reverse an overdose caused by an opioid drug (heroin, illicit fentanyl, or prescription pain medications). When administered during an overdose, naloxone blocks the effects of opioids on the brain and quickly restores breathing. Naloxone has been used safely by emergency medical professionals for more than 40 years and has only one critical function: to prevent overdose death by reversing the effects of opioids. Naloxone is a safe, non-controlled

drug and has no potential for abuse.

An opioid overdose happens when a person takes too much of an opioid, or combination of opioids and other drugs, at a level that is toxic to the body. Sometimes it can be hard to tell if a person who is using opioids is actually experiencing a life-threatening overdose. If you are unsure, it is best to assume there is an overdose — you could save a life. Signs of an overdose include:

- Unresponsiveness or unconsciousness.
- Slowed or stopped breathing.
- Snoring or gurgling sounds.
- Cold or clammy skin.
- Discolored lips or fingernails.

In partnership with Franklin County Public Health, the Franklin University Department of Safety & Security Services maintains a supply of Naloxone. If you witness someone on or near campus whom you believe may have overdosed on opioids, call 911, then contact the Department of Safety and Security Services at 614-947-6902. For additional information, please visit <https://www.opioidtaskforce.org/>

Crime Alerts

Awareness is key to staying safe so this area is dedicated to alerting the Franklin University community about suspicious behavior or crime occurring on or near any of our locations.

Staff and students are reminded to always be aware of their surroundings and avoid suspicious persons or activities. Staff and students should report any information they have regarding this incident or any future suspicious activity they observe to the Department of Safety and Security Services at 614-947-6902 or the local police department having jurisdiction at the particular Franklin location.

If you witness any suspicious person(s) or vehicles in or around Franklin University please contact the Special Duty Officer at (614) 947-6902. In a life threatening emergency dial "911."

If you have information related to any posted alerts, please contact Safety & Security Services at 614.947.6900.

FRANKLIN UNIVERSITY PRIVACY POLICY

[HOME](#) / [ABOUT US](#) / [POLICY INFORMATION](#) / [PRIVACY STATEMENT](#)

Franklin University Privacy Policy

Franklin University (“Franklin”, “University”, or “We”) respects your privacy and is committed to protecting it through our compliance with this policy.

This Privacy Policy (“Policy”) outlines how we collect, use, and protect the personal information of our website visitors and users.

The University is also committed to ensuring the security of your personal information. By using our website, you consent to the practices described in this policy.

Privacy Settings

Control your cookie preferences and more.

MANAGE YOUR PRIVACY SETTINGS

1. Information We Collect

1.1 Personal Information

It is always up to you whether to disclose personally identifiable information to us, although if you elect not to do so, we reserve the right not to register you as a user or provide you with any products or services.

We may collect personal information such as your name, email address, contact number, and other relevant details when you voluntarily provide it to us through forms, registrations, or other means.

1.2 Where We Collect It

This Online Privacy Policy explains how the University collects, uses, and discloses information, including cookies, in compliance with applicable laws, including the California Consumer Privacy Act (CCPA), the General Data Protection Regulation (GDPR), and other relevant privacy regulations worldwide.

Under applicable privacy laws, you may have certain rights regarding your personal information, including the right to access, correct, delete, or restrict the processing of your information. You may also have the right to object to the processing of your information or withdraw your consent. To exercise these rights, please contact us at privacy@franklin.edu

If you are accessing our website from outside the United States, please be aware that your information may be transferred to, stored, and processed in the United States or other countries. By using our website, you consent to the transfer of your information to these countries, which may have different data protection laws than your country of residence.

1.3 Student or Visitor Options

Students and/or visitors who visit the Franklin University website may be required to consent to cookie requirements depending on their geographic location. Cookie consent requirements vary across different jurisdictions, as each country or region has its own data protection laws and regulations. Here is an overview of key geographies and their cookie consent requirements, to include the European Union, the United States, the State of California, Canada, the United Kingdom, and other areas not mentioned:

1.3.1 European Union (EU) - General Data Protection Regulation (GDPR)

The GDPR requires website operators to obtain informed and freely given consent from users before placing non-essential cookies on their devices. Websites must provide clear and specific information about the types of cookies used, their purpose, and how users can manage their preferences. Consent must be obtained through affirmative actions, such as clicking an "Accept" button or actively adjusting cookie settings. Users have the right to withdraw their consent at any time and must be provided with an easy and accessible way to do so. Under the GDPR in the EU, the collection and use of cookies are subject to specific requirements and guidelines. The GDPR defines cookies as a form of personal data if they can be used to identify an individual directly or indirectly. Here are some key considerations regarding the types of cookies that can or cannot be collected under the GDPR:

1.3.1.1 Necessary Cookies: The GDPR allows for the collection of cookies that are strictly necessary for the functioning of a website or service. These cookies are essential for providing the requested service or enabling basic website functionality, such as remembering user preferences, maintaining session information, and facilitating e-commerce transactions. Consent is not required for the collection of necessary cookies.

1.3.1.2 Performance and Functionality Cookies: The GDPR permits the collection of performance and functionality cookies that enhance the user experience but are not strictly necessary for the website's basic functionality. These cookies may include analytics cookies that collect information about website usage, such as the number of visitors, pages visited, and user behavior. Consent is generally required for the collection of performance and functionality cookies.

1.3.1.3 Advertising and Tracking Cookies: The GDPR imposes stricter requirements for the collection of advertising and tracking cookies. These cookies are used to track user behavior across websites and deliver targeted advertisements. Consent is generally required for the collection of advertising and tracking cookies. Users must be provided with clear and specific information about the purposes of these cookies and have the ability to give or withhold consent.

1.3.1.4 Third-Party Cookies: The GDPR also addresses the collection of cookies by third-party entities. If a website allows third-party cookies for advertising or tracking purposes, businesses must obtain user consent and provide clear information about the third parties involved and the purposes of the cookies.

Consent under the GDPR must be freely given, specific, informed, and unambiguous. Users must have the ability to give or withhold consent, and they must be provided with clear information about the types of cookies used, their purposes, and any third parties involved. Consent should be obtained through affirmative actions, such as clicking an "Accept" button or actively adjusting cookie settings.

It's important to note that the GDPR grants individuals certain rights regarding their personal data, including the right to be informed about the collection and use of their data, the right to access and rectify their data, the right to restrict or object to the processing of their data, and the right to have their data erased. Businesses subject to the GDPR must comply with these rights and provide the necessary mechanisms for individuals to exercise them.

1.3.2 United States

The United States does not have a comprehensive federal data protection law like the GDPR. Instead, cookie consent requirements may vary at the state level. Some states, such as California, have implemented their own privacy laws, like the CCPA and the California Privacy Rights Act (CPRA). These laws require website operators to provide clear and conspicuous notices about the types of cookies used and their purpose. Users must be given the option to opt-out of the sale of their personal information, which may include certain cookies.

1.3.2.1 CCPA

Under the CCPA in the United States, there are specific requirements and guidelines regarding the collection and use of cookies. The CCPA defines personal information broadly and includes online identifiers such as cookies. Here are some key considerations regarding the types of cookies that can or cannot be collected under the CCPA:

A. Essential Cookies: The CCPA allows for the collection of cookies that are necessary for the functioning of a website or service. These are typically referred to as "essential" or "strictly necessary" cookies. They enable basic website functionality, such as remembering user preferences, allowing access to secure areas, and facilitating e-commerce transactions. These cookies can be collected without the need for explicit user consent.

B. Non-Essential Cookies: The CCPA requires businesses to obtain user consent before collecting non-essential cookies or cookies that are used for purposes beyond the basic functioning of a website. Non-essential cookies include:

- i. Analytics Cookies: These cookies are used to collect information about website usage, such as the number of visitors, pages visited, and user behavior. Consent is generally required for the collection of analytics cookies.
- ii. Advertising Cookies: These cookies are used to track user behavior across websites and deliver targeted advertisements. The collection of advertising cookies generally requires user consent.
- iii. Social Media Cookies: These cookies allow users to share content from a website on social media platforms. Consent is typically required for the collection of social media cookies.

C. Third-Party Cookies: The CCPA also addresses the collection of cookies by third-party entities. If a website allows third-party cookies for advertising or tracking purposes, businesses must provide a clear and conspicuous opt-out mechanism for users to exercise their right to opt-out of the sale of their personal information. This opt-out must be accessible through a "Do Not Sell My Personal Information" link on the website.

It's important to note that the CCPA grants California residents certain rights regarding their personal information, including the right to know what personal information is being collected, the right to opt-out of the sale of personal information, and the right to request deletion of their personal information. Businesses subject to the CCPA must comply with these rights and provide the necessary mechanisms for users to exercise them.

1.3.3 Canada

In Canada, the Personal Information Protection and Electronic Documents Act (PIPEDA) governs cookie consent requirements. Consent must be obtained before collecting, using, or disclosing personal information, including through the use of cookies. Websites must provide clear and understandable information about the purposes of the cookies and how users can manage their preferences.

1.3.4 United Kingdom (UK)

The UK has adopted the GDPR into its domestic law with the Data Protection Act 2018. Similar to the EU, cookie consent in the UK requires informed and freely given consent. Website operators must provide clear information about the types of cookies used and obtain affirmative actions from users to indicate their consent.

1.4 Global Privacy Control (GPC)

The Global Privacy Control is an initiative that aims to provide users with a universal mechanism to exercise their privacy preferences across websites. GPC allows users to signal their preference for not having their data sold or shared by enabling a browser setting or extension. Website operators are expected to respect this signal and honor users' privacy preferences.

1.5 Do Not Track (DNT)

Do Not Track is a browser feature that allows users to indicate their preference for not being tracked across websites. However, DNT is not universally recognized or enforced by website operators. It is up to individual websites to decide whether or not to respect the DNT signal.

1.6 Other Information

In addition, Franklin may have the occasion to collect non-personal anonymous demographic information such as age, gender, household income, political affiliation, race, and religion, as well as the type of browser you are using, Internet Protocol (IP) address,

or type of operating system, which will assist us in providing and maintain superior quality service. This data is collected through cookies, web beacons, flash cookies, and similar technologies. The University uses different types of cookies, to include:

- First-party cookies – are those used by the University when you visit our website. We use these to make your experience on our website better and to ensure our website functions as expected. Only the University can access this data.
- Third-party cookies – are those from third parties that we place on our website. We use these to track our advertising effectiveness, improve advertising that we may deliver to you after you leave our site and support your experience on our site. The third parties have access to this data, often, the pages you visited on our website and your location.
- Cookie Duration – a session cookie is temporarily stored in your browser on your computer, phone, or other device. It is deleted after you leave the website or when you close the browser.
- Persistent cookie – is stored on your browser on your computer, phone or other device. It is active until you delete it, or it expires.
- Social Media cookies – are used to connect a website to a third-party social media platform. They remember a user's details after the user signs into a social media account from a website. Many social media cookies are set through plugins, widgets, and sharing buttons.

The following types of cookies are used to collect data after consent:

- Strictly Necessary Cookies – are those that enable a website to function without them, it will either not work at all or will not work properly. These cookies include ones that enable users to log into secure areas of the website and use a shopping cart. These cookies do not track any personal data of visitors.
- Performance Cookies – are used for collecting data on how visitors behave on a website. This performance, also called analytics cookies, can count page visits, how

much time a user has spent on a website, count errors on damaged websites, as well as bounce rates and loading speeds to improve performance.

- Functional Cookies – allow websites to remember the user's site preferences and choices they make on the site including username, region, and language. This allows the website to provide personalized features like local news stories and weather if you share your location.
- Targeting Cookies – are small, encrypted files that track users' actions and are used to identify users between different websites. Targeting cookies collect user information and use it to build a profile of users' interests and then show personalized ads for that specific user.

2. Use of Information Collected

2.1 Personal Information

Franklin may collect and make use of personal information to assist in the operation of our website and to ensure delivery of the services you need and request. We may use your personal information to communicate with you, respond to inquiries, and send relevant updates or newsletters. At times, we may find it necessary to use personally identifiable information as a means to keep you informed of other possible products and/or services that may be available to you from Franklin University.

2.2 Usage Data

Franklin may also be in contact with you with regards to completing surveys and/or research questionnaires related to your opinion of current or potential future services that may be offered. We also use usage data to analyze trends, improve our website, and enhance user experience. This data helps us understand how visitors interact with our site and allows us to make necessary improvements.

3. Disclosure of Information

We do not sell, trade, or rent your personal information to third parties. However, we may share your information with trusted service providers who assist us in operating our website or delivering services to you. These providers are obligated to keep your information confidential and are not permitted to use it for any other purpose.

We may also disclose your personal information if required by law or to protect our rights, safety, or property.

4. Data Security

We implement appropriate security measures to protect your personal information from unauthorized access, alteration, disclosure, or destruction.

While we strive to protect your personal information, please note that no method of transmission over the Internet or electronic storage is 100% secure. We cannot guarantee absolute security.

5. Third-Party Links

Our website may contain links to third-party websites. We are not responsible for the privacy practices or content of these websites. We encourage you to review the privacy policies of any third-party sites you visit.

6. Children's Privacy

Both Ohio law and federal law prohibit the disclosure of a student's personally identifiable information (including most of the education record) without the written consent of the parent, or of the student, if the student is over the age of 18.

Our website is not directed to, and does not knowingly collect personal identifiable information from, children under the age of thirteen (13). If you believe we have inadvertently collected information from a child, please contact us to have it removed.

If we learn we have collected or received personal data from a child under 13 without verification of parental consent, we will delete that information. If you believe we might

have any information about a child under 13, please contact us at privacy@franklin.edu .

Residents of certain states that are under 16 years of age may have additional rights regarding the collection and sale of their personal data. Please see Your State Privacy Rights section below, for more information.

7. FERPA Statement

The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the privacy of student education records. At Franklin University, we are committed to complying with FERPA regulations and safeguarding the privacy of our students' educational information. Refer to the following URL for the University's Notice of Privacy Rights: <https://www.franklin.edu/about-us/policy-information/notice-privacy-rig...;>

8. Changes to the Privacy Policy

We reserve the right to modify or update this Privacy Policy at any time. Any changes will be effective immediately upon posting on our website. We encourage you to review this policy periodically.

9. Data Retention

The data we collect from you will be stored for no longer than necessary. The length of time we retain said information will be determined based upon the following criteria: 1. The length of time your personal information remains relevant; 2. The length of time it is reasonable to keep records to demonstrate that we have fulfilled our duties and obligations; 3. Any limitation periods within which claims might be made; 4. Any retention periods prescribed by law or recommended by regulators professional bodies or associations; and 5. The type of contract we have with you, the existence of your consent, and our legitimate interest in keeping such information as stated in this Policy.

10. Contact Information

If you have any questions, concerns, or requests regarding this Online Privacy Policy, or want to see additional details on how we collect or use data, please contact us at privacy@franklin.edu.

Copyright 2024 Franklin University

Franklin University is accredited by the Higher Learning Commission (hlcommission.org/800.621.7440) and authorized by the Ohio Department of Higher Education.

Franklin University is committed to being an inclusive community free from all forms of discrimination and harassment.

INFORMATION TECHNOLOGY ACCEPTABLE USE

[HOME](#) / [ABOUT US](#) / [POLICY INFORMATION](#) / INFORMATION TECHNOLOGY ACCEPTABLE USE

Information Technology Acceptable Use Policy

Franklin University promotes the use of electronic communication, telecommunication and computing resources for the purposes of University instruction, advancement, administration, research and study. All users are required to respect applicable copyright, privacy and licensing regulations. It is the responsibility of all users to uphold the integrity and validity of information contained in the University databases and communications.

Electronic Communication:

Anonymous Activity -- Sending information that does not correctly identify the sender is a violation of this policy unless the recipient expressly requests and accepts anonymous information. Further, users should not disguise or attempt to disguise their identity or the identity of the part of the electronic system they are using unless expressly requested and accepted by the recipient.

Communication tampering and privacy:

Franklin University provides electronic communication to faculty, staff and students at the University's expense for their use on University business and incidentally for personal purposes, so long as it does not violate University policy or adversely affect others.

It is in violation of this policy to monitor or attempt to monitor other people's communications without their permission. Likewise, users should not view, read, listen to, copy, change, execute or delete another user's information without that user's or the

owner's permission. This includes but is not limited to monitoring, reading or tampering with electronic communication of which an individual is neither the author nor the addressee. In particular, users should not read, listen to or view electronic communication without the consent of the addressee. Exceptions for legitimate purposes should be obtained from the System Administrator. The System Administrator may read, or authorize electronic systems "postmasters" to read electronic files as necessary in order to correct addresses on "dead letters," perform other diagnostic tasks or assure compliance with University policy.

The ability of the University to protect privacy is limited to the on-campus network and does not extend outside Franklin.

The policies described apply to both electronic messages currently stored online as well as archived files.

Usage Guidelines:

- Always keep in mind the fact that electronic communication does not carry the body language or voice inflection of regular conversation. It is all too easy to be insulting when you mean to be funny. Learn what the various smiley characters mean.
- When you respond to an article or mail, ask yourself if your response will be interesting to everybody, just the author or just you.
- When you start reading a newsgroup for the first time, look for and read the FAQ (frequently asked questions) article before you submit any articles of your own.
- Include a signature on all Usenet articles which indicates that the post does not represent the University's position.
- Restrict your signature to four lines or less.
- Governing Legislation Users who develop new packages that include components subject to use, copying, or redistribution restrictions have the responsibility to make any such restrictions known to the users of those packages.

Penalties for Misuse:

Users who violate the Information Technology Acceptable Use Policy will be subject to discipline which may include loss of system user privileges.

About Franklin

As a private, [nonprofit institution](#) founded in 1902 in Columbus, Ohio, Franklin serves the needs of [adult students](#) who have the ambition to continue their education in combination with other responsibilities.

Today, Franklin is one of Ohio's largest private universities with nearly 45,000 alumni across the country and around the world, serving the communities in which they live and work.

As an [accredited](#), student-centered leader in [online learning](#), Franklin University offers respected, in-demand [undergraduate](#) and [graduate](#) degree programs. Our classes are taught online and at numerous Midwest [university locations](#), and our [MBA](#) has broad international reach.

Our Commitment

Franklin University is committed to providing an excellent education in a safe, secure environment. Should you have any questions regarding security and/or inquiries concerning on-campus offenses, Franklin University's Annual Security Report is available in hard copy by contacting the [Department of Safety and Security Services](#) or by accessing it through the website. This report includes campus safety policies and statistics for the previous three years for reported crimes that occurred on campus; in certain off-campus buildings or property owned or controlled by Franklin University; and on property within, or immediately adjacent to and accessible from, the campus. Offenses listed include liquor law violations, burglary, motor vehicle theft, robbery, aggravated assault and other matters.

TRANSFER INTO BACHELOR'S DEGREE

[HOME](#) / [TRANSFERRING CREDIT](#) / TRANSFER INTO A BACHELOR'S DEGREE

Transfer college credits toward a bachelor's degree

If you've already taken some college classes and are ready to finish your [bachelor's degree](#), there's great news for you: You could finish faster by transferring up to 94 credit hours from another institution to Franklin.

Plus, our [transfer-friendly process](#) makes it simple and seamless to evaluate your eligibility. We want to make sure you get all the transfer credits you're entitled to. Let's talk about how transferring credits can save you time and money toward your degree.

Maximize Transfer Credits

More than 90% of undergraduate students transfer credit to Franklin.

Save Time & Money

Finish your bachelor's degree faster when you transfer up to 94 semester hours of credits to Franklin.

Types of Credits That Transfer Toward Your Bachelor's Degree

Find out what qualifies for transfer credit toward Franklin's bachelor's degree programs.

Hint: It's more than you'll get at many other schools.

Previous College Credit

We'll help you maximize the number of earned credits

you can transfer from other four-year institutions so that you can save time and money on your bachelor's degree.

[LEARN MORE](#)

Community College Credit

Our 3+1 articulation agreements provide an affordable path to earning your bachelor's degree. Take 3 years of coursework at your community or technical college at a reduced rate, and then seamlessly transfer your associate degree credits to Franklin, where you'll take an additional year of courses and earn your bachelor's degree.

[LEARN MORE](#)

Vocational College Credit

Our generous transfer credit program grants technical credit toward your degree for your vocational, technical and other experience.

[LEARN MORE](#)

Military Training Credit

If you're an active duty or reserve service member, a member of the National Guard or a military veteran, you may be eligible for college credit for your military experience.

[LEARN MORE](#)

Professional Training Credit

Professional training and work experience count toward your bachelor's degree at Franklin. Get credit for professional training and licenses, and industry

certifications.

[LEARN MORE](#)

Testing Credit

Test out of bachelor's-level courses and earn credit by examination for passing CLEP, DSST and other proficiency exams.

Ohio

thanks to global opportunities, ever-changing regulatory requirements and complex business acquisitions. Both private industry and the government need well-prepared accounting professionals.

Let Franklin University's [transfer-friendly](#) Accounting bachelor's degree program help you become someone who speaks the language of business.

Finish Faster

Transfer up to 94 previously earned college credits.

Bachelor's in Accounting Degree Overview

Develop sought-after accounting skills and prepare for certification

Thanks to global business opportunities, dynamic regulatory environments, and industry acquisitions and consolidations, the face of accounting has forever changed. There's a

growing demand for accountants who can handle industry complexities and provide value to their organizations. Fortunately, this means more opportunities for accounting graduates – and Franklin's highly respected Accounting degree program can help you capitalize. The online bachelor's in Accounting degree at Franklin provides the full range of skills employers desire in such areas as financial reporting and analysis, managerial accounting and cost management, tax accounting, auditing and accounting ethics, and financial management.

Microcredentials Align with Job Essentials

In today's dynamic work environments, adaptive professionals thrive. A microcredential - either as a stand-alone course or integrated into your degree program - is a short, skill-specific recognition that enables you to demonstrate your competency in a distinct area. Like Franklin's degree programs, microcredentials are aligned with market and industry demand to ensure what you learn can be put to use right away. Microcredentials are easily shared via digital badges and can be stacked to create a unique portfolio of in-demand skills.

Hear What Our Business Administration
Graduates Are Saying

Kathy H.

B.S. Business Administration '21

"Professionally, this
accomplishment will
prepare me for new

adventures and challenges
with better knowledge to
excel in my field. Thank
you, Franklin faculty and
staff."

Tiphanie B.

B.S. Business Administration '20

"Achieving my degree is a
goal I set many years ago.
I am proud and excited to
see the new opportunities
this will lead me to on a
new career journey."

Juan B.

B.S. Business Administration '11

"Franklin taught me how to
be a more effective leader.
I learned I don't always
have to be out in front and
in charge to be a leader.
Effective leaders identify
the strengths of every
person to advance the
team."

Alexandra R.

B.S. Business Administration '20

"I feel like I now have the tools to being successful in everything that I do."

Sarah D.

B.S. Business Administration '20

"This accomplishment means everything to me.

Being a single mom,
working full time, and
going to school definitely
required a lot of faith,
strength and dedication -

but I did it!"

Steve N.

B.S. Business Administration '20

"I am so happy and proud of this accomplishment. I am a first-generation college graduate."

Kennedy F.

B.S. Business Administration '21

"Thank you, Franklin

University for providing me
with the education to
accomplish my goals and
further my career!"

Kendra B.

B.S. Business Administration '21

"I am extremely proud of
my academic
accomplishment that I
achieved while working full
time."

Ashlee W.

B.S. Business Administration '21

"I'm excited to advance in
my career and continue to
make myself and my family
proud."

Microcredentials Align with Job Essentials

In today's dynamic work environments, adaptive professionals thrive. A microcredential - either as a stand-alone course or integrated into your degree program - is a short, skill-specific recognition that enables you to demonstrate your competency in a distinct area. Like Franklin's degree programs, microcredentials are aligned with market and industry demand to ensure what you learn can be put to use right away. Microcredentials are easily shared via digital badges and can be stacked to create a unique portfolio of in-demand skills.

Guard against digital threats with a cybersecurity degree

When data networks and computer systems are compromised, exposed or exploited, the effects can be more far-reaching than any single business entity --

Program Availability

Ohio

it can literally affect millions of customers. That's why cybersecurity has exploded as a field: to provide critical protection of information assets from unauthorized or unintentional disclosure, modification or loss. With Franklin's [transfer-friendly](#), online B.S. Cybersecurity degree program, you'll learn how to respond to security breaches with state-of-the-art tactics and countermeasures.

NSA Designated

Our program is nationally recognized for excellence in cyber defense education.

Program Overview

Mitigate risk and provide critical protection against digital hijacking

Franklin University's Cybersecurity degree program prepares you for a red-hot career in business, industry or government, protecting valuable data (and the bottom line) from security threats and hackers. So in-demand are cybersecurity professionals, that a 2019 report from Burning Glass reported that cybersecurity workers command 16 percent more in salary than other IT professionals. Perhaps that's why cybersecurity jobs are projected to grow by 9 percent, which is much faster than average between 2021 and 2031.*

Become a trusted advisor with a financial planning degree

Finances can be confusing. Add in complicated financial products, government regulations and 78 million retiring Baby Boomers, and you'll understand why qualified financial planning

Program Availability

Ohio

jobs are expected to increase faster than the national average. Franklin's Financial Planning degree program prepares you to help people reach their financial goals. You also can choose to specialize in a specific area of planning, such as debt payoff, education, estate, healthcare, income, investments, retirement and tax.

IACBE Accredited

Our program follows best-practice standards for business education.

B.S. Financial Planning Program Overview

Help families and small business owners achieve their financial future

Our [transfer-friendly](#) Financial Planning degree program prepares you to be on the frontlines of this flourishing field. Our program equips you to become a personal financial

advisor who can help families holistically plan their financial futures—or to specialize in a specific area, such as tax planning, estate planning, investment strategy, education planning, debt management, healthcare planning, or retirement savings and income planning.

Microcredentials Align with Job Essentials

In today's dynamic work environments, adaptive professionals thrive. A microcredential - either as a stand-alone course or integrated into your degree program - is a short, skill-specific recognition that enables you to demonstrate your competency in a distinct area. Like Franklin's degree programs, microcredentials are aligned with market and industry demand to ensure what you learn can be put to use right away. Microcredentials are easily shared via digital badges and can be stacked to create a unique portfolio of in-demand skills.

Detect & expose fraud with a forensic accounting degree

It's a statistical fact: Most forms of occupational fraud are finance related. That's why forensic accounting is such a fast-growing segment of the accounting profession. Forensic accountants help

Program Availability

Ohio

prevent and investigate corporate fraud. From tracking terrorist funding, to helping organizations stay compliant with Sarbanes-Oxley, to exposing money laundering, tax evasion and embezzlement, a variety of organizations across an array of industries are in need of well-prepared forensic accountants.

IACBE Accredited

Our program follows best-practice standards for business education.

Program Overview

Become a financial detective and prevent white-collar crime

While many colleges offer forensic accounting programs at the graduate level, Franklin is one of the few universities offering a Forensic Accounting bachelor's degree program in this high-demand field. That means you'll acquire specialized forensic accounting

knowledge to qualify you for an exciting career position—without the time and expense of a graduate degree.

Program Overview

Collect, analyze, and protect vital patient information

With our [transfer-friendly](#) Health Information Management (HIM) degree program, you'll be prepared to help streamline patient care issues. You will gain the knowledge and confidence to work with others at the management table to develop policies and processes that provide quick access to critical patient data while ensuring confidentiality and the proper release of patient information.

[Read more >](#)

Specialized Accreditation

The Health Information Management accreditor of Franklin University is the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM). The College's accreditation for the baccalaureate degree in Health Information Management has been reaffirmed through 2028-2029. All inquiries about the program's accreditation status should be directed by mail to CAHIIM, 200 East Randolph Street, Suite 5100, Chicago, IL, 60601; by phone at (312) 235-3255; or by email at info@cahiim.org.

CAHIIM Student Achievement Data for the 2019-2020 academic year

- Graduation Rate*: NA

**Per CAHIM direction, the graduation rate metric is based on FAFSA's Six-Year Undergraduate, Graduation rate definition for full-time, first-time, degree-seeking undergraduates who entered the university in the fall term and graduated within six years of attendance (150% of the normal completion time). This definition does not include part-time students, transfer students, or students who left school to serve in the armed forces. The majority of Franklin students attend part-time and may begin their enrollment in a term other than the fall semester. Franklin students balance finishing their degrees with work, family and other competing priorities therefore, unexpected breaks are sometimes necessary. Additionally, approximately 90% of our students transfer credit from other institutions. Per the above FAFSA definition, Franklin University did not have graduates who met these parameters for the 2019-2020 academic year.*

Impact a growing field with an online bachelor's in healthcare management

It's a fact: The population of older Americans is growing. A recent report from the Population Reference Bureau says that the number of U.S. adults age 65+ will double to more than 98 million by 2060.

Program Availability

Ohio

What does that mean for you? Plenty -- if you're looking for a career in the explosive-growth industry of healthcare. Healthcare jobs are increasing far faster than the national average, and the need for healthcare management professions is just as great.

Customizable Program

Choose electives for a unique-to-you degree program.

Bachelor's in Healthcare Management Degree Overview

Better the well-being of others in this fast-growing field

At its core, healthcare is about taking care of people, from interacting directly with patients

to working behind the scenes to improve the processes and policies that contribute to the overall patient experience. New technologies, breakthrough treatments and government regulations have all dramatically changed the way we care for people.

[Read more >](#)

Tiffany

B.S. Healthcare Management Graduate

"Going to Franklin was a no-brainer. I could still work, not worry about a babysitter and do it in my own time. It was difficult to balance, but I wouldn't trade it for the world. Had it not been for Franklin, there's no way I could be where I am right now."

Microcredentials Align with Job Essentials

In today's dynamic work environments, adaptive professionals thrive. A microcredential - either as a stand-alone course or integrated into your degree program - is a short, skill-specific recognition that enables you to demonstrate your competency in a distinct area. Like Franklin's degree programs, microcredentials are aligned with market and industry

demand to ensure what you learn can be put to use right away. Microcredentials are easily shared via digital badges and can be stacked to create a unique portfolio of in-demand skills.

Hear What Our HR Graduates Are Saying

Curtis L.

B.S. Human Resources Management '21

"It's a great feeling to
accomplish this goal and
set an example for my
son."

Brian K.

B.S. Human Resources Management '21

"Graduating college with a
bachelor's degree has
been a lifelong dream of
mine. I am so grateful to
Franklin University for
helping to make my dream
come true!"

Michelle O.

B.S. Human Resources Management '15

"Franklin's course format
helped me because the
assignments were laid out
for me and organized. I
knew what I needed to
complete and by when. It
helped me with my time
management and helped
me to be successful."

Taylor A.

B.S. Human Resources Management '20

"This accomplishment has
brought a sense of pride
as well as confidence that I
can do anything I set my

mind to."

Chris R.

B.S. Human Resource Management

"Having this education from Franklin has really allowed me to be the successful, professional I am today and without it, I would not be where I am today for sure."

Andrea M.

B.S. Human Resources Management '20

"Receiving my degree is one of the happiest moments of my life, as it solidifies the hard work and time dedicated to achieving this throughout these years. I now look forward to the future and opportunities ahead of me."

Amanda M.

B.S. Human Resources Management '21

"I'm over the moon and it
feels so fantastic that
words can't describe it."

Kevin S.

B.S. Human Resources Management '16

"It was important for me to
feel supported during my
education. The 3+1
transfer program exceeded
by expectations."

Contribute to organizational success with an information systems analytics degree

According to search technology specialists, so much data exists that businesses only analyze 10% of what is available.

Analyzing and applying insights gained from data requires professionals who enjoy working with data, can use data to solve

Program Availability

Ohio

problems and have an affinity for data-driven tools and software. Franklin's 100% online B.S. Information Systems with a focus in Analytics integrates industry-aligned best practices with practical, hands-on learning that will enable you to create data-driven strategies and communicate data insights to stakeholders.

Customizable Program

Tailor your degree to your interests.

B.S. Information Systems-Analytics Focus Degree Overview

Build in-demand analytics skills and the ability to apply what you

learn

With an emphasis on hands-on learning, Franklin's B.S. Information Systems with a focus in Analytics prepares you to excel in data-driven roles. Six focus area courses provide opportunities to analyze and interpret complex data sets, a skill you'll use to help organizations gain insights and make informed decisions. You'll acquire the know-how to develop data-backed strategies, which are increasingly important in competitive industries. You'll learn to identify patterns in data and hone your problem-solving skills to tackle day-to-day on-the-job challenges. Project-based learning with industry-leading visualization tools will enable you to communicate your insights and make data accessible and actionable for non-technical stakeholders.

driven. Franklin University's 100% online B.S. Information Systems with a focus in Business Analysis & Project Management provides a hands-on, industry-aligned approach to help you build the expertise to lead projects, analyze business needs, and develop strategies that impact projects and processes.

Customizable Program

Tailor your degree to your interests.

B.S. Information Systems-Business Analysis & Project Management Focus Degree Overview

Learn to drive efficient business processes and effectively manage

projects

In Franklin's B.S. Information Systems with a focus in Business Analysis & Project Management, you'll apply what you learn through hands-on assignments rooted in real-world scenarios. Through a series of six focus area courses you'll gain the knowledge and skills to plan, execute and manage projects that are completed on time, within budget and aligned with business objectives. You'll learn how to enhance existing business processes and strategies by analyzing an organization's business needs, identifying areas for improvement, and recommending solutions. Project work will enhance your leadership and communication skills so that you can lead project teams, collaborate with stakeholders and convey project goals and progress. You'll also develop your ability to make informed, data-driven decisions that contribute to organizational success.

Take on challenging roles with a business information systems degree

In a world where information is critical to profit and productivity, the professionals responsible for sustaining data accessibility play important roles in the day-to-day operations for organizations in every industry. Franklin's 100% online B.S.

Program Availability

Ohio

Information Systems with a focus in Business Information Systems provides comprehensive knowledge and skills for individuals who want to merge technology and business to analyze complex business problems, identify technological solutions and make data-driven decisions.

Customizable Program

Tailor your degree to your interests.

B.S. Information Systems-Business Information Systems Focus Degree Overview

Gain the knowledge and technical skills to position yourself as an information systems expert

Through 10 major area courses (36 credit hours), which are common to all four of the B.S.

Information Systems focus areas, you'll gain knowledge and skills that span computing, security, analytics and business, as well as the ability to apply information systems technology principles to drive business strategy, translate business needs into executable projects, and evaluate current and emerging technologies.

Improve processes and care with an information systems healthcare degree

Accurate and accessible healthcare information makes a difference for organizations and individuals. From improving processes and patient outcomes to facilitating better treatment plans and more personalized experiences, healthcare

Program Availability

Ohio

data impacts the way care is provided. Franklin University's 100% online B.S. Information Systems with a focus in Healthcare Information Systems provides you with the skills and knowledge to manage healthcare data, navigate regulations and make ethical decisions that improve patient care and healthcare operations.

B.S. Information Systems-Healthcare Information Systems Focus Degree Overview

Acquire industry-aligned skills to manage healthcare data

Designed specifically for the healthcare industry, your B.S. Information Systems with a focus in Healthcare Information Systems provides hands-on practical learning that ensures you can apply your knowledge in real healthcare scenarios. Industry-aligned curriculum in health information management, electronic health records management and healthcare analytics will prepare you for various roles with organizations large and small. With skills in healthcare data management, health informatics and health compliance, you'll be well-positioned to contribute to efforts to improve patient care and streamline operations. The major also provides a deep understanding of healthcare ethics, regulations and privacy requirements, all of which are necessary for effective health information systems professionals.

Industry-Aligned to Fuel Your Career Growth

AWS Academy Member

When it comes to building cloud expertise:

Relevance rules. By choosing Franklin University, an AWS Academy member institution, you can be assured that the knowledge and skills you gain will prepare you well for real-world scenarios. With access to curriculum developed and maintained by AWS, Franklin provides the most up-to-date thinking to help you tackle on-the-job challenges.

Microcredentials Align with Job Essentials

In today's dynamic work environments, adaptive professionals thrive. A microcredential - either as a stand-alone course or integrated into your degree program - is a short, skill-specific recognition that enables you to demonstrate your competency in a distinct area. Like Franklin's degree programs, microcredentials are aligned with market and industry demand to ensure what you learn can be put to use right away. Microcredentials are easily shared via digital badges and can be stacked to create a unique portfolio of in-demand skills.

How Social Sciences Works

Tailor your education to your interests and career direction by building a unique combination of skillsets that demonstrate a broad professional range and proven problem-solving abilities.

1. During your capstone or practicum, you'll apply what you have learned throughout the program to a true-to-life social science exercise using a theoretical or applied approach.
2. Customize your path by choosing courses from a variety of areas, including anthropology, psychology, business economics, criminal justice administration, or sociology.
3. Establish a core set of skills that are valuable to employers in virtually any industry and can seamlessly translate into the specific discipline areas you choose.
4. As with all Franklin majors, general education courses set the foundation for future learning.

Increase your employability with the Social
Sciences program

The average person changes jobs 10 times in his or her career* and taking courses from different social science disciplines will broaden your skillset.

**According to statistics from the U.S. Department of Labor.*

Get in the game with an online sport management degree

Sports is big business and the business is changing rapidly. According to the Business Research Company, today's global sports industry is worth over \$500 billion and growing. Rapid digitization,

Program Availability

Ohio

emergence of e-sports and the globalization of the sports industry have created a massive demand for professionals who are able to shape the future of sports. The B.S. in Sport Management major provides big-league career opportunities for sports-minded individuals with a head for business. You'll learn how essential business concepts translate to the sports industry and open the door to a variety of roles.

Accredited Online University

Nearly 80% of our students take online courses.

Program Overview

Build your leadership skills and style to excel in the sports industry

Franklin's sport management curriculum unites sport science research and sport industry theory with the practical knowledge of sport management in order to enhance your understanding of sport business concepts and techniques so that you can achieve results when working with athletes. You'll get a comprehensive introduction to the coaching profession at various levels including high school, club, youth, recreational and intercollegiate college programs.

Drive difference-making reform with a master's in criminal justice

As our society evolves, so does the threat to law and order. From the treatment of youth in the criminal justice system to the prevention and prosecution of cybercrime, today's criminal justice leaders are in uncharted territory. The M.A. in Criminal

Program Availability

Ohio

Justice Administration at Franklin arms in-career professionals with a comprehensive understanding of the criminal justice system. Theory-to-practice coursework equips graduates to apply knowledge to solve present-day challenges at the local, state or federal level.

Contemporary Curriculum

Evaluate and study trending criminal justice topics.

Master's in Criminal Justice Overview

Build your skillset to take on unprecedented criminal justice challenges

From harsh sentencing laws and mass incarceration to pill mills and the opioid epidemic, our criminal justice system faces unparalleled challenges that affect broad cross-sections of society. While the need for reform may be obvious, a plan for much-needed change is

not.

Microcredentials Align with Job Essentials

In today's dynamic work environments, adaptive professionals thrive. A microcredential - either as a stand-alone course or integrated into your degree program - is a short, skill-specific recognition that enables you to demonstrate your competency in a distinct area.

Like Franklin's degree programs, microcredentials are aligned with market and industry demand to ensure what you learn can be put to use right away. Microcredentials are easily shared via digital badges and can be stacked to create a unique portfolio of in-demand skills.

Lead in higher education with an online master of education degree

Create the ideal environments and opportunities to maximize student achievement with a Master of Education (M.Ed.) in Educational Leadership with a focus in Higher Education Leadership. In

Program Availability

Ohio

this theory-to-practice program, aligned with National Educational Leadership Preparation Program standards, you'll learn how to lead and manage the culture, people and programs that support the development and well-being of learners. With Franklin's streamlined 12-month, 100% online program, you'll gain the knowledge to help you excel as an effective higher education leader.

12-Month Completion

Earn your M.Ed. and qualify for leadership roles faster.

Program Overview

Develop and maintain a student affairs culture that fosters learning and development

The focus area course provides a deep dive into student affairs theory and practice. The broadest and most critical area of a college and university, student affairs bridges academic and administrative departments providing the potential for a multitude of touchpoints with each student over the course of the college experience. In order to help students gain and articulate transferable skills through experiences inside and outside of the classroom, the quality of learner interactions with systems and structures ultimately impacts student achievement.

You'll learn how to define student affairs as a profession and how mission, governance and culture impact the delivery of services to students. You'll be prepared to analyze how finances influence action and articulate strategies to manage legal liability and risk. You will also learn strategies to meet the needs of diverse learners and how to collaborate with stakeholders to define services and create environments that enhance student learning and development.

You'll gain an understanding of educational leadership theories, organizational management and strategies for creating a positive and inclusive school culture. Because the M.Ed. curriculum is aligned to the National Educational Leadership Preparation Program (NELP) Recognition Standards, you'll acquire proven methods to create

environments that foster learning by supporting teachers, allocating resources and creating systems conducive to learning and achievement. You'll also learn about key competencies for success as a leader in education and the significance of constraints like ethics, laws and values.

Re-imagine your future with a master's in accounting for non-accounting majors

Organizations need people who understand the fundamentals of accounting for business, finance, and even forensic accounting. So, what if you're ready for a career pivot yet don't have an undergraduate degree in accounting? With our pathway to Franklin's M.S. in Accounting, you don't need an accounting background or a bachelor's in accounting. Franklin's one-class-at-a-time pathway lets

Program Availability

Ohio

you earn a 100% online M.S. in Accounting in about 31 months, opening the door to new career opportunities for you.

Industry-Aligned Curriculum

Learn to apply best-practice accounting guidelines.

Program Overview

Earn a master's in accounting – without a bachelor's in accounting

Want a career in accounting but didn't major in it? With Franklin's 100% online non-majors pathway to an M.S. in Accounting, you don't need a bachelor's in accounting to further your education and your career. Franklin offers busy working adults an affordable pathway to build their core accountancy skills – no accounting undergraduate required.

Master's in Business Analytics & Curriculum

32 Semester Hours

Major Area Required

Embedded Credentials Recognize Achievement in Real-Time

Embedded credentials provide a quick ROI on the time and tuition you're investing in your master's degree.

Embedded certificate marks midpoint to degree completion

Your time and tuition dollars pay off fast with a Graduate Certificate in Data Analytics awarded after the completion of your first four master's courses.

Microcredentials Align with Job Essentials

In today's dynamic work environments, adaptive professionals thrive. A microcredential - either as a stand-alone course or integrated into your degree program - is a short, skill-specific recognition that enables you to demonstrate your competency in a distinct area. Like Franklin's degree programs, microcredentials are aligned with market and industry demand to ensure what you learn can be put to use right away. Microcredentials are easily shared via digital badges and can be stacked to create a unique portfolio of in-demand skills.

Expand your thinking with a master's in business psychology degree

At its core, business is a people-oriented enterprise. Not only are new products and services a result of human effort, so too, is the ability to understand and influence consumer behavior. Behind most successful businesses are skilled leaders

Program Availability

Ohio

who connect what humans want with what business does. Franklin's M.S. in Business Psychology degree program equips you to motivate behavior, resolve demanding managerial issues and leverage the latest psychological and neuroscience research for on-the-job success.

Unique Business Orientation

Learn how to apply psychological principles to improve business performance.

Master's in Business Psychology Program Overview

Apply new insights into human behavior to solve business problems

Business is a very human enterprise. Not only are innovative products and services a result of human ingenuity, but influencing human behavior is also key to every other part

of a business' success — including making the sale. That's why behind most successful businesses are skilled and compassionate individuals. These leaders possess an understanding of human behavior as well as knowledge of business principles, and the know-how to leverage them into workplace success.

Microcredentials Align with Job Essentials

In today's dynamic work environments, adaptive professionals thrive. A microcredential - either as a stand-alone course or integrated into your degree program - is a short, skill-specific recognition that enables you to demonstrate your competency in a distinct area. Like Franklin's degree programs, microcredentials are aligned with market and industry demand to ensure what you learn can be put to use right away. Microcredentials are easily shared via digital badges and can be stacked to create a unique portfolio of in-demand skills.

Upgrade your career with an M.S. in computer science

There's no question that business depends on technology, so it's no surprise there's high demand for computer science leaders. With Franklin's 100% online M.S. in Computer Science, you'll learn how to deliver robust software solutions to help organizations increase efficiency, reduce turnaround time, and maximize investment. Equipped with a theory-to-practice computer science master's, you'll be a benefit to any organization, from

Fortune 500 companies to startups, seeking qualified computer science professionals to help them meet their software needs.

Finish Fast

Finish your master's in as few as 20 months.

Program Overview

Architect the software futures of Fortune 500 companies

If there's one certainty in business, it's this: business depends on technology. Which explains why the demand for computer science jobs is at an all-time high. In fact, job growth in the field is projected to increase by an astounding 13% through 2031.*

(NON-COMPUTER SCIENCE BACKGROUND)

Excel in a high-tech career with a master's in computer science – without a CS undergrad

The field of computer science is booming. So, too, are the number of high-pay, high-reward, high-tech career opportunities for those with a master's in computer science. But what if you have a bachelor's in something unrelated to computer science? With our streamlined pathway to Franklin's M.S. in Computer Science (MSCS), you don't need a bachelor's in computer

Program Availability

Ohio

science. You can earn a 100% online MScS in about 2 years, starting with a foundational program designed to help you develop industry-relevant computer science knowledge and skills.

24-Month Completion

Get to your future career in accounting in as few as 24 months.

Program Overview

Are you a self-taught techie or STEM major ready for a top-ranked career in software engineering, AI, cybersecurity or DevOps? Propel yourself and your career ambitions forward with an online master's in computer science. With Franklin's affordable pathway to an M.S. Computer Science (MScS) for non-computer science majors, you don't need a bachelor's in CS.

SOFTWARE SYSTEMS FOCUS

Broaden your skills with a M.S. in computer science with a focus in software systems

Businesses of every type rely on software for daily operations. Because software that can grow with the organization is key to profitability, skilled computer science professionals make the difference between record-breaking performance and going broke. With

Franklin's 100% online M.S. in Computer Science with a focus in Software Systems, you'll learn how to design and build scalable modern software systems. By combining the core principles of Franklin's contemporary master's-level computer science program with additional courses in system architecture and artificial intelligence, you'll be prepared for specialized roles.

Finish Fast

Finish your master's in as few as 20 months.

M.S. in Computer Science - Software Systems Focus Overview

Gain foundational knowledge in the most important topics in modern software systems

Your M.S. in Computer Science-Software Systems provides hands-on coursework that ensures you'll gain the skills needed to design the overall architecture for software systems with emphasis on distributed architectures, as well as those necessary to apply

artificial intelligence. With a curriculum informed and taught by industry leaders, you'll gain insight into challenges currently facing computer science professionals, as well as proven problem-solving strategies.

Enhance your skills in emerging technologies with an online master's in cybersecurity

Every 39 seconds one computer with internet access is attacked. With over 2,000 attacks every day, we are constantly under the threat of the next cyberattack. In a rapidly growing industry like cybersecurity, curious and well-trained professionals have the opportunity to make an immediate impact. Franklin's M.S. in Cybersecurity equips you with theory-based knowledge and application-oriented security skills to institute cybersecurity measures as a

standard business process. At Franklin, you'll earn a comprehensive degree that enables you see the big picture, translate technical issues to all audiences, and develop solutions that minimize risk.

Finish in as Few as 16 Months

Earn your degree and prepare for advancement faster.

M.S. in Cybersecurity Program Overview

Prepare yourself for a cybersecurity career at the operational, tactical or strategic level

Whether you want to advance your career in cybersecurity or transition into more cyber-focused roles, Franklin's M.S. in Cybersecurity is a great way to broaden your knowledge and skills. Aligned with industry-leading certifications, the program's inclusion of emerging technologies like cloud, containers and Blockchain will make you an asset in government or a wide variety of industries including insurance, retail, or banking and finance.

Translate chaotic data sets into competitive advantage with a master's in data analytics

With on-going expansion of modern technology including smart devices, social networking, online shopping and more, the amount of data captured is growing exponentially. While the collection and

Program Availability

Ohio

storage of these large amounts of data has become easier and inexpensive, the demand for individuals with the skills capable of managing, analyzing and mining this information is surging. The M.S. in Data Analytics equips you with the statistical skills necessary to conduct descriptive and predictive analytics; the programming skills to create and apply computer algorithms; the tools and platforms to visualize and mine big data, and the communication skills necessary to effectively convey findings and provide strategies and best practices within your organization.

Finish in 19 Months

Earn your degree and prepare for advancement faster.

Earn a degree aligned with industry demand

Organizations from all sectors of the economy are seeking individuals with programming, analytics and communication skills for the purpose of sorting immense data sets to provide a competitive edge or a predictive tool that will help differentiate themselves in crowded markets. Demand for data analytics professionals is also expected to continue to grow by 9%.* In addition, a survey of job postings nationwide shows that data analytics jobs take longer to fill compared to other positions, indicating that demand is high and supply is low for qualified individuals to fill these positions.

Analyze data and inform decisions with a master's in health informatics

Accurate and reliable data analysis is central to a healthcare organization's ability to deliver on its mission to efficiently deliver quality care. The M.S. in Health Informatics can help you lead and facilitate change in the emerging field of health informatics. You'll learn how to channel your talent for data analysis into a role in which you can inform decision making, improve efficiencies and ultimately improve patient care and outcomes.

12-Month Completion

Earn your degree and prepare for advancement faster.

M.S. in Health Informatics Degree Overview

Develop a multidisciplinary approach to creating and sustaining health informatics

While a wide range of opportunities exist, a nationwide survey indicates that health informatics jobs take longer to fill. Recognizing the need to train workers in this field, the American Health Information Management Association (AHIMA) prioritized transforming health information management to a graduate-level profession and proposed the establishment of a master's degree for advanced practice roles.

Put your career in motion with an online master's in human resource management degree

Human Resources is a complex profession, impacting both organizational performance and personnel. Franklin's M.S. in Human Resource Management degree prepares you to become a strategic

Program Availability

Ohio

partner to the C suite – affording you the opportunity to advance your organization's mission as well as your career. Our online Human Resource master's program can help you advance your leadership capabilities, including overseeing complex employee benefit plans, dealing with changing labor laws, and developing a talent management strategy.

IACBE Accredited

Our program follows best-practice standards for business education.

M.S. in Human Resource Management Program Overview

Learn how to grow organizations and individuals to greatness

The top-down, hierarchical mindset of old industrial bureaucracies doesn't provide the flexibility, creativity and empowerment that define today's high-performing workforces. Franklin's [transfer friendly](#) M.S. in Human Resource Management (MSHRM) program focuses on key issues such as the role of people in driving a global competitive business, developing the leadership skills and knowledge of all employees, appreciating the diverse nature of today's workforce, and creating cultures that reward, recognize and appreciate all employees.

[Read more >](#)

Angela B.

M.S. Human Resource Management '20

"I'm overjoyed. In just a short time, I was able to transition from my previous job, to a career in HR. Make a plan and turn it into reality."

IACBE Accredited Program

The Ross College of Business at Franklin University has received specialized accreditation for its business programs through the International Accreditation Council for Business Education (IACBE) located at 11960 Quivira Road, Suite 300, Overland Park, Kansas, USA. For a list of accredited programs please view our [member status page](#).

SHRM Aligned

The master's in human resources program fully aligns with the Society for Human Resource Management's (SHRM) HR Curriculum Guidebook and Templates.

Future Start Dates

Start dates for individual programs may vary and are subject to change. Please [request free information](#) & speak with an admission advisor for the latest program start dates.

Microcredentials Align with Job Essentials

In today's dynamic work environments, adaptive professionals thrive. A microcredential - either as a stand-alone course or integrated into your degree program - is a short, skill-specific recognition that enables you to demonstrate your competency in a distinct area. Like Franklin's degree programs, microcredentials are aligned with market and industry

demand to ensure what you learn can be put to use right away. Microcredentials are easily shared via digital badges and can be stacked to create a unique portfolio of in-demand skills.

Drive innovation with a master's in information systems online

From creating cost reductions to facilitating better customer service, information systems help organizations operate more efficiently. Equipped with a unique blend of tech savvy and business acumen, professionals who work with information

Program Availability

Ohio

systems drive innovation by bridging the gap between technology and business.

With Franklin's 100% online M.S. in Information Systems, you'll apply concepts in product management, project management, business analysis and business analytics to real-world scenarios and acquire the skills necessary to excel in today's agile business environments.

Master Industry Tools

Build skills in R, SQL, Tableau and Python.

M.S. in Information Systems Program Overview

Get a comprehensive understanding of how business integrates with

technology

The M.S. Information Systems curriculum consists of nine major area courses that integrate areas like product management, business agility and analytics, which means that you won't just be technologically proficient, you'll gain a comprehensive understanding of the relationship between technology and business strategy. Moreover, you'll benefit from diverse coursework like the inclusion of a 6-week MBA Foundations course. This holistic approach provides you with a broad understanding of business dynamics in addition to tech savvy. The combination of technical knowledge and business acumen provided as part of the information systems master's program can prepare you for various hybrid roles across industries.

AWS Academy Member

When it comes to building cloud expertise:

Relevance rules. By choosing Franklin University, an AWS Academy member institution, you can be assured that the knowledge and skills you gain will prepare you well for real-world scenarios. With access to curriculum developed and maintained by AWS, Franklin provides the most up-to-date thinking to help you tackle on-the-job challenges.

Microcredentials Align with Job Essentials

In today's dynamic work environments, adaptive professionals thrive. A microcredential - either as a stand-alone course or integrated into your degree program - is a short, skill-specific recognition that enables you to demonstrate your competency in a distinct area. Like Franklin's degree programs, microcredentials are aligned with market and industry demand to ensure what you learn can be put to use right away. Microcredentials are easily shared via digital badges and can be stacked to create a unique portfolio of in-demand skills.

FNP or AGPCNP: Which is the Best Fit for You?

Nursing is a challenging, yet rewarding profession that affords you the opportunity to follow your passion in a rapidly evolving and growing industry. If you are deciding between the Family Nurse Practitioner (FNP) and Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP), there are some important similarities between the two programs. Both specializations:

- Require 600 clinical hours and completion of Primary Care I (NURS 701/701C) + Primary Care II (NURS 702/702C)
- Are nationally certified through American Nurses Credentialing Center (ANCC) or American Association of Nurse Practitioners (AANP)
- Equip you for positions in ambulatory care centers, medical offices and correctional facilities

However, below you'll find some information on what differentiates the two options. Compare the options and find the best fit for you.

icon_tiles/it-clipboard_form-color Created with Sketch.

FNP

icon_tiles/it-cross-color Created with Sketch.

AGPCNP

Age-Range of Patients: Birth to Geriatric

Best Fit: Nurses who enjoy caring for babies and children

Demand Driver: Rural areas with less access to pediatric specialists.

Additional Required Clinical Courses: Management of Multidimensional Health (NURS 703/703C) + FNP Capstone (NURS 790/790C)

Practice Settings: Schools, Rural Health Clinics, Worksite-Based Clinics

Nursing Careers & Jobs

Adult-Gerontology Primary Care Nurse Practitioner

Adult-gerontology primary care NPs provide leadership and clinical expertise to provide lifelong care for adults from teens to seniors.

Expand your role in patient care with an MSN-FNP

If you are a registered nurse with a desire to expand your role in patient care, Franklin's M.S. in Nursing-Family Nurse Practitioner (MSN-FNP) track is a great option for you. You'll be prepared to work in the primary care setting managing the

Program Availability

Ohio

health of individuals and families. You'll gain the knowledge and clinical skills necessary for the assessment and management of common acute and chronic illnesses, health promotion and disease prevention for individuals throughout their lives. Upon completion of your degree, you will be eligible to apply to sit for the Family Nurse Practitioner certification examinations offered by the American Nurses Credentialing Center (ANCC) or the American Association of Nurse Practitioners (AANP).

Finish in as Few as 27 Months

Earn your degree and prepare for advancement faster.

Transform the patient experience

According to the American Association of Colleges of Nursing, the number of new nurse practitioners graduating each year is rising rapidly and within the next few years, will likely exceed the number of new physicians completing training. The shift provides an opportunity for providers and organizations to meet growing healthcare needs in a more cost-effective manner including filling gaps in specializations and populations. For new and aspiring nurse practitioners, the shift provides more autonomy and more career options.

Microcredentials Align with Job Essentials

In today's dynamic work environments, adaptive professionals thrive. A microcredential - either as a stand-alone course or integrated into your degree program - is a short, skill-specific recognition that enables you to demonstrate your competency in a distinct area. Like Franklin's degree programs, microcredentials are aligned with market and industry

demand to ensure what you learn can be put to use right away. Microcredentials are easily shared via digital badges and can be stacked to create a unique portfolio of in-demand skills.

Ohio

receive treatment. Franklin University's M.S. in Nursing-Psychiatric Mental Health Nurse Practitioner (MSN-PMHNP) degree equips you with the knowledge and skills to make much-needed behavioral and mental healthcare more accessible to individuals of any age. At Franklin, you'll become an advanced practice nurse capable of providing a holistic approach to diagnose acute, episodic and chronic mental health illnesses and provide treatment options that include medication, psychotherapy or a combination of the two.

Earn an In-Demand Degree

Answer the call for specialized psychiatric care providers.

MSN-Psychiatric Mental Health Nurse

As the global pandemic impacted many aspects of life, it left many in its wake anxious and uncertain. While instances of anxiety, depression and substance abuse issues continue to rise, the increase has sparked important dialog about mental health, as well as efforts to remove the stigma that has long-surrounded a mental health diagnosis and the search for treatment.

evidence-based practice with industry-aligned courses in instructional design, curriculum design and learning assessment. This CCNE-accredited MSN degree prepares you to assume advanced roles and responsibilities in the increasingly in-demand field of nursing education in as few as 18 months.

Finish in as Few as 18 Months

Earn your degree and prepare for advancement faster.

M.S. in Nursing-Nurse Educator Program Overview

Fill the gap in nursing education and position yourself for

continued professional development

Retirement and burnout are two contributors to the nationwide nursing shortage, which is expected to last until 2030, but another factor in the growing problem is the lack of qualified educators in-place to train aspiring nurses. In fact, according to a report by the American Association of Colleges of Nursing, more than 90,000 qualified applicants were turned away from bachelor's and master's-level nursing programs in 2021. Survey respondents cited faculty shortage as a top reason for not accepting all qualified applicants.

Microcredentials Align with Job Essentials

In today's dynamic work environments, adaptive professionals thrive. A microcredential - either as a stand-alone course or integrated into your degree program - is a short, skill-specific recognition that enables you to demonstrate your competency in a distinct area. Like Franklin's degree programs, microcredentials are aligned with market and industry demand to ensure what you learn can be put to use right away. Microcredentials are easily shared via digital badges and can be stacked to create a unique portfolio of in-demand skills.

Starting Fall 2023 term, the M.S. Marketing & Communication program will be closed to new students and no applications will be accepted.

The University is still able to meet the need of students who seek Marketing related skills at the master's level via the MBA specialization in Marketing.

Create brand-building marketing strategies that drive ROI

Today's savvy marketing and communication leaders begin at the endpoints: the thoughts, behaviors, and actions of the buyer. They know the importance of differentiation, and how to establish a unique and ownable brand position in the minds of a target audience. They know how to leverage consumer insights to deliver action-inspiring messages and apply new data sources to inform product, packaging, and promotional strategies. And they do it all while building high-performing teams and keeping a clear line of sight on market share, volume, and ROI.

Microcredentials Align with Job Essentials

In today's dynamic work environments, adaptive professionals thrive. A microcredential - either as a stand-alone course or integrated into your degree program - is a short, skill-specific recognition that enables you to demonstrate your competency in a distinct area. Like Franklin's degree programs, microcredentials are aligned with market and industry demand to ensure what you learn can be put to use right away. Microcredentials are easily shared via digital badges and can be stacked to create a unique portfolio of in-demand skills.

Earn your MBA degree with the master's in business program that works for you

Your reasons for getting an MBA are personal. Franklin's FlexFIT MBA is, too. That's why FlexFIT is the accredited 1-year online MBA degree program that fits your finances, interests and time. Our FlexFIT

Program Availability

Ohio

master's in business program puts you in control of your MBA experience – including your money, focus and schedule. Looking to hone your leadership skills, expand your network, future-proof your career, or become a world changer? Whatever your reason, Franklin's FlexFIT MBA degree is your perfect fit.

1-Year Online MBA

Finish faster (no commute required).

MBA Program Overview

Elevate your opportunities, future and network with an accredited 1-year online MBA

Knowledge is power – and so is real-world, hands-on experience. At Franklin, you get both. The 1-year accredited Franklin FlexFIT MBA degree program is foundational and

formative. That means you'll learn the essential tenets of business leadership while developing the crucial skills of forward-thinking leaders.

In this program, you'll also build and cultivate a meaningful professional network from among your instructors and peers. Your instructors will be in-field practitioners who bring a wealth of experience and current thinking along with their own trusted network. Your classmates will be a diverse group of colleagues who are industry professionals in their own right. By the time you complete your MBA degree program, you'll belong to an elite group of supporters who help each other achieve their goals now and well into the future.

Because Franklin's MBA degree program is informed by business world experts and accredited by the International Accreditation Council for Business Education (IACBE), you can be sure that you'll learn how to lead in today's modern world of business across all the major disciplines, including finance, human resources, marketing, data analytics and operations.

Your MBA degree, your way with Franklin's FlexFIT Online MBA

Earn your master's in business without throwing your life, budget and schedule into chaos. Franklin's FlexFIT MBA degree program was designed specifically to help you avoid the typical roadblocks that stop others from finishing by giving you the flexibility you need to stay on track.

Here's how FlexFIT empowers you to complete your master's in business in the way that fits you:

Finances: Schedule as many or as few classes to accommodate your budget.

Interests: Pick your path. Choose from a general track for a broad-based business perspective or follow your interests with a focused specialization.

Time: Start, study and finish at your pace because with FlexFIT, you decide how much time to devote to your coursework.

Your Best Value MBA

Choose Franklin's accredited MBA and get a high-quality degree that fits your life and your budget.

Bring your passion to life with an online master's in public administration degree

Government and nonprofit positions account for one-quarter of all American jobs. What attracts such large numbers? The potential impact the work has on people. Yet no mission-oriented institution can do without a leader to drive change

Program Availability

Ohio

and empower transformation. Franklin's Master of Public Administration (MPA) degree program prepares you to take on public administration leadership much the same way an MBA prepares a business executive. Choose the program that helps you advance community interest -- and your career.

Customizable Program

Enrich your MPA with your choice of electives.

Master of Public Administration Degree Overview

Develop an advanced skillset to lead a variety of organizations

Government and nonprofit sector jobs account for an astonishing 25% of total U.S.

employment. What attracts such large numbers to these organizations is the positive impact that their services can have on the public. At the center of these mission-oriented institutions are leaders driving change and empowering teams and volunteers to transform their communities.

Become a data-savvy leader with an MBA in business analytics

From forecasting warehouse inventory to identifying customer segmentations, business analytics help organizations improve effectiveness and efficiency in all areas of business. Franklin's online

Program Availability

Ohio

accredited MBA with a Specialization in Business Analytics provides theory-to-practice knowledge in data management, data visualization and data-informed decision making. While your MBA will help you build your leadership and management skills, you'll also gain in-demand business analytics skills to improve business operations and results.

1-Year Online MBA

Finish your MBA in Business Analytics faster.

MBA-Business Analytics Program Overview

Analyze and prepare data to facilitate informed decision-making

Data collection, analysis, visualization, ethical principles, and statistical inference methods for informed decision-making are just a few of the topics in the growing field of data

analytics. As part of Franklin's hands-on MBA-Business Analytics program, you'll learn to describe data and evaluate its quality. You'll also analyze data using current industry tools, like R, and interpret results. You'll apply several inferential statistical analysis methods, including t-tests and ANOVA to make decisions.

Refine your personal leadership style with an MBA in business psychology

Transformational leaders have the power to mitigate environmental ambiguity associated with increasing levels of fear, uncertainty and doubt. With Franklin's online accredited MBA with a

Program Availability

Ohio

Specialization in Business Psychology, you'll gain knowledge in brain science and personality styles, individual and organizational intelligence and innovation and change management. While your MBA will help you elevate your business expertise, you'll enhance your ability to lead and understand teams.

1-Year Online MBA

Finish your MBA in Business Psychology faster.

MBA-Business Psychology Program Overview

Apply principles of brain science to human personality

The way individuals work and perceive the world is based on anatomical preferences

within the brain. Learn more about those preferences and their workplace implications by examining the fields of business and psychology individually and in combination including the application of positive psychology to the workplace. As you explore brain organization and dominance, you'll assess your own strengths and create a self-development plan. You'll be introduced to the concepts of neuroscience and learn to apply a neuroscience tool to resolve workplace issues.

Position yourself for leadership with an MBA in finance online

Financial decisions impact all aspects of organizational performance. Take a deep dive into the tools and techniques used in quantitative analysis and gain the knowledge to provide recommendations

Program Availability

Ohio

that inform financial strategies. Franklin's online accredited MBA with a Specialization in Finance provides hands-on experience with portfolio management, Capital Asset Pricing Model (CAPM), financial derivatives, financial models and foreign exchange theory and models.

While your MBA will help you build your management skills, you'll also be well equipped for financial leadership positions.

1-Year Online MBA

Finish your MBA in Finance faster.

MBA-Finance Specialization Program Overview

Acquire the analytical skills needed to develop effective executive-level financial solutions

Capable financial advisors provide insight to fuel financial decisions that have a far-reaching and long-term impact on their organizations. You'll get hands-on experience analyzing, summarizing and presenting your recommendations, through a six-week simulation. Through this equity analyst project, you'll learn to apply time-value-of-money skills to value stocks and bonds; estimate cash flows and discount rates that inform budgeting decisions; examine the contributing factors for external financing, as well as optimum debt-equity ratios; and analyze investment opportunities in terms of risk and reward.

Microcredentials Align with Job Essentials

In today's dynamic work environments, adaptive professionals thrive. A microcredential - either as a stand-alone course or integrated into your degree program - is a short, skill-specific recognition that enables you to demonstrate your competency in a distinct area. Like Franklin's degree programs, microcredentials are aligned with market and industry demand to ensure what you learn can be put to use right away. Microcredentials are easily shared via digital badges and can be stacked to create a unique portfolio of in-demand skills.

Amp up your people skills with an MBA in human resources online

HR is an ever-evolving discipline. Some of today's most prevalent workplace issues, the virtual environment, DEI, and employee retention and motivation, were not as pressing just a short time ago.

Program Availability

Ohio

Franklin's online accredited MBA with a Specialization in Human Resources provides a theory-to-practice approach to workplace law, organizational development and strategic human resource management. While your MBA will help you grow your management capabilities, you'll also gain the insight to be a leader in-tune with the human side of business.

1-Year Online MBA

Finish your MBA in Human Resources faster.

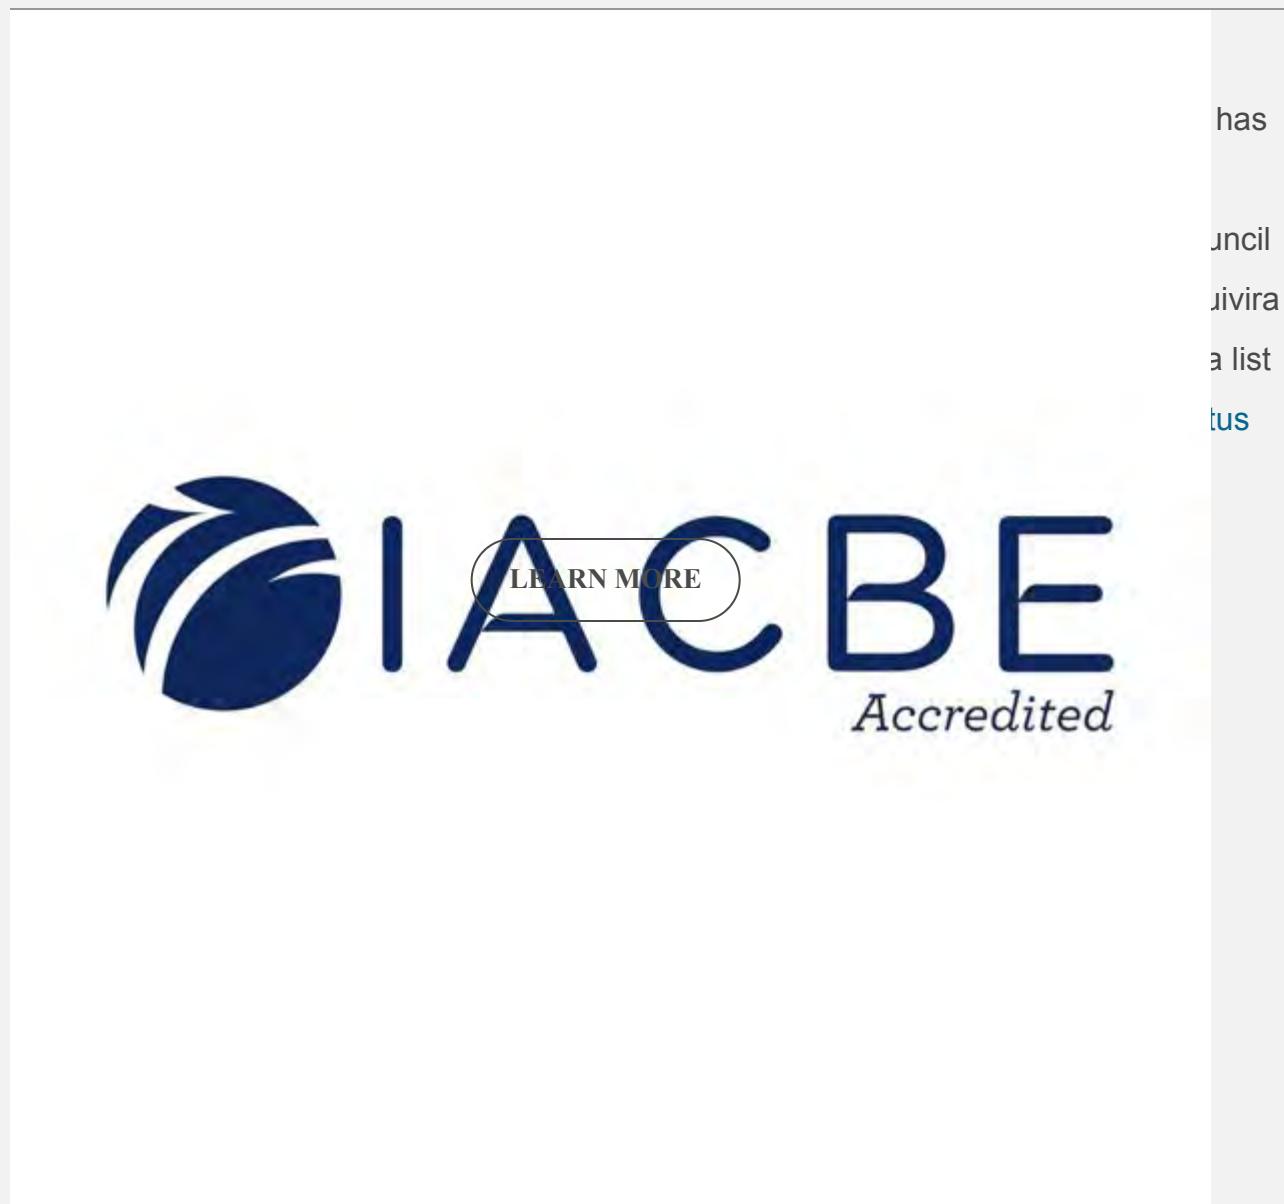

MBA-Human Resources Program Overview

Gain insight into employment and workplace law

You'll conduct substantial environmental analysis to broaden your knowledge of the principles and theories surrounding employment and workplace law. By analyzing case

studies and law, you'll discuss how the law was applied in various case rulings and appeals involving employment law. You'll compare and contrast various managerial approaches to employment law and apply theoretical principles and legal aspects of employment law to various organizations.

Microcredentials Align with Job Essentials

In today's dynamic work environments, adaptive professionals thrive. A microcredential - either as a stand-alone course or integrated into your degree program - is a short, skill-specific recognition that enables you to demonstrate your competency in a distinct area. Like Franklin's degree programs, microcredentials are aligned with market and industry demand to ensure what you learn can be put to use right away. Microcredentials are easily shared via digital badges and can be stacked to create a unique portfolio of in-demand skills.

performance culture that organically facilitates the acquisition and retention of top talent. Franklin's online accredited MBA with a Specialization in Organizational Leadership provides theory-to-practice coursework in leadership theory, change management and managerial psychology. While your MBA will prepare you to run a business, you'll also be well equipped with leadership skills that foster teamwork, effective communication and employee motivation.

1-Year Online MBA

Finish your MBA in Organizational Leadership faster.

MBA-Organizational Leadership Program Overview

Determine your leadership style and develop your leadership voice

You'll survey leadership theories and concepts to find your own style and discover how it influences the practice of leading. You'll identify leadership skills that will resonate within your current organization, assess your leadership strengths and weaknesses, and develop a plan of action to further develop and refine your leadership competencies.

Melissa M.

MBA Business Leader '22

"I've always wanted to obtain an MBA, but after a 20-year career, I wasn't sure how beneficial it would be. I am so glad I didn't let that stop me. Not only did I achieve a deeper understanding of each piece of business, but this program and the professors also pushed me to think differently. With my increased confidence, I found a new position that allows me to showcase my new skills and feel like I make a difference every day. I highly recommend Franklin University and the MBA program!"

RN TO MSN

[HOME](#) / [DEGREES](#) / [MASTER'S DEGREES](#) / [MSN PROGRAMS](#) / RN TO MSN

Earn your RN to MSN online

Are you a registered nurse with a nursing diploma or an Associate Degree in Nursing (ADN)? Franklin's RN to MSN is a streamlined admission path that quickly gets you on track to earning your M.S. in Nursing (MSN). Not only will Franklin's direct route to an MSN save you time and money, our hassle-free admission process makes it easy to get started.

Finish in 16-30 Months

Earn your degree and prepare for advancement faster.

RN to MSN Program Overview

Grow your nursing knowledge to improve the healthcare experience

As a prerequisite to admission in the M.S. in Nursing (MSN) program - which includes the Adult-Gerontology Primary Care Nurse Practitioner track, Family Nurse Practitioner track, the Generalist track or the Nurse Administrator track - you'll learn the standards expected from a nurse as they relate to professionalism, research and theory to impact practice; leadership roles in quality improvement and information management; healthcare policy and regulation; and healthcare principles for individuals, groups and communities.

or of
sing

Your Best Value RN-MSN

Choose Franklin's accelerated RN-MSN admission pathway and you'll get more for your money while you make the most of your time. Qualify for the MSN in 12 weeks for less than \$1,200.

Lower Fees

Save thousands of dollars in fees by choosing Franklin over other leading programs for your MSN.

Tuition Guarantee

Inflation-proof your degree cost by locking-in your tuition rate from day one through graduation.

RN to MSN Curriculum

You'll complete a 12-week online bridge course as your gateway to the M.S. in Nursing (MSN) program. Completing the course with a B or better is required for admission.

Bridge Course

Available MSN Options

Designed to meet the demands of busy registered nurses, Franklin's M.S. in Nursing (MSN) program enables you to gain the relevant knowledge to advance your career in a flexible, online format that works with your schedule.

Adult-Gerontology Primary Care Nurse Practitioner (MSN-AGPCNP)

Assume a leadership role in patient care with the Master of Science in Nursing (MSN) - AGPCNP that lets you specialize in the well-being of adolescents and older adults.

[LEARN MORE](#)

Family Nurse Practitioner (MSN-FNP)

Manage the care of individuals and families within a primary care setting.

Franklin's 27-month M.S. in Nursing-Family Nurse Practitioner (MSN-FNP) track blends online coursework with on-site clinicals to equip you to sit for certification exams.

[LEARN MORE](#)

Generalist (MSN-Generalist)

Excel in a variety of healthcare or education settings with Franklin's M.S. in Nursing - Generalist (MSN) track.

The MSN-Generalist prepares you for leadership roles, advanced practice or nursing education. Complete your degree in as few as 18 months.

[LEARN MORE](#)

Nurse Administrator (MSN-ADM)

Lead strategic change and manage teams with Franklin's M.S. in Nursing-Nurse Administrator track (MSN-ADM). The MSN-ADM prepares you for leadership roles or nursing education. Complete your degree in as few as 16 months.

[LEARN MORE](#)

Psychiatric Mental Health Nurse Practitioner (MSN-PMHNP)

Take a wellness-based and holistic approach to mental healthcare while also providing integrated care for mental illness in primary care settings with the MSN-PMHNP.

BSN TO DNP OPTION

[HOME](#) / [DEGREES](#) / [DOCTORAL DEGREES](#) / [NURSING \(DNP\)](#) / BSN TO DNP OPTION

The BSN to DNP program lets you bypass the MSN and go forward into your future

With Franklin's BSN to DNP Program, you don't need a master's of nursing (MSN). Instead, your BSN and successful completion of two foundational bridge courses lets you enroll in our DNP program – and be on your way to a whole new level of leadership. This is the online DNP for busy, working nurses like you who are ready to advance their understanding and application of evidence-based practice, quality improvement and data analytics to advance healthcare systems and clinical care.

Built-in Practicum

Simultaneous learning and application saves time.

BSN to DNP Program Overview

Get on the fast track to a Doctor of Nursing Practice with the online degree created for motivated, leadership-centric nurses

Advance your clinical judgment and leadership skills faster with the online DNP degree that's as driven as you. Franklin offers busy working nurses an affordable, BSN to DNP program – no MSN required. With one of the most accelerated BSN to DNP programs available, you could qualify quickly when you successfully complete two bridge courses in as few as 8 months. Once enrolled, complete your DNP degree in as little as 3 or 4 years, thanks to practicum hours that are included within specific courses. Plus, you'll learn and practice in the areas that interest you most by choosing one of three leadership focus areas or the FNP specialty.

FNP or AGPCNP: Which is the Best Fit for You?

Nursing is a challenging, yet rewarding profession that affords you the opportunity to follow your passion in a rapidly evolving and growing industry. If you are deciding between the Family Nurse Practitioner (FNP) and Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP), there are some important similarities between the two programs. Both specializations:

- Require 600 clinical hours and completion of Primary Care I (NURS 701/701C) + Primary Care II (NURS 702/702C)
- Are nationally certified through American Nurses Credentialing Center (ANCC) or American Association of Nurse Practitioners (AANP)
- Equip you for positions in ambulatory care centers, medical offices and correctional facilities

However, below you'll find some information on what differentiates the two options. Compare the options and find the best fit for you.

icon_tiles/it-clipboard_form-color Created with Sketch.

FNP

icon_tiles/it-cross-color Created with Sketch.

AGPCNP

Age-Range of Patients: Birth to Geriatric

Best Fit: Nurses who enjoy caring for babies and children

Demand Driver: Rural areas with less access to pediatric specialists.

Additional Required Clinical Courses: Management of Multidimensional Health (NURS 703/703C) + FNP Capstone (NURS 790/790C)

Practice Settings: Schools, Rural Health Clinics, Worksite-Based Clinics

Nursing Careers & Jobs

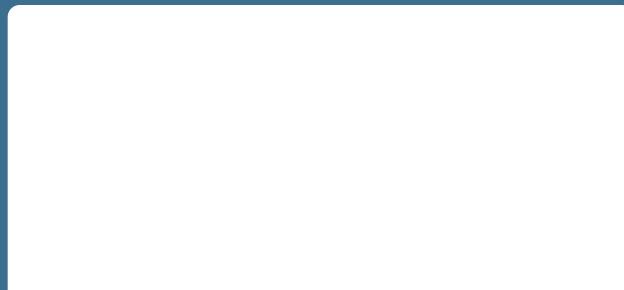

Adult-Gerontology Primary Care Nurse Practitioner

Adult-gerontology primary care NPs provide leadership and clinical expertise to provide lifelong care for adults from teens to seniors.

FNP or AGPCNP: Which is the Best Fit for You?

Nursing is a challenging, yet rewarding profession that affords you the opportunity to follow your passion in a rapidly evolving and growing industry. If you are deciding between the Family Nurse Practitioner (FNP) and Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP), there are some important similarities between the two programs.

Both specializations:

- Require 600 clinical hours and completion of Primary Care I (NURS 701/701C) + Primary Care II (NURS 702/702C)
- Are nationally certified through American Nurses Credentialing Center (ANCC) or American Association of Nurse Practitioners (AANP)
- Equip you for positions in ambulatory care centers, medical offices and correctional facilities

However, below you'll find some information on what differentiates the two options. Compare the options and find the best fit for you.

icon_tiles/it-clipboard_form-color Created with Sketch.

FNP

icon_tiles/it-cross-color Created with Sketch.

AGPCNP

Age-Range of Patients: Birth to Geriatric

Best Fit: Nurses who enjoy caring for babies and children

Demand Driver: Rural areas with less access to pediatric specialists.

Additional Required Clinical Courses: Management of Multidimensional Health (NURS 703/703C) + FNP Capstone (NURS 790/790C)

Practice Settings: Schools, Rural Health Clinics, Worksite-Based Clinics

Nursing Careers & Jobs

Advanced Practice Registered Nurses (APRN)

APRNs design, implement and evolve continuous quality improvement programs that are responsive to patient, clinical and community needs.

Nursing Practice Employment Outlook

From 2021-2031 jobs for Nursing Practice are expected to increase by 13%

All Occupations

2021 3,809,935 jobs

2031 4,288,360 jobs

NO - FEAR DISSERTATIONTM

If there's such a thing as a no-fear dissertation process, Franklin has it. We've intentionally designed a dissertation structure to help you complete your dissertation step-by-step, beginning with your enrollment in the program. We've also built in faculty mentoring and guidance, and peer-to-peer support so you're never left to "figure it out" on your own.

Throughout the Ed.D.-Higher Education leadership program, you'll develop important research skills and the necessary writing prowess to complete and publish a dissertation in practice (DiP) as the culmination of your studies. Your DiP will showcase your ability to solve a challenge within the workplace using action research. As a part of the (DiP), you will test your hypotheses in the real world, or based on your findings, document a process to implement your solution.

Choose Franklin's DBA and get an applied doctorate that fits your budget and your ambition.

Ohio

leaders to fully support the intellectual development of the next generation of students. What's needed are innovative leaders with fresh perspectives who can navigate these cultural and economic shifts with confidence. With Franklin's Doctor of Education in Organizational Leadership with a focus on Higher Education Leadership (Ed.D.-Higher Education Leadership), you'll develop contemporary leadership capabilities while gaining practical insight from mentors who are already successfully tackling the issues in the real world.

Practical Focus

Put theory into practice to inspire change.

Become the best kind of higher education leader — your own

When it comes to higher education, it's just as important to make your mark as it is to make an impact. With Franklin's Ed.D.-Higher Education Leadership, you'll develop your leadership skills and style as you explore the roles and responsibilities of leaders in community colleges, private colleges and four-year public colleges and universities. You'll also dig into the history and major theories of higher education administration and leadership, gaining a better understanding of its evolution. Plus, you'll explore current issues, such as access, accountability, diversity, inclusion, and government policy, and learn how to develop an informed approach to addressing these and other issues.

**Dr. Gina J.
Ed.D Higher Education Leadership '23**

"What I loved most about my Franklin experience was the welcoming atmosphere, supportive instructors, and a curriculum that challenges students and fosters learning. My Ed.D. degree has equipped me with the tools to lead individuals and organizations and teach in the university setting. I value my educational journey at Franklin University, cherish the connections gained, and take pride in being the change I desire to see in students, leaders, and organizations."

NO - FEAR DISSERTATIONTM

If there's such a thing as a no-fear dissertation process, Franklin has it. We've intentionally designed a dissertation structure to help you complete your dissertation step-by-step, beginning with your enrollment in the program. We've also built in faculty mentoring and guidance, and peer-to-peer support so you're never left to "figure it out" on your own.

Throughout the Ed.D.-Higher Education leadership program, you'll develop important research skills and the necessary writing prowess to complete and publish a dissertation in practice (DiP) as the culmination of your studies. Your DiP will showcase your ability to solve a challenge within the workplace using action research. As a part of the (DiP), you

will test your hypotheses in the real world, or based on your findings, document a process to implement your solution.

Your Best Value Doctor of Education in Organizational Leadership (Ed.D.)

Choose Franklin's Ed.D. and get an applied doctorate that fits your budget and your ambition.

ORGANIZATIONAL LEADERSHIP (Ed.D.) - ORGANIZATIONAL LEADERSHIP FOCUS

Take your organization to a higher level with an Ed.D. in Organizational Leadership

Meaningful change is an organization's most powerful tool. The catalyst behind that tool? A great leader. Franklin's Doctor of Education in Organizational Leadership with a focus in Organizational Leadership (Ed.D.-Organizational Leadership) can

Program Availability

Ohio

help you evolve into a more innovative, influential and impactful leader. Besides learning vital leadership, research and analytical skills, Franklin's Ed.D.-

Organizational Leadership will help you expand your capacity as a master change agent. With Franklin's Ed.D.-

Organizational Leadership online degree program, you'll build upon your current experience and develop enhanced skills that empower you to successfully drive transformation.

Real-World Focus

Apply leadership and management theories within the context of actual challenges.

Program Overview

Learn with more breadth and depth to grow your leadership skills and abilities

With Franklin's Ed.D.-Organizational Leadership degree program, you'll build a strong foundation for your work as a scholar-practitioner within even the most complex organizations. You'll develop and hone your capabilities, preparing you to provide strong, effective, forward-thinking leadership across a wide range of organizational leadership roles. And, as an Ed.D.-Organizational Leadership student, you'll gain valuable experience applying research skills and leadership theory and practice to drive positive organizational cultural and teamwork results.

FNP vs. DNP: The Definitive Comparison

[M.S. in Nursing](#) [Doctor of Nursing Practice](#) [Nursing Programs](#) [Doctoral Degree](#)

Nursing leaders are in high demand in every facet of healthcare. A shortage of primary care providers, an aging population and the complex healthcare system all put a premium on advanced nursing roles. This

fact is obvious when you look at job growth projections. **The Bureau of Labor Statistics estimates the need for Advanced Practice Registered Nurses (APRN) will grow by 45% by 2030.**

To take advantage of these opportunities, nurses must understand the different career options for nursing leaders and the advanced degrees that will help accelerate their careers. One of the common comparisons is the FNP vs. the DNP.

This article will clarify the differences between these two credentials and serve as a helpful resource for deciding which path is right for your career goals.

FNP vs. DNP: What are the Major Differences?

FNP is shorthand for Family Nurse Practitioner, which is an advanced practice registered nurse (APRN) with educational and clinical training focused on family practice. FNPs perform the duties of a primary care provider, either independently or under the supervision of a doctor for patients at all life stages.

A DNP, on the other hand, is a Doctor of Nursing Practice, which is the practitioner-focused terminal degree in nursing and is awarded by a higher education institution. The DNP degree is designed for nursing leaders who want to learn and practice at the highest levels. A DNP can be called a doctor, but it's important to remember that a doctor of nursing practice is not the same as a Medical Doctor (MD).

An FNP and a DNP are two different types of credentials, so sometimes it can be hard to compare them one-to-one. One of the best ways to compare these two options is to look at the steps required to earn each designation.

FNP vs. DNP: What are the Requirements to Achieve?

Each designation has unique requirements. Let's explore the specific requirements for the FNP, from education through licensure, and then compare the requirements for earning a DNP degree.

Requirements to Become an FNP

To become an FNP, you need a minimum of a master's degree in nursing, an FNP certification and an Advanced Practice Registered Nursing (APRN) license. Here are the requirements for each of these steps.

1. Earn an M.S. in Nursing – Family Nurse Practitioner (MSN-FNP).

The best-fit master's degree program for a career as an FNP is the MSN-FNP. Throughout an MSN-FNP program, individuals gain the knowledge and clinical skills necessary to assess and manage common acute and chronic illnesses, as well as promote healthy behaviors and disease prevention for individuals throughout their lives.

Common MSN-FNP Graduation Requirements & Timing Include:

- Successful Completion of 41 Credit Hours
- Maintain Minimum GPA of 3.0
- Complete Residency Requirement
- 27-Month Completion

Alternatively, an aspiring FNP could earn a DNP to meet the educational requirement to become an FNP.

2. Earn an FNP Certification

There are two different organizations that offer certifications for NPs—the American Academy of Nurse Practitioners (AANP) and the American Nurses Credentialing Center (ANCC). You must check with your state board of nursing to see which certifying bodies are recognized. These certifications are equivalent—neither is considered superior to the other.

The two main titles for a certified family nurse practitioner are the FNP-C, offered by AANP, and the FNP-BC, offered by ANCC. Let's look at the requirements for earning these certifications.

FNP-C Certification Requirements & Eligibility

- Graduate of an accredited master's, doctoral or post-graduate NP program
- Completed the required APRN core courses: advanced pharmacology, physiology and advanced health assessment
- Completed a minimum of 500 clinical hours of supervised direct patient care
- Valid U.S. or Canadian RN license
- Cost: AANP members: \$240, non-members \$315

FNP-BC Certification Requirements & Eligibility

- Valid RN license
- Completed master's or doctoral program specializing in Family Medicine
- Completed a minimum of 500 hours of supervised clinical hours
- Completed advanced pharmacology, physiology and health assessment
- Cost: \$295 for members, \$395 for non-members

3. Apply for an APRN License in Your State

After meeting the requirements for education and certification (if applicable in your state), aspiring FNPs must complete an application for licensure in their state of practice. Applications vary by state, but typically include an application fee, social security number, university transcripts, proof of certification and a valid RN license.

Get a FREE guide to help you advance your career, featuring helpful advice and thoughtful insights from nursing experts.

Requirements to Earn a DNP

To earn a DNP, you must meet the requirements for successful completion of a DNP program from a higher education university.

Common DNP Graduation Requirements & Timing

- Successful Completion of 53 Credit Hours
- Maintain Minimum GPA of 3.0
- Complete DNP Scholarly Project
- Earn Degree in as Few as 3 Years

A DNP who wants to work as a nurse practitioner who focuses on family practice will also need to complete the steps above to become a certified FNP and licensed APRN. However, the career paths for DNP graduates offer more flexibility beyond nurse practitioner roles.

FNP vs. DNP: What Are The Possible Career Paths?

FNP vs. DNP Top Career Trajectories

Popular FNP Career Paths

- Private Practice
- Community Health Centers
- Urgent Care Clinics

Popular DNP Career Paths

- Clinical Leadership
- Healthcare Administration
- Healthcare Consulting
- Nursing Education
- Government Agencies

For nurses interested in pursuing a career in family practice, there can be a definitive overlap in these two career paths. However, a DNP can also open the door to top nursing leadership positions outside of direct patient care. Let's dive deeper into the trajectories for these two paths.

FNP Career Path: For Passionate Caregivers

Nursing professionals seeking to become an FNP have a passion for providing patient care to individuals and families at every stage of life. Many choose this path because they want more autonomy in determining patient care plans, which includes prescribing treatments, ordering tests and diagnosing patients.

The role of an FNP is fairly consistent, varying slightly by where they choose to work.

- **Private Practice:** Depending on the state, FNPs may be able to work independently and own their own practice, or they may be required to practice under the supervision of a doctor. FNPs who want to build long-term relationships with patients often work in private practice.
- **Community Health Centers:** For FNPs who want to improve access to care, working in a community health center can help expand care in underprivileged areas.
- **Urgent Care:** FNPs at urgent care clinics fill a critical need for patients who need immediate medical care and their primary physician isn't available or equipped to handle their specific injury or illness.

DNP Career Path: For Top Nursing Leaders

DNPs can choose to pursue a career as an FNP, but they are also prepared for a wide range of nursing leadership positions. A DNP can work in many functions across the healthcare industry, including:

- **Clinical Leadership:** For FNPs who are interested in leadership positions within clinical settings, a DNP can provide the critical thinking, problem solving and research skills to take their careers to the next level.
- **Healthcare Administration:** From hospitals to long-term care facilities and large group medical practices, DNPs are qualified to take on executive leadership roles, such as directors, VPs or C-level roles.
- **Healthcare Consulting:** Due to the scholarly and research-focused nature of a DNP program, a career as a healthcare consultant can be a natural fit. As a consultant, DNPs can bring their analysis and communication skills to helping healthcare organizations operate more efficiently, while providing superior patient care.
- **Nursing Education Leadership:** Program chairs and nursing college deans often come from DNP backgrounds due to their high-level of educational attainment and familiarity with the higher education environment.
- **Government:** Healthcare agencies, such as the CDC, FDA, Health and Human Services, VA and others all view DNP-level education favorably when considering nurses for leadership roles.

FNP vs. DNP: Who Earns More?

MSN vs. DNP: Average Annual Salary

\$98K

**MSN
Degree Holders**

\$107K

**DNP
Degree Holders**

\$112.9K

**FNP
with an MSN**

\$114.4K

**FNP
with a DNP**

Sources: Payscale, Lightcast™ Analyst 2022

Comparing salary and earning potential between the FNP and DNP can be difficult because these credentials are not directly related. Let's look at two ways to compare salary expectations.

When comparing all positions, DNP graduates earn more than MSN-prepared nurses. Earning a terminal degree in nursing, regardless of the career path you choose, provides long-term value for earnings potential.

On the whole, becoming an Advanced Practice Registered Nurse, such as an FNP, is one of the more lucrative career paths for nursing professionals.

DNP-prepared FNPs may earn slightly more, but the true value of a DNP lies in the potential to enter the top levels of nursing leadership. DNPs are prepared for a variety of leadership roles that demand high salaries and prefer candidates with doctorates

5 Top-Paying Positions for DNPs

Director of Quality and Patient Safety

Chief Clinical Officer

Nursing Executive

Patient Care Director

Chief Nursing Officer

Source: Lightcast™ Analyst 2022

FNP vs. DNP: Which Has A Better Reputation In the Industry?

According to the American Association of Colleges of Nursing, shifting demands in healthcare have increased the demand for higher levels of education for nursing professionals.

While an MSN will meet the qualifications to work as an FNP at most health care organizations, a DNP can increase your competitive edge in the job market. A DNP degree will also give you the opportunity to take on a leadership position within your organization, while an MSN-FNP may not.

Is An MSN-FNP Worth It? 5 Reasons To Pursue This Path

Becoming an FNP by way of earning your MSN has distinct advantages. It also puts you on a more specific career path, so be sure to evaluate your long-term aspirations when making your decision.

Need help deciding? Here are five of the top reasons to choose earning your MSN-FNP.

1. You want to become an **FNP as quickly as possible**. If you already have an MSN, a [post-graduate FNP certificate](#) can accelerate the process even more.
2. You are confident that **being an FNP is your ultimate career goal**.
3. You want **more autonomy when practicing medicine** and to build strong relationships with your patients.
4. You want to provide **evidence-based care to diverse populations** across the age spectrum.
5. You want to focus your education and career on **promoting high quality, effective, patient-centered care**.

Is A DNP Worth It? 5 Reasons To Pursue This Path

Earning a DNP is a lifetime achievement. It takes time and dedication, and it can provide a wealth of opportunities, job stability and recognition throughout your career.

How can you tell if this is the right path for you? Let's look at five of the top reasons to earn your DNP.

1. You want to **advance your capabilities with a scholarly approach** to the nursing discipline.
2. You want to **operate at the highest levels of leadership** within the nursing profession.
3. You want to **open the door to a wide range of careers and roles**, not be siloed into one path.
4. You want to **earn the respect of peers and employers**, and gain the personal satisfaction of earning the profession's highest clinical credential.
5. You are interested in **leadership opportunities at top universities**.

Find the Right Program to Achieve Your Career Goals

There are benefits to both the FNP and DNP career path, and each can set you up for a long and fruitful career in nursing.

If you're interested in exploring more, Franklin University offers transfer-friendly, accelerated online programs at both the MSN and DNP level. Franklin's programs offer industry-leading curriculum taught by experienced professionals to meet the needs of today's complex healthcare landscape.

Doctoral Programs That Accept Transfer Credit: What to Know

Doctoral Degree

Transfer Credit

Students entering a doctoral program most often bring with them years of formal education experience.

Occasionally, that experience equates to transfer credits that can reduce the number of classes students need to take to earn a doctoral degree.

A doctorate typically takes four to six years to complete. However, this timing depends on the program design, subject area of study, the institution offering the program, and whether or not transfer credits are accepted. Transfer credits can shave off significant time and financial investment in a doctorate program, but some students aren't aware of this viable option.

Reasons vary, but most often it's because students aren't aware that they are able to transfer credit or universities don't work with students to make sure they get credit where credit is due. That's why it's important for students to not only choose a program that will help them reach their educational goals but will also help them earn their degree quicker and potentially spend less money.

Why Doctoral Program Transfer Credits Matter

2%

of the United States population has a doctorate

56.6%

Completion rate 10 years after students begin their doctorate program

Source: The Council of Graduate Schools

"Doctorate students need to make sure they get a good return on investment in terms of time and money. The more transfer credits they can bring in results in a shorter amount of time they'll be a student and less money they will have to pay."

Sara Burris

Associate Director, Graduate And Doctoral Admissions

FRANKLIN UNIVERSITY

Doctorates are prestigious for a reason: they're rare and challenging to earn. **In the United States, only 2% of the population has a doctorate, and according to a study by The Council of Graduate Schools on Ph.D. completion and attrition, the completion rate 10 years after students begin their doctoral program remains low at 56.6%.** But transfer credit can help more doctorate students turn their

dreams into realities.

Sara Burris, Associate Director of Graduate and Doctoral Admissions at Franklin University, says the value of transfer credits cannot be overstated. “Students need to make sure they get a good return on investment in terms of time and money. The more transfer credits they can bring in results in a shorter amount of time they’ll be a student and less money they will have to pay.”

Students earning bachelor’s and even master’s degrees often supplement expenses with scholarships and grants. However, those opportunities rarely exist for doctoral students, creating an even greater need to find different ways to reduce costs. Transfer credits are a viable option.

So let’s look at the credits that might transfer into a doctoral program and the factors universities consider when deciding if credits are transferable.

Types of Credits That Can Transfer

Every program has its own standard for accepting transfer credits, and doctoral program rules can be particularly stringent, but with good reason. Courses are designed to reflect the necessary intellectual requirements to achieve the highest level of education.

But with all rules, there are exceptions. Here are some frequently accepted transfer credits:

Previous Doctoral Credit

If you pursued a doctorate but didn’t complete the program, your credits may be eligible to transfer to another institution.

Master’s-Level Credits

Assuming a student earned more than 32 credits, they can sometimes use previously earned master’s-level credits to satisfy elective requirements for a doctorate.

Special Licenses and Certifications

Some licenses, including superintendent licenses, can fulfill up to 15 of the required credits for an Ed.D. degree.

Without a doubt, transfer credits are worth exploring and should play an important role in deciding where to earn a doctorate. But not all programs apply credits the same way, so it's important to ask questions.

"A lot of programs won't allow for any transfer credit, and only a few programs provide resources to help students identify earned credits and work experiences that apply," said Burris. "Franklin University now allows master's-level credits to come in as electives, and sometimes we approve course-for-course transfer. So we're very generous on the transfer credit front."

Accelerate your completion time and lower your total tuition cost at every academic level. Download this free guide for tips on maximizing your transfer credit.

Factors Schools Consider for Transfer Credit

Students seeking transfer credits for a doctoral program will need to provide ample proof that what they learned in a previous program is almost equal to course requirements in a doctoral program. While that may sound daunting, it helps to preserve the integrity of a doctorate—benefiting students and universities alike.

What's Considered To Receive Transfer Credit Into Doctoral Programs

Master's Credit

Must have Master's-level credit above the 32-hour admission requirement.

Course-for-Course

Provide a detailed syllabus of previous coursework that may support transfer credit.

Franklin University is a transfer-friendly institution, helping students earn their degrees (even doctorates) faster and save money. Nearly half of Franklin doctoral students take advantage of the school's generous transfer credit policy. Franklin's transfer-friendly process makes it seamless for students to get credit for what they already know. **Some students discover they can transfer up to 24 previously earned credit hours to their doctorate.**

"Prepare to provide documentation such as a syllabus and all official transcripts," said Burris. "We review all materials to award what is fair and comparable to what they have taken. We want to offer as much transfer credit as we can. Just because you have taken doctoral-level courses doesn't mean it's an automatic transfer into our program."

What to Look For In a Doctoral Program When Transferring

Choosing to earn your doctorate is a big commitment in many ways: personally, professionally and financially. It's appealing to students — many of whom are working professionals — to seek programs that fast-track success. But there is a right way and a wrong way to achieve that goal. Fast-tracking is only beneficial when it doesn't take away from the educational experience.

That's why transferring credits is so appealing. It allows students to get ahead without sacrificing

education quality. But first, students need to find a program that can place them on the right path from the start. When exploring doctorate programs, don't forget to inquire about features and benefits offered by the university that prevent common pitfalls that impact student success.

Examples of Valuable Support

At this education level, programs should offer ample support that goes beyond the classroom to help students achieve their goals.

- **Coaching:** 1:1 support provides the best ongoing guidance, particularly when you're assigned a faculty advisor.
- **Community:** From your academic advisor and faculty advisor to a network of peers.
- **Resources:** To be a successful student, support is vital. Ensure the program provides access to research assistants, editors, advisors and technology tools.
- **Dissertation Assistance:** Coursework should assist with the dissertation process, making it less daunting and time-consuming.

"When people don't feel confident that they're on the right track, they drop out without finishing their degree. Franklin has created support programs because we want everyone to be successful and for our students to evolve and be impactful leaders," said Burris. "Also, the people teaching at Franklin not only have their doctorates, but also have professional experience and valuable networks. It's really a unique program with a lot of support and people wanting you to succeed."

Choosing the Right Doctoral Program is Critical

"I can't tell you how many heartbreaking stories I hear from transfer students who complete their coursework, invest lots of time and money, and weren't prepared for the comprehensive exam and dissertation. We provide a faculty advisor from the first day a student is in classes who takes the student from beginning to end to ensure they're on track for their dissertation. We want to make sure that when a student starts, they are going to be successful and finish the program."

Sara Burris

Associate Director, Graduate

and Doctoral Admissions

FRANKLIN UNIVERSITY

Not all doctoral programs accept transfer credits, so choosing the right program is critical to getting the best head start. Franklin University's start-to-finish program lets you earn your highest professional credentials sometimes in just three years—including your dissertation.

"I can't tell you how many heartbreaking stories I hear from transfer students who complete their coursework, invest lots of time and money, and weren't prepared for the comprehensive exam and dissertation." said Burris. "We provide a faculty advisor from the first day a student is in classes who takes the student from beginning to end to ensure they're on track for their dissertation. We want to make sure that when a student starts, they are going to be successful and finish the program."

Doctoral Completion Programs: How to Finish Your Doctorate Degree

[Doctoral Degree](#)

[Transfer Credit](#)

Doctoral programs are extremely rigorous. Unlike master's degree programs, doctorate programs are

heavily self-driven and require the highest level of scholarly research and writing. For some students who are balancing work and life priorities with a doctoral degree, this can seem overwhelming.

If you started a doctoral program but didn't finish, you aren't alone. Nearly 50% of people who start doctorate degrees never complete their program.

There are many reasons doctorate students stop their studies. Maybe you took time off for personal, financial or professional reasons. Maybe the doctorate program you attended previously wasn't the right fit. Whatever the reason you decided to pause your doctoral studies, you may still be able to complete the terminal degree you started.

Doctoral completion programs are specifically designed for students who have some doctoral credit, but didn't meet the requirements to graduate. Let's dive into what these programs offer to see if a doctoral completion program is right for you.

What is a Doctoral Completion Program?

A doctoral completion program is not a specific doctorate program in and of itself. In reality, doctoral completion programs are another name for transfer-friendly doctoral programs that offer dedicated support for transfer students.

Doctoral completion programs are designed to meet the needs of students who are restarting their doctoral studies in an effort to accelerate their completion of their degree. These programs are unique because many universities will not accept transfer credit at the doctoral level.

Let's look at two of the common pathways you can take when completing your doctoral program.

Doctoral Completion Programs: Choosing The Right Pathway

Transfer-Friendly Programs Accelerate Student Success

58

Credit hours required to complete most doctoral programs.

4-6

years, on average, to complete all 58 credit hours in a doctoral program.

(up to) 24

transfer credits accepted by Franklin University's doctoral program.

2

years to finish a doctorate at Franklin when transferring maximum credit

Source: Franklin University

There are two stages of doctoral study—the required coursework and the dissertation. If you're looking to complete your doctorate degree, you need to consider which requirements you still need to meet.

If you still need to complete coursework and pass your comprehensive exam: Look for a university that accepts significant transfer credit and can help you complete your remaining coursework. Make sure you understand:

- **How many credits will transfer:** Most doctorate programs require around 58 credit hours total to graduate. Some transfer-friendly universities, like Franklin University, will accept up to 24 credits, which is about 40% of the total required.
- **Will your credits qualify to be transferred:** Doctoral programs typically require credits to be applied directly to the degree, meaning the previous course has to be substantially similar to the required course at the new university. If your previous studies don't align, you may need to retake coursework.

You may also need to meet specific passing grade requirements or time requirements (often credits more than 7-10 years old won't transfer).

If you've reached ABD (all but dissertation) status: Consider a dissertation completion pathway. Some universities will allow you to restart your doctorate degree at the dissertation stage. However, before committing, make sure you understand:

- **You may still need to take coursework:** Many advertised ABD programs will still require you to take prerequisites, focus area courses or research and writing foundations courses to complete your dissertation at their university.
- **Admission requirements may be extensive:** Universities that offer dissertation-only completion pathways usually require more than just graduate transcripts. Expect to submit additional documentation, including previous doctoral candidacy, portfolio or work samples, resume, letters of reference or other support materials.
- **You need to feel confident about your dissertation topic:** Since you will start directly at the dissertation stage, you will need to declare a topic. Some of these programs will require a learning agreement contract to establish milestones for completing your dissertation.

Accelerate your completion time and lower your total tuition cost at every academic level. Download this free guide for tips on maximizing your transfer credit.

How Doctoral Completion Programs Work

Applying to a doctoral program to complete your degree is often very similar to regular doctoral admissions. Here are the steps you will need to take:

- **Research transfer-friendly universities that accept doctorate transfer credit.** Based on your previous educational experience, find the best-fit university that will also accept the most transfer

credit.

- **Apply to the university's doctoral program.** Submit an application and all support materials. Most applications can be submitted online and may or may not require an application fee.
- **Submit official graduate transcripts for the university.** You will need to submit official transcripts for all graduate level coursework. It can also be helpful to submit information on the courses you've previously taken, including syllabi or course descriptions. These materials can help a university determine whether courses are similar enough to reward transfer credit.
- **Receive transfer credit evaluation.** You will receive a determination that shows how many credits you received, what courses they apply to and how many credits still need to be completed.
- **Get started!** Meet with your academic and/or faculty advisors to determine your schedule and complete your doctorate.

5 Questions to Ask When Choosing a Doctoral Completion Program

If you chose to stop your doctorate studies, there was likely a compelling reason. For some, the original doctorate program they chose wasn't a good fit for their needs as a student. You want to make sure that if you return to doctoral studies, the program you choose will set you up for success.

Make sure you ask these questions before choosing a doctoral completion program:

- **How many credits will transfer into the doctoral completion program?** You want to ensure as many credits as possible transfer into a new doctoral program, especially if you're at the ABD stage.
- **How will this program support you in completing your doctorate?** Look for programs that offer dedicated faculty advisors, active student associations and extensive online library systems. All of these resources will help you complete your doctorate.
- **Do you feel confident about the dissertation process?** Many people fear the dissertation process. It's why ABD has become a de facto designation for those who stop their doctoral studies before they complete their dissertation. Make sure you understand how dissertation committees work, how to establish milestones and how to defend a dissertation. Knowing all of this in advance can help you formulate a clear plan to finish your dissertation and earn your degree.

- **Will this doctorate program work with your schedule?** Some doctoral completion programs have a required in-person component. Others are conducted entirely online. The structure and flexibility of the program you choose will ultimately determine if you can successfully complete it or not.
- **Are you excited and motivated to complete your doctorate degree?** Personal drive and determination are two of the top factors in the successful completion of a doctorate degree. If you put your mind to it, you can achieve what you set out to do.

Finish What You Started: Complete Your Doctorate Degree

Setting The Record Straight: ABD (All But Dissertation) Degree Status

Doctoral Degree

Doctorate degrees are a lifetime achievement that few individuals pursue and complete. In fact, according

to leading labor market analytics firm EMSI, only 3.6% of degrees completed in 2020 were doctoral degrees.

It's not surprising that doctorates are completed by fewer individuals. Doctorate degrees are intensive, requiring the highest levels of scholarly research and writing. For many people, the dissertation is the most challenging part of getting a doctorate degree. That's why "ABD," or "all but dissertation," has entered the mainstream terminology of doctorate degrees. However, the term leaves many confused if ABD is a type of degree or not.

We're here to help clarify what ABD means and how it relates to earning your doctorate degree.

Is ABD A Form Of A Doctorate Degree?

No. High-quality doctorate programs require the completion of a dissertation to earn your doctoral degree (with the exception of professional and clinical doctorates in areas like law and nursing). ABD simply means you have completed all required doctorate coursework, but have not written and defended your dissertation.

While ABD brings you one step closer to completing your doctorate, achieving ABD status doesn't mean you can take your foot off the gas. ABD doesn't hold academic weight and **you can't be called a doctor until you finish your dissertation.**

Unfortunately, many doctorate students stop at ABD. Let's look at the reasons why.

Why So Many Doctorate Students Stop at ABD

Why So Many Doctorate Students Stop at ABD

~50%

of people who start a PH.D. program do not complete their degree.

There are a number of students who have a tough experience at their doctoral programs. It can feel like a secluded experience. Combined with employment or family commitments, people can feel they can't complete their doctorate. It's common for students to need to take a break in their doctorate.

Dr. Tim Reyman

Program Chair, Doctor of Business Administration
FRANKLIN UNIVERSITY

Source: Council of Graduate School

There are a host of reasons doctoral students may dropout or take a break at the ABD stage of their doctorate program. **Let's look at some of the most common reasons students stop at ABD so you can navigate these pitfalls:**

- **Self doubt:** Some students struggle with imposter syndrome and wonder if they're really qualified to get their doctoral degree. Lack of confidence can leave students feeling unmotivated, causing them to put their degree on pause or dropout all together.
- **Time Management:** Once you get to the dissertation stage, you no longer have the structure of a typical course with weekly deadlines. Some students struggle with managing their time and fall behind. If procrastination gets the best of them, it may feel easier to quit than get back on track.
- **Finances:** Getting a doctorate degree is a significant financial investment. If students don't properly budget, or face new financial challenges, they may pause their degree at ABD.

- **Personal Circumstances:** Whether students have family or professional changes, some situations that lead to ABD are unavoidable. If students need to take a break, they should put a plan in place for picking up where they left off.
- **Dissertation Intimidation:** Starting a dissertation can feel like a stark departure from the familiarity of taking coursework. At this stage, students are put into the driver's seat and are responsible for their own progression, which can feel daunting.
- **Difficulty Writing:** The dissertation is extremely research and writing intensive. Most dissertations are over 100 pages. If students struggle with focused and scholarly writing, it can be a detriment to finishing a doctoral degree.
- **Lack of Support:** Some students feel isolated when they move into the dissertation phase of their doctorate degree. If you don't choose a program with support services or create a strong peer network, the solitary nature of a dissertation can deter students from finishing.

Earning a doctorate is challenging and rewarding, but do you know what to really expect? Download this free guide for tips and insights to help you prepare for success.

If you started but haven't completed a doctoral program you aren't alone. According to the Council of Graduate Schools, almost 50% of students who start a Ph.D. program don't complete their degree. However, Ph.D. programs only represent one type of doctoral degree. Completion stats vary widely between universities and doctoral degree programs. The biggest difference in successful completion of a doctoral degree is often the university and program a student chooses. If you're ABD, you need to find a student-centered program designed to meet the needs of ABD students.

Measuring Doctoral Student Success: Average Doctoral Program vs. Student-Centered Doctoral Programs at Franklin University

Student Progress	Average Doctoral Program	Franklin University
Doctoral Students Who Graduate	5.13%	32.2%
ABD Students Who Complete Their Degree	10.26%	28.81%

*Source: *First Cohort Data January 2017-August 2021*

Are you still feeling stuck at ABD? Let's look at ways you can set yourself up to successfully complete your doctoral degree.

6 Tips to Complete Your Doctorate—from ABD to Dr.

No matter how long you've been ABD, you can regain your motivation and finish strong. Here are 6 tips that can help you graduate from your doctorate degree program:

- **Get inspired early** and start thinking about the topic of your dissertation at the beginning of your doctorate program. If you're ABD, pick a topic you're passionate about before restarting your doctorate.
- **Create a plan** that maps out steps and milestones to complete your dissertation in your desired timeframe. Being proactive and setting your own deadlines will help you stay on track.
- **Get into a routine** so that researching and writing your dissertation just feels like a normal part of your schedule.
- **Develop a support system**—both at home and in your program. Your family and friends can help you stay motivated, while faculty advisors, committee members and peers can make writing your dissertation feel more manageable.
- **Practice self care**, because a dissertation isn't a sprint, it's a marathon. Most students take anywhere from 1 to 2 years to complete the dissertation, but it can take longer based on the amount of time you commit.
- **Find a student-centered university** that offers dedicated support, including personal faculty advisors and a student support network, that make it easier to complete your doctorate.

Choosing a highly student-centered doctoral program can be the difference between completing your degree or remaining at ABD. At Franklin, we aim to break down barriers that can make a doctoral program feel like an isolated experience. We offer a dedicated faculty advisor from day one who acts as a mentor to doctoral students. Our online programs create a true learning community among students and faculty. We're in a modality of continuous improvement because we are truly invested in a student's success.

Dr. Tim Reyman

Program Chair, Doctor of Business Administration
Franklin University

Don't Stop at ABD—Find The Right Program and Complete Your Doctorate Degree

Remember, ABD is not a recognized credential and there are ways to overcome the barriers that prevent many from finishing the work. A doctorate is the academic achievement of a lifetime and is attainable if you stay organized, motivated and dedicated.

Choosing the right doctorate program is the first way to set yourself up for success. Whether you're starting from the beginning or picking up where you left off, you need a doctorate designed for your unique needs.

Franklin University offers [transfer-friendly online doctorate degrees](#) that help working adults achieve their goals. From start to finish, you can complete your doctorate degree in as few as 3 years, including your dissertation. Franklin doctorate programs accept up to 24 hours of transfer credit, so if you have completed coursework, but not your dissertation, Franklin can help you get over the finish line.

Explore the doctoral programs offered at [Franklin](#) to see if there is a program that will help you take your career to the next level.

How Long Is A DNP Program?

Doctoral Degree

Doctor of Nursing Practice

Healthcare Programs

Nursing Programs

Many hospitals and healthcare organizations have recognized that experienced nurses with advanced education and skills are in great demand for advanced practice nursing roles.

According to the [Bureau of Labor Statistics](#), overall employment of nurse anesthetists, nurse midwives, and nurse practitioners is projected to grow 45% from 2019 to 2029, much faster than the average for all occupations.

These roles require advanced education to succeed. The Doctor of Nursing Practice (DNP) is a professional nursing degree designed for experienced RNs seeking advanced-level leadership positions. **Completions of DNP degrees are accelerating rapidly, increasing by approximately 371% from 2012 to 2019.**

The Rapid Growth of DNP Degree Completions

Source: EMSI

One reason for this acceleration is the American Association of Colleges of Nursing (AACN) has committed to migrating the requirement to become an advanced practice nurse to the DNP level by 2025.

With all of these changes, a Doctor of Nursing Practice can be a great option for advancing your career. However, many nursing professionals may wonder if they have the time and energy to earn a doctorate degree.

Let's look at the process and timeline for earning a DNP degree.

Get a FREE guide to help you advance your career, featuring helpful advice and thoughtful insights from nursing experts.

The Timeline for Earning Your DNP Degree: How Long It Takes For Nurses At Different Stages In Their Career

Source: Franklin University

The timeline for earning a DNP degree varies based on the particular path students take, as well as the specialization they pursue.

Let's look at the different ways to earn a DNP degree based on your education and experience.

Bachelor of Science in Nursing (BSN) to DNP Timeline

Unlike many other doctorate degree programs, some universities offer an accelerated BSN to DNP program where you don't need to earn your Master of Science in Nursing (MSN) before enrolling in a DNP program.

Franklin University offers busy working nurses an affordable, BSN to DNP program without the MSN requirement. With one of the most accelerated BSN to DNP programs available, students can quickly qualify for the DNP upon successfully completing two, MSN-focused bridge courses.

Once enrolled, students can **complete the BSN to DNP program in only 3 or 4 years**, thanks to practicum hours that are included within specific courses.

Master of Science in Nursing (MSN) to DNP Timeline

If you already have an MSN, a DNP program can be completed in as few as 2 years. Depending on how you pace your coursework, practicum and clinical hours, it could take 3 years or more.

RN Without a BSN to DNP Timeline

If you don't have a BSN degree, you can't take a direct path from RN to DNP. However, there are RN to MSN degree programs that can put you on the path to earning your DNP.

If you're a registered nurse with a nursing diploma or an Associate Degree in Nursing (ADN), Franklin's RN to MSN is a streamlined admission path that quickly gets you on track to earning your M.S. in Nursing.

Let's look at how it would complete your DNP taking this path:

- **1.5 to 2.5 years** to complete an RN to MSN program
- **2-3 years** to complete your DNP degree after earning your MSN

Factors That Can Speed Up or Slow Down Earning Your DNP Degree

How long it takes to earn a DNP degree relies heavily on personal preference and how you learn best.

There are some common factors that can make it faster or slower.

Factors that can accelerate earning your DNP degree:

- **Transfer credit is the number one way to accelerate earning your DNP degree.** At Franklin University, you may be able to achieve 500 of 1,100 required clinical hours from transfer credit or residency. Eligible students may be able to transfer up to 12 credit hours in coursework in addition to these 500 clinical hours.
- **Taking multiple courses at the same time.** If your schedule allows, taking more than one course can help you finish your degree faster.
- **Choosing a program that offers built-in practicum courses.** Built-in practicum courses can help you apply new knowledge while you're learning it. This structure will also make it easier to gain required clinical hours.

Factors that can slow down earning your DNP degree:

- **The number of days you need to work your current job.** If you have a restrictive work schedule, you may need to take classes and complete clinical hours at a slower pace.
- **Lack of time to commit to completing coursework.** Outside of your job, you also have to consider personal and family commitments. You need to have at least one hour per day that you can dedicate to your studies.
- **How strong of a reader and writer you are.** If you aren't passionate about challenging your current perceptions, consuming research and writing, it may take you longer to complete a DNP program.

Make Earning Your DNP Degree More Attainable

A DNP is the terminal degree for nursing professionals. Earning a DNP is a rigorous experience that takes time, self-discipline and dedication. However, earning your degree can be a valuable step in advancing your nursing career and becoming a healthcare leader.

Choosing the right DNP program can make it quicker, easier and more engaging to complete your degree. Franklin University's DNP program includes:

- **Online courses** that help you balance earning your degree with other work-life commitments.
- **Built-in practicum courses** that allow you to apply knowledge as you learn and gain valuable advanced clinical experience.
- **A scholarly project** that helps you apply your new skills to a healthcare problem about which you're passionate.
- **Instructors, who are seasoned, in-field practitioners**, bring an additional level of real-life expertise to your coursework.

Franklin University offers two DNP tracks. The [DNP - Family Nurse Practitioner Track](#) prepares you to advance patient care in a primary care setting through evidence-based practice that promotes innovation, safety and quality. The [DNP - Leadership Track](#) can help you rise to the highest levels of leadership in healthcare in a variety of settings, including administration, informatics and policy.

Explore how [Franklin's DNP programs](#) will help you reach your career goals.

ONLINE LEARNING AT FRANKLIN

[HOME](#) / [DEGREES](#) / [ONLINE DEGREES](#) / ONLINE LEARNING AT FRANKLIN

Learn when and where you want with flexible & convenient online classes

To meet the needs of busy adult students, we've transformed the traditional classroom learning environment into a supportive and engaging online learning experience. Once a pioneer among accredited online universities in Ohio and beyond, today Franklin is a top-ranked private, nonprofit online school in Ohio because we provide high-quality online academic programs that help students achieve their education goals.

General Technology Requirements

At Franklin University, you may use your own laptop or other device to complete your online classes. Please see below for recommended device specifications for access to online learning materials. To take advantage of all student technology resources, you must be able to load software onto your computer. Franklin University's Help Desk is happy to provide support, but may not be able to offer assistance for devices that do not meet these requirements.

What Technology Should Be Used for Online Learning

- Plan to use a laptop computer or desktop computer for best results. See below for more specifications.
- Windows operating systems are recommended. Apple computers have been used successfully for online learning by many students at Franklin University. However, please be advised that some technology-reliant degree programs may require software that is not guaranteed to be compatible with Apple computers. In such cases, students are required to procure their own access to compatible devices for course assignments.
- Chromebooks are not recommended and do not meet our minimum requirements. Chromebooks do not allow for the installation of some software required for many degree programs. Additionally, some testing applications are not compatible with Chromebooks.
- While phones and tablets can be used for student email, and some online learning materials, access to a computer is still required to complete your online education at Franklin University. Mobile devices do not allow for the installation of software required for some degree programs. Additionally, some testing applications are not compatible with mobile devices.

Operating System and Software Requirements:

- Current Microsoft Windows operating system. Windows 7 minimum, Windows 11 or Windows 10 recommended (not Windows 10 S Mode).
- Microsoft Office (Word, Excel, PowerPoint, & Access). Students can get [free Office here](#).
- Virus protection – updated and scanned regularly.
- Up to date versions of Internet browsers such as Google Chrome.

Minimum Hardware Requirements:

- 4 GB RAM minimum.
- 40 GB or higher of available hard drive space at the beginning of each term.
- Integrated PC microphone and speakers or a headset with microphone.
- An integrated webcam or an external camera is required for use of online proctoring.
 - Proctoring for some courses will require an external web camera, and tripod mount that can be placed for a profile view of the test taker and desk.
 - Camera quality of at least 720p is required for some proctoring as well.
 - To view the technical requirements for some proctoring services that are used for certain testing, please see the following links.
 - [ProctorU technical requirements](#)
 - [Accuplacer technical requirements](#) (Accuplacer test provided through Examity)
- A high-speed internet connection with a minimum download speed of 10 Mbps minimum. 50 Mbps or faster is more advantageous for online course meetings.
 - Use of satellite, cellular, or public access internet may result in poor performance.

Technology Support

Our Technology Help Desk is able to provide assistance with accessing online learning materials. The Help Desk is unable to directly support your hardware in cases of hardware malfunction. However, the Help Desk can provide remote screen sharing support with those using compatible hardware (most computers, but not mobile devices or Chromebooks). Hours and contact methods for the Franklin University Technology Help Desk can [be found here](#).

Because technology changes rapidly, these requirements are subject to change without notice.

Hear What Our Business Graduates Are Saying

Sarah D.

B.S. Business Administration '20

“This accomplishment
means everything to me.

Being a single mom,
working full time, and
going to school definitely
required a lot of faith,
strength and dedication -

but I did it!”

Alexandra R.

B.S. Business Administration '20

“I feel like I now have the
tools to being successful in
everything that I do.”

Andrea M.

B.S. Human Resources Management '20

“Receiving my degree is
one of the happiest
moments of my life, as it
solidifies the hard work
and time dedicated to
achieving this throughout
these years. I now look

forward to the future and
opportunities ahead of
me."

Nicole E.

MBA '20

"Earning this degree
means having so much
more confidence in myself!

I am eternally grateful to
my professors, classmates
and my family for the
support and guidance that
has been given to me."

Kevin S.

B.S. Human Resources Management '16

"It was important for me to
feel supported during my
education. The 3+1
transfer program exceeded
by expectations."

Kennedy F.

B.S. Business Administration '21

"Thank you, Franklin
University for providing me

with the education to
accomplish my goals and
further my career!"

Christie A.

MBA

"Franklin really has
prepared me for my career
and my future. Franklin
taught me how to interact
in the business community.

The networking side of it
really helped prepare me
for the working world and
beyond. It made me a well
rounded person. I really
grew as an employee right
before my employers eyes
just because I was at
Franklin."

Kendra B.

B.S. Business Administration '21

"I am extremely proud of
my academic
accomplishment that I
achieved while working full
time."

Ashlee W.

B.S. Business Administration '21

"I'm excited to advance in
my career and continue to
make myself and my family
proud."

Chris R.

B.S. Human Resource Management

"Having this education
from Franklin has really
allowed me to be the
successful, professional I
am today and without it, I
would not be where I am
today for sure."

Oyauma G.

MBA

"I learned how to stand out
and become the leader I
knew I could be."

Juan B.

B.S. Business Administration '11

"Franklin taught me how to
be a more effective leader.

I learned I don't always
have to be out in front and
in charge to be a leader.

Effective leaders identify
the strengths of every
person to advance the
team."

Kathy H.

B.S. Business Administration '21

"Professionally, this
accomplishment will
prepare me for new
adventures and challenges
with better knowledge to
excel in my field. Thank
you, Franklin faculty and
staff."

ONLINE EDUCATION PROGRAMS

[HOME](#) / [DEGREES](#) / [ONLINE DEGREES](#) / EDUCATION PROGRAMS

Make an impact inside and outside the classroom with an online education degree

Because there are as many ways to learn as there are learning styles, the dynamic field of education needs people who understand there's always room to grow. With an online education degree from Franklin, you'll be prepared to advance both individual learning and educational best practices. Our transfer-friendly education degrees and post-baccalaureate teacher licensure program feature online coursework alongside in-field student teaching. Plus, Franklin's education degree and certificate programs are accelerated and flexible, so you can earn a new credential, 100% online, in as few as eight months.

Move people and business forward with an online human resources degree

Making an impact is easier and more rewarding from a position of influence. An online degree in human resources can help you earn that influence and leverage it for the benefit of others (and your career). Qualified HR professionals are needed to guide businesses in how they manage their people, lead the way in cultivating corporate culture, and coach employees toward challenging, meaningful work. When you earn one of Franklin's online human resources degrees, you'll be prepared to play a pivotal role in helping businesses — and their employees — thrive and grow.

ONLINE LEARNING FACTS

[HOME](#) / [DEGREES](#) / [ONLINE DEGREES](#) / [ONLINE LEARNING FACTS](#)

Get the facts about online education

Online college degrees have come a long way since the early days of the digital era. But that doesn't mean all online degree programs are equal. As an accredited, nonprofit university specializing in convenient and flexible online degrees for busy working adults, Franklin knows what it takes to offer a high-quality online academic program that employers respect. Keep reading to find out the truth about online degrees.

Benefits of Online Education

Why online classes are more than convenient

Taking classes in your jammies or logging on when the house is quiet and you can concentrate is, without a doubt, convenient. But the benefits of an online college education far exceed the so-called “comfort factor.”

Depending on your personal learning style, you may learn better via a virtual classroom. Learning this way takes a certain fortitude and self-discipline so you’ll also grow a little, both personally and professionally. And, at Franklin, we make everything -- including our online classes -- highly interactive and engaging so you may find you have to come out of that proverbial comfort zone and stretch your communication and technical skills a bit.

The truth is, taking online classes at Franklin is work -- hard work -- just like in a traditional classroom environment. And because our online classes and degree programs are designed with input from industry-leading professionals you’ll be highly engaged with plenty of interactive, hands-on assignments, as well as traditional learning concepts and application to real-world situations.

While you may be alone at your home laptop or office computer for your classes, at Franklin, you’re never truly alone. With our online curriculum, you have 24/7 access to your classes and grades, as well as our library, bookstore, and student services through the unique online learning portal, my.franklin.edu.

Here are just a few other benefits of an online education courtesy of Franklin’s [Back to College blog](#):

1. You can attend online classes anytime, anywhere you have Web access.
2. You can access course materials 24 hours a day, 7 days a week.

3. You can learn from instructors across the country and around the world, broadening your perspective.
4. You'll enhance your ability to communicate effectively through the latest technology.
5. You'll network with classmates from a wide range of backgrounds and locations.
6. You can access instructors immediately through chat, discussion thread, or email, without having to wait for office hours.
7. You'll have access to a broad spectrum of relevant content through your online course Web site.
8. You could earn higher grades because you can learn at your own pace.
9. You'll learn innovative strategies for virtual teamwork by using electronic communication to interact with a group. Employers highly value this skill.
10. You'll benefit from a flexible schedule, which is extremely helpful if you're balancing your education with work and family life.

Myths of Online Education

Learn the truth about online learning

As the digital world continues to expand, more and more colleges and universities like Franklin are offering well-respected online degrees. As one of the first to offer a quality online education, we've made it our mission to ensure that our online classes and degree programs are equal in educational value to our traditional classes.

Of course, we let you choose how you want to learn: online, onsite or through a combined learning experience.

You should know, however, that our online associate, bachelor's, master's and doctoral degree programs align with the rigorous requirements to maintain our position as an accredited university. In fact, we pride ourselves on offering unique, hands-on practicums to our online adult learners to better prepare them for the demands of a real-world career.

Here we examine (and bust) the myths surrounding online college educations:

The Myth: Online degrees are not respected.

The Truth: Employers appreciate the flexibility that online learning offers busy employees. They also respect the fact that Franklin's online learning format includes the same curriculum, skills and outcomes as our onsite classes.

The Myth: Online learning is less rigorous.

The Truth: Hardly. While Franklin's online classes are tailored to meet busy schedules, you may find you have to increase your time-management skills to ensure completion of your coursework.

The Myth: Online promotes "cheating."

The Truth: Studies show that when it comes to shortchanging things, there's no difference between online or onsite learning. And, at Franklin, we have built-in accountability to help hold our students to a higher standard, which increases the quality and reputation of your Franklin degree.

The Myth: Learning online is isolating and lonely.

The Truth: Fat chance. With Franklin's online learning resources, including discussion boards, chats and video conferencing, you may experience even more peer-to-peer and student-to-faculty sharing opportunities than in the classroom.

The Myth: The instructors are inferior.

The Truth: With Franklin's online classes, you learn from the same industry-expert faculty that teach our onsite classes. While you won't necessarily see them in real time, you will

interact with them through online discussions, emails, chat and lecture sessions.

LEADERSHIP

Enhance your leadership skillset

From community policing and crime prevention to prison overcrowding and reentry, solutions to reform the criminal justice system for the 21st century will require forward-thinking leadership.

Program Availability

Ohio

Earning a certificate in Criminal Justice Leadership equips you with an in-field

credential that prepares you to build specialized knowledge quickly so that you can be a change agent in the dynamic field of criminal justice. The accelerated, convenient format means you can complete your coursework in as few as six months without taking time away from your job.

Program Overview

Spearhead systematic change

Taught by seasoned professionals within the criminal justice industry, the certificate curriculum provides you with a holistic view of criminal justice systems – from how policy is made to the impact of laws and how they are enforced. Recognized for excellence in online instruction, courses are embedded with interactive learning tools and emphasize on-the-job challenges to facilitate learning.

Build in-demand skills quickly with a data analytics certificate program

Turn information into insight and help organizations impact nearly every aspect of business. Data analysis is a valuable skill for any professional seeking a competitive edge - regardless of your industry or current role. Franklin's

Program Availability

Ohio

Graduate Certificate in Data Analytics
boosts your knowledge of statistics,
databases, data visualization, data mining
and big data technologies using high-
demand tools such as R and Tableau - no
STEM background required. Earn your
certificate 100% online in as few as 8
months.

Finish in 8 Months

Prepare for advancement faster.

Data Analytics Certificate Program Overview

Uncovering the insights hidden within big data is important for government organizations, nonprofits and corporations in every industry. You'll learn descriptive methods that will enable you to tell the story behind the numbers, create powerful visualizations to help you

communicate your findings, and use predictive analysis to make recommendations based on trends. Throughout the program, you'll also explore the ethical principles of data, including collection, access, ownership and privacy issues. Most importantly, you'll learn how to transform information into meaningful insights and provide best practices to stakeholders within your organization.

growth. The work of instructional designers ties personal improvements to institutional gains by understanding how to maximize the potential of individuals.

Franklin University's Graduate Certificate in Instructional Design is designed to equip you with the foundational, principles-based knowledge and skills needed to solve instructional and performance problems using a systematic, theory-based approach.

And because our program is offered completely online for ultimate flexibility, you'll be able to complete all of your coursework in 8 months. Our accelerated format allows you to quickly earn a credential that highlights your expertise and complements your existing bachelor's or master's degree.

Program Overview

Get a head start on your master's degree at Franklin

All 16 credits earned during our Instructional Design Graduate Certificate Program transfer directly toward the 32 credits required for our M.S. Instructional Design & Learning Technology. This makes it a great way for you to become familiar with graduate-level courses and see if a master's degree is right for you.

Grow Your Skills and Your Career with an Online Accounting Data Analytics Certificate

A forward-thinking accountant can help inform business decisions by analyzing data and asking the right questions.

Franklin's Accounting Data Analytics Certificate will equip you with the skills you

Program Availability

Ohio

need to get, or stay, on top of your game amid growing reliance on data. This 100% online certificate program will deepen your knowledge of the technology and processes necessary to prepare data for analysis and presentation. Whether you want to boost your accounting career, prepare for the CPA exam or better understand how data analysis capabilities can enhance various accounting roles, this four-course certificate is a great investment in your professional development.

Finish in 12 Months

Build data analytics skills quickly.

Program Overview

Learn processes and technologies key to data analytics and increase your value in the workplace

Until recently, accounting professionals spent significant time manually analyzing data and performing repetitive tasks. In the ever-evolving business environment, employers expect accountants to be familiar with data analytics and processing tools. You'll gain hands-on practice with Excel, Python and Tableau, get an introduction to data manipulation and visualization, and learn how to use data analytics to fuel decision making.

have a passion for caring for older people, Franklin University's post-graduate Adult-Gerontology Primary Care Nurse Practitioner certificate (AGPCNP-CERT) is a great way to specialize your nursing practice and position yourself for increased responsibility and professional growth.

Transfer Credits Available

Eligible students can get a jumpstart by transferring up to 12 credit hours.

Adult-Gerontology Primary Care Nurse Practitioner Certificate Overview

Whether you are an RN with a Master of Science in Nursing (MSN), a Ph.D. in Nursing, or a Doctor of Nursing Practice (DNP), our program prepares you to improve healthcare delivery and outcomes for adolescents, adult and geriatric populations. You'll gain the

knowledge and clinical skills necessary for the assessment and management of common acute and chronic illnesses, health promotion and disease prevention. Upon completing the certificate, you will be eligible for the Adult-Gerontology Primary Care Nurse Practitioner certification examination offered by the American Nurses Credentialing Center (ANCC) or the American Association of Nurse Practitioners (AANP).

CCNE ACCREDITATION

[HOME](#) / [ABOUT US](#) / [UNIVERSITY DETAILS](#) / [ACCREDITATION](#) / CCNE ACCREDITATION

CCNE Accreditation Signals Quality Among Nursing Programs

How do you know if the nursing degree you're considering aligns with your APRN career goals? Accreditations, like Franklin's through the Commission on Collegiate Nursing Education (CCNE), ensure that you will be eligible to apply to sit for APRN certification exams, and be well-prepared for employment and advanced nursing education. Accreditation is also required for programs to be able to accept federal and state financial aid for qualified students.

CCNE accreditation indicates that a nursing program has demonstrated high standards of quality and integrity and engages in on-going self assessment and improvement.

Designed by Insiders

Gain in-demand skills with an industry-aligned curriculum.

CCNE Accreditation Logo Section

tor of

1

Franklin is one of more than 1,000 nursing programs in the United States that have satisfied CCNE's accreditation standards. CCNE accreditation:

- Ensures students receive a high-quality education.
- Reassures graduates that their diploma is credible.
- Promotes diversity and inclusivity within programs.
- Ensures the program adequately prepares nurses for national certification, employment and advanced education.

The CCNE Accreditation Process

CCNE, a national certification accrediting agency acknowledged by the U.S. Secretary of Education, has used its rigorous peer-review accreditation process to establish itself as the U.S. nursing accrediting body of record. Practicing nurses and experienced in-field educators volunteer to serve as CCNE evaluators. The accreditation process requires the following steps:

1. Creation of a self-study to demonstrate program quality and evidence that CCNE-accreditation standards are being met
2. A comprehensive, multi-day on-site evaluation of materials
3. Submission of site report to the CCNE Board of Commissioners, which meets twice yearly to review evaluations and make accreditation decisions
4. Regular reports by accredited programs to verify on-going compliance with standards

or to provide notification of substantive program changes

Ensure the Quality of Your Business Degree with IACBE Accreditation

How do you know that the degree you earn is worth your investment? The Ross College of Business at Franklin University has received specialized accreditation through IACBE, which provide assurance that academic programs are aligned with established principles of excellence in business education.

In short: There's a standard that business and accounting programs are measured by and Franklin meets it.

Accredited Since 1999

Franklin University's business programs earned initial accreditation from IACBE, an authority on excellence in business education, in 1999.

Why IACBE Accreditation Matters

Franklin is one of 1,800 institutions worldwide that meet the International Accreditation Council for Business Education (IACBE) standards for business excellence. Specialized accreditation is significant because it:

- Validates the quality of Franklin's business and accounting programs.

- Affirms the university's fulfillment of its mission to make high-quality education accessible to the broadest community of learners.
- Proves that Franklin students achieve learning outcomes.

The IACBE Accreditation Process

IACBE accreditation is a quality assurance program for business process at the associate, bachelor's, master's and doctoral levels. The institution seeking accreditation voluntarily engages in external, independent review of its educational activities. The process requires the following steps:

1. A self-study that identifies strengths, weaknesses and level of compliance with IACBE's Accreditation Principles
2. A site visit by an independent team of peer reviewers
3. IACBE Board of Commissioners will review the self-study and the site visit team's report of findings to determine the accreditation status of the institution's business and accounting programs.

Online Classes vs. Traditional Classes: Advantages & Challenges

[Online](#) [Choosing a School](#)

Online classes are growing more popular every year.

In fact, according to labor market analytics firm EMSI, in 2019, 26% of all college degrees were earned completely online. From 2012 to 2019, EMSI also recorded online programs growing by 56%, while their traditional counterparts saw a decrease in degree completions by 3.3%.

The Age of Digital Education

26%

completions from
2012 - 2019.

-3.3%

Decline in traditional
degree completions from
2012 - 2019.

Source: EMSI Labor Market Analytics

This surging growth can be partly attributed to the high quality of online classes offered by [regionally-accredited](#) colleges and universities. But that doesn't mean there aren't distinct advantages and challenges between online and traditional learning experiences.

Are you thinking about going online but feel unsure about committing? We'll help you weigh the pros and cons of online classes vs. traditional classes and help you choose the best learning experience for your needs.

Pros: 8 Ways Online Classes Can Be Better Than Traditional Classes

Online classes have come a long way. With new technology, instructional design experts and dedicated online student support services, now is a better time than ever to take online classes.

The Biggest Advantages of Online College Classes

Full-Time Employment Friendly

Attend Class Anywhere

Scheduling Options

Complete At Your Own Pace

Faster Completion

Immediate Real-World Application

Affordability

360° Learning

Here are some of the pros of taking online classes that you won't get from a traditional program:

- **More Accessible for Working Adults:** The flexible nature of [online learning](#) is better suited to people who need to work full time or part time. If physical attendance is required (most often it's not), they typically only meet once per week.

“Attend” Class Anywhere: Say goodbye to commutes to campus. Want to attend class in a coffee shop, at a park, or on your couch? Choose a location with a WiFi connection, log in, and learn in an environment that’s suited for you.

- **Flexible Course Scheduling:** Most online classes don’t adhere to a traditional academic calendar. That means you don’t have to wait until the start of a semester to take a class. Rolling start dates and variable class lengths make it easier to work school into your busy schedule.
- **Complete Your Degree at Your Own Pace:** With online classes you can take one class at a time, double up on classes or even space out your classes across the year. If you have a busy time of the year at work or at home, classes usually start every 6 weeks, so you can speed up or slow down based on your needs.
- **Accelerate Your Degree Completion:** Some online degrees can be completed more quickly than traditional degrees. Online classes occur more regularly, so there is the opportunity to take more classes and complete more credits each year. This is most common with master’s degrees, some of which can be completed in as few as 12 months.
- **Apply Content Immediately to Your Job:** When you take online classes, you don’t have to wait to see the results. You can apply the concepts you learn to your everyday job, putting theory into practice. Some online students get [promotion opportunities](#) before they finish their degree because of the valuable knowledge and skills they gain along the way.
- **Possibly Lower the Cost of Your Education:** While not all online classes are more affordable than traditional classes, the cost per credit hour is often lower for online classes. The best online colleges will also help you [maximize transfer credit](#), so your previous education and experiences can count toward your degree, which also reduces costs.
- **Benefit From 360-Degree Learning:** Online classes are typically taught by instructors with deep professional experience. Course content is also amplified by the real-world professional experiences of your peers. While traditional classes may be skewed toward a younger demographic and a more theory-driven approach, online classes provide real-world skills from day one.

[**Heading back to school? Make sure you max out your Financial Aid with**](#)

the help of this free FAFSA report.

Cons: 5 Ways Online Classes Can Be Challenging

If you've never taken an online class before, it can take time to adjust to this new virtual format. But if you're prepared and plan ahead, the change can be more than worth it.

Some of the most common challenges online student face include:

- **Less Face-to-Face Interaction:** At least in the traditional sense. Online classes lack the spontaneous hallway discussions or office hour pop-ins of traditional classes. But that doesn't mean there's no facetime. The best online classes will use video chat, livestream classes and incorporate group projects so you feel connected to your instructors and peers.
- **Networking and Internships:** Growing your professional network and getting real-world experience are two sought-after benefits that are aligned with traditional classes. When taking online classes, you may have similar opportunities, but you will need to go above and beyond the virtual classroom to realize their full potential. Look for online colleges that incorporate mentorship opportunities, engage with professional organizations and can connect you with a strong alumni and employer network.
- **Physical Resources:** If you attend online classes, you won't spend time lounging in the student union or studying in a quiet corner in the library. However, that doesn't mean you won't have access to similar resources. They will just look a little different. The best online classes will provide 24/7 access to library resources, tutoring services or even virtual "study rooms," that students can rent to collaborate.
- **Self-Motivation and Discipline:** Meeting regularly multiple times a week makes it easier to pace yourself. When learning online, there may be less checkpoints and deadlines may be more spread out. If you're very deadline driven, set personal deadlines for accomplishing your work so that you pace yourself throughout the week. A more defined schedule can help you stay motivated so procrastination doesn't get the best of you.
- **Staying Focused:** It's fairly easy to focus in a dedicated classroom surrounded by peers and face-to-

face with your instructor. It can be easy to get distracted in a remote learning environment if other priorities are competing for your attention. The best way to overcome this challenge is to create a dedicated space for online learning to remove unwanted distractions.

All online classes are not created equal. The learning environment in online classes can vary widely based on the online college you choose. If you find the right online classes, they will minimize these challenges and provide an experience on par with—or better than—traditional in-person classes.

Find the Right Online Classes to Maximize the Advantages of Online Education

For working professionals who understand the advantages of online classes, the choice is clear. Flexible scheduling, 360-degree learning and job-ready skills make online classes a great choice to advance your career.

Franklin University designs online classes for busy working adults. We pair instructional design expertise with subject matter expertise to develop online classes and curriculum that's engaging, relevant and supportive. We provide every resource you would find in a traditional classroom, but in a way that allows you to earn your degree on your time and your schedule.

Is Online College Worth It?

Online Choosing a School

The value of online college is top-of-mind for many students looking to earn their degree. COVID-19 has colleges of all shapes and sizes prioritizing online learning formats. Because of this dramatic and rapid

shift, there's a clear distinction you need to make when considering the worth of online college.

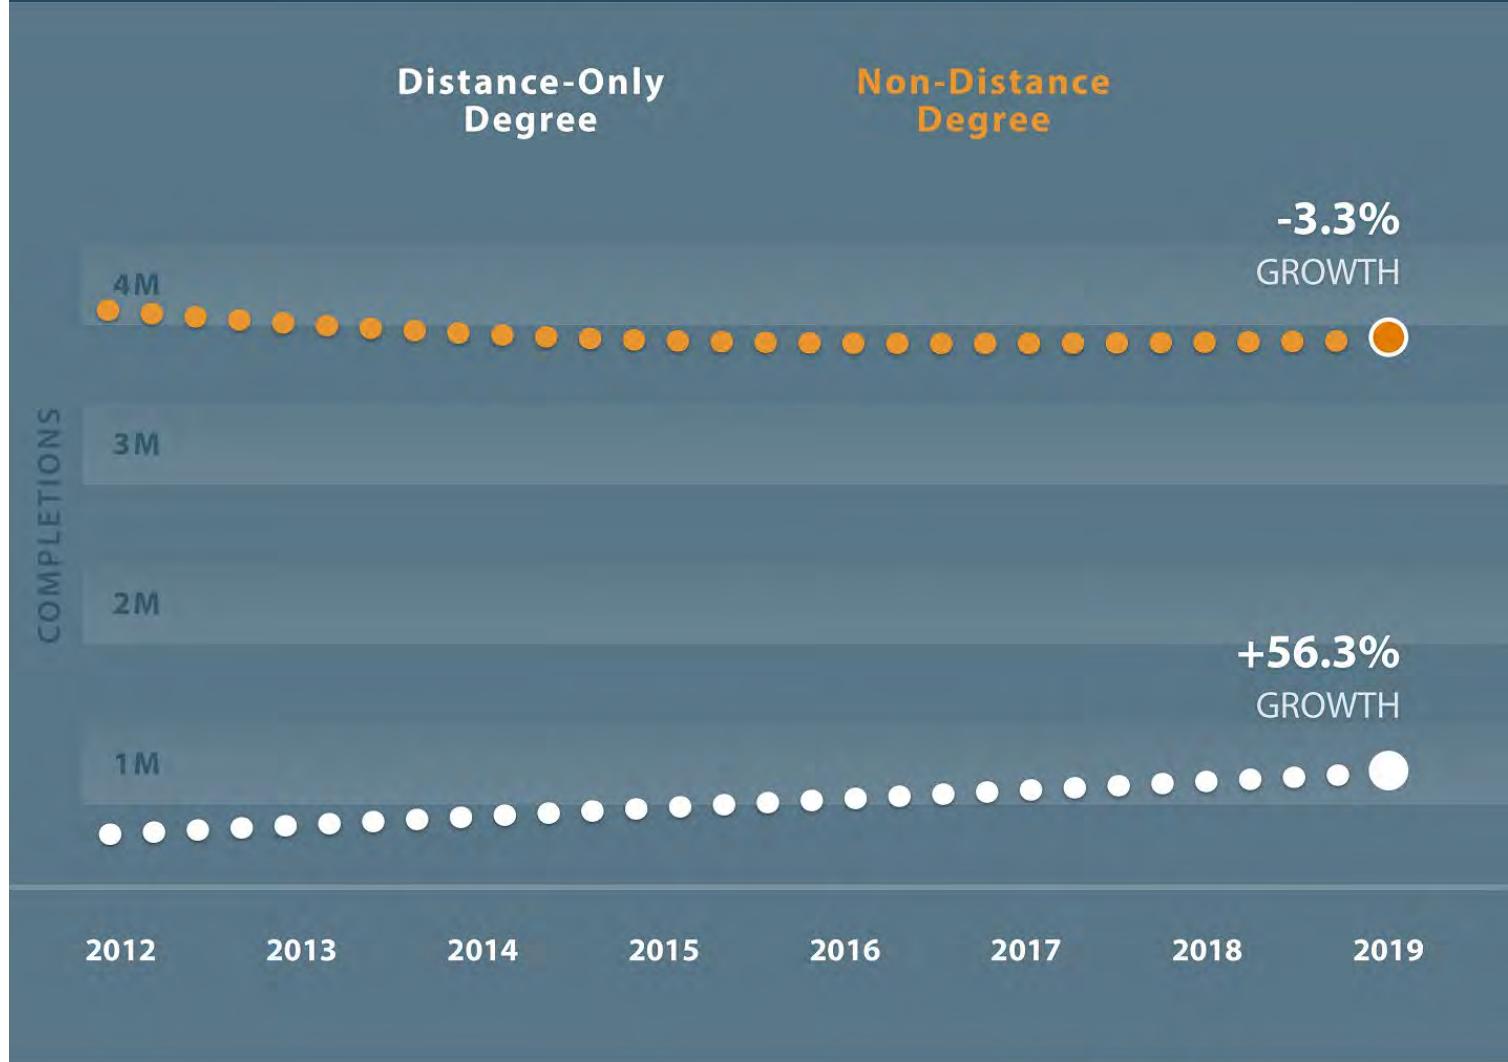

It's also worth noting that an online college and a college adapting to conduct classes online are vastly different.

A true online college designs curriculum, learning experiences and evaluation to be conducted virtually. They employ instructional designers and do rigorous testing on the best ways to teach content to improve student success. On the other hand, a traditional college that simply migrates their in-person courses online may fall short of student expectations.

Even if you're comparing online colleges that have a long history of teaching virtually, there can be a world of difference. From nonprofit to for-profit online universities to online-only models and hybrid offerings, there are many factors to consider when determining the worth of an online education.

Determining If An Online College Is Legitimate

Distance-Only Degree Completions vs. Non-Distance Degree Completions

The days of associating a stigma with online education are long gone. Online degrees continue to rise in prominence and popularity. According to labor analytics firm EMSI, in 2019, 1,358,068 degrees were completed online, accounting for 26% of all college degrees that year. From 2012 to 2019, completions of traditional, non-distanced offered degrees have declined by 3.3%. While these traditional universities are struggling to attract students, online colleges are thriving—experiencing a 56.3% increase in degree completions over the same time period.

But that doesn't mean all online colleges are worth it.

How do you separate the online colleges that are worth the investment from the ones that aren't? **Get answers to these 6 key questions to holistically measure the worth of an online college:**

- Is this online college [regionally accredited](#)?
- Does this online college offer [tailored support services](#) and resources to enable my success?
- Does this online college provide an engaging, interactive and [hands-on learning environment](#)?
- Will I gain both technical and soft skills that will set me apart for advancement?
- Will a degree from this online college be [respected by employers](#)?
- Will my short-term and long-term earning and hiring potential improve with this online degree?

Once you determine the legitimacy and value of an online college, you can reap the benefits of earning your degree online.

8 Clear Advantages of Online College

Attending an online college is a choice in the way you learn—not the degree you earn. There is no such thing as an “online degree.” You earn the same bachelor’s, master’s or doctorate credential online as you would through an on-campus program.

[Heading back to school? Make sure you max out your Financial Aid with the help of this free FAFSA report.](#)

If you choose the right online college, the quality of your education and learning experience should be the same—if not better—than getting your degree at a traditional college. The advantages to earning your degree online only multiply if you’re a working professional.

Let's look at 8 ways online college can benefit you:

1. **The opportunity cost of your degree is less** because you can continue to earn income while pursuing your degree (plus tuition and fees can be lower than on-campus programs).
2. You experience the incremental worth of a degree, as you can **apply the skills you learn to your day-to-day job from day one**. It's not uncommon for professionals to be promoted before they complete their online degree program.
3. Online collaboration and presentation skills are embedded into an online degree, preparing you to **use the tools demanded by an increasingly virtual business landscape**.
4. You get the benefit of a **more flexible academic calendar** and course scheduling, making it easier to earn your degree at your own pace and around your schedule.
5. Online course **content is geared toward real-world application**, not just academic theory.
6. The learning environment is more diverse—**professionals from different backgrounds, experience levels and geographic locations add unique perspectives** to course content.
7. You **save time and money by eliminating a commute to campus**, time which can be put toward your academic, professional or personal pursuits.
8. **Online courses are standardized around defined learning outcomes**, rather than being completely reliant on an individual professor to develop course content.

4 Possible Disadvantages of Online College

Online college can also have its drawbacks—especially if you don't do your homework on which online college to attend. There are many low-quality internet or for-profit colleges that provide little to no long-term value. Online colleges may also have radically different teaching and learning philosophies. Be aware of these pitfalls:

- **Beware of online college scams.** Illegitimate online colleges can create a convincing facade. Don't get fooled—do your research into accreditation, graduation rates and student reviews before committing to any school.

- **Time management can be challenging.** Some online colleges, especially ones that use a competency-based approach, lack structure and deadlines for completing coursework. If you thrive in a structured and predictable learning environment, make sure you choose an online college that emphasizes a balanced learning approach. This approach ensures that you complete approximately the same amount of work each week of the course, making it easier to schedule around your other priorities.
- **Your learning environment may lead to feeling isolated.** Competency-based online courses are completed completely at your own pace. This may sound like a benefit, but it also means you trade off the benefits of a collaborative and interactive learning environment. An instructor-led and student-centered online college emphasizes 360-degree learning where working together is essential. The best programs will maintain flexibility by recording lectures and tailoring assignments if scheduling conflicts arise for you.
- **Student support systems vary widely.** Some online colleges lack personal support. If you choose a competency-based online program, you may have less access to instructors, advisors and peers. You may only receive support if you're struggling in a course. The best, student-centered online colleges will create dedicated resources to help students—whether they are struggling or not. Personal academic advisors, active and engaged instructors and 24/7 resources like online libraries can make a huge difference in successfully earning your degree.

You need to make sure that the learning experience at an online college meets both your needs and expectations as a student. Go into your search for an online degree with your eyes open to the disadvantages an online college may present.

An Additional Word About Models of Online Education

There are two competing models for online learning—student-centered and competency-based.

Student-centered online learning focuses on outcomes to meet the evolving needs of students and employers. Student-centered courses balance autonomy with structured student support. Expect defined course timelines, instructor-led classes and collaborative assignments.

Competency-based online education, on the other hand, is a predominantly solitary learning experience. You set the pace for your learning, only moving to the next course after proving your expertise in a topic. Expect a linear learning experience, limited interaction with instructors and courses without deadlines.

Online Colleges & Degrees in Toledo: Your Guide To Choosing The Best Schools

[Ohio](#) [Choosing a School](#) [Online](#)

Toledo is experiencing a resurgence as new companies, investments and jobs are entering the region.

Toledo offers a multitude of career opportunities across thriving industries, including: research, design, manufacturing, technology and healthcare. Top employers like Mercy Health, GM, Owens Corning and First Solar are looking for highly-skilled and educated employees to fuel business growth.

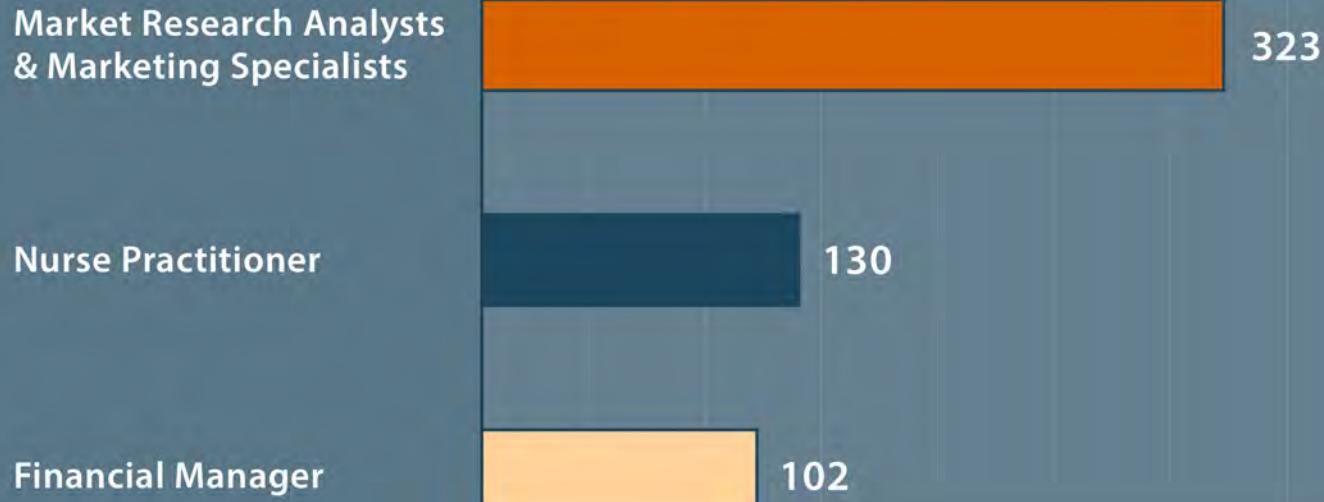

Due to this advancement, many working adults in Toledo are looking to level up their skills for the next chapter in their careers. It's no wonder that Toledo is also seeing an increase in online degree completions as a result. In Toledo, degree completions from distance-offered programs grew by 108.2% between 2012 and 2018, while non-distance programs experienced a decline of 14.3%.

If you're a working professional in Toledo that wants to improve your short- and long-term career prospects, getting an online degree could be your next move. Here's how to find the best online colleges and degrees when you live in Toledo, Ohio.

3 Popular Online Degrees for In-Demand Careers in Toledo

Most Popular Online Degrees For Toledo Residents

Degree Completions
(Toledo Schools 2018)

Source: EMSI

Going back to school is a big commitment. You want to make sure that the degree you get provides a strong return on investment. To do so, look for top online degrees that correlate to the largest and fastest growing careers in Toledo.

1. Online B.S in Marketing to Become a **Market Research Analyst or Marketing Specialist**

Getting your bachelor's in marketing can help you land a promising career in today's data-driven marketing landscape. In Toledo, top sought after skills, according to job posting data, include digital

marketing, new product development and market research. The right online marketing degree will help you harness the analytical and creative skills you need to meet that demand.

Median Salary in Toledo (EMSI):\$54,856

Anticipated Job Growth in Toledo (By 2030): 11%

2. Online Master's in Nursing, FNP to Become a Nurse Practitioner

A shortage of doctors is expected in many parts of the country, making Nurse Practitioners an increasingly valuable asset to the healthcare industry. This high-growth and high-paying career also requires intensive training and education. Getting your master's in nursing online is a great way to balance your current nursing career with your aspirations of joining the top ranks of this growing profession in Toledo.

Median Salary (EMSI): \$107,199

Anticipated Job Growth in Toledo (By 2030): 24%

3. Online Master of Business Administration to Become a Financial Manager

In Toledo, 26% of degree completions in 2018 in business administration and management were at the master's level, showing the desire for professionals who are ready to lead. One of the top areas of opportunity in Toledo is finance, where qualified managers can earn over six figures. An MBA is a great way to earn leadership and cross-functional skills that prepare you for top financial positions in many organizations.

Median Salary (EMSI): \$109,911

Anticipated Job Growth in Toledo (By 2030): 13%

3 Qualities To Determine The Best Online College in Toledo

There are endless options for online education—from local Toledo colleges to national online universities.

But how can you tell the best from the rest? And even more importantly, how do you know which online colleges are built to help you succeed?

Heading back to school? Make sure you max out your Financial Aid with the help of this free FAFSA report.

If you're a working adult looking to continue your education, look for these hallmarks of great online colleges and degrees.

High-Quality and Respected Online Degree Programs

It may seem obvious, but an online college is only as strong as its degree programs. The tough part is knowing the telltale signs of a quality online degree. Here's what you should look for.

- Regional accreditation as an institution, and individual programs that are also accredited.
- Strong industry reputation and established connections with employers and professional organizations.
- High graduation rates and number of degree completions, which indicate successful student outcomes.

Franklin University is a regionally-accredited nonprofit institution that has employer partnerships spanning top companies across major industries in Ohio.

Online Degrees That Provide Immediate Results and Long-term Value

A degree is a long-term investment in your future. It should pave the way for career advancement, but you don't want it to take a lifetime to realize the full value of your degree. Here's what to look for to help ensure your investment pays off.

- Instructors with in-depth industry experience that can apply theory to real-world challenges you face in

your day-to-day job, while opening your eyes to big picture problem solving.

- Curriculum developed with input from employers and industry experts, so it maintains its relevance and teaches in-demand skills.
- A dedication to balancing current technical skills with lifelong soft skills like teamwork, communication and leadership that will always be valued by employers.

Franklin University utilizes programs advisory boards—made up of industry experts who work for top companies—to develop and evolve curriculum to meet industry demand. Coursework is built around using industry tools to gain technical expertise while improving interpersonal skills through critical problem solving.

Online Degrees Designed for the Needs of Working Adults

Online colleges should be inherently more flexible than their campus-only counterparts. However, just because an institution offers degrees online doesn't mean it's the best fit. Here's what an online college needs to offer to meet the demands of busy, working adults.

- Flexible courses that include regular course start dates and variable course lengths.
- Interactive and collaborative learning that combines synchronous and asynchronous courses, peer interaction and group projects, and instructor-led courses.
- Balanced educational approach that spreads out coursework evenly throughout the course, so you know how much time to commit to your studies each week.
- Transfer credit friendly degree programs that allow you to apply previous educational and professional experience to finish your degree faster

Evaluation Criteria	Competency-Based Online Education	Student-Centered Online Education
Flexible Courses	Yes	Yes
Interactive & Collaborative Learning	No	Yes
Balanced Educational Approach	No	Yes

Transfer Credit Friendly	Some	Yes
--------------------------	------	-----

Franklin University, on average, starts courses every six weeks and allows students to transfer up to 94 credit hours for bachelor's degrees, 12 credit hours for master's degrees, and 24 hours for doctorate degrees.

Best 4-Year Online Colleges and Universities for Toledo Residents

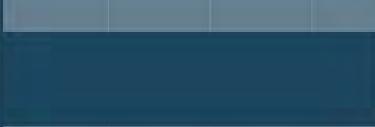

When you're comparing the online offerings of colleges and universities that serve Toledo residents, there are two primary indicators of leading programs.

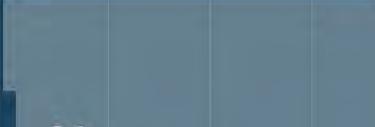

The first indicator is the number of degrees completed each year by students who participate in distance-only education. A higher number of completions typically indicates a larger online offer and greater diversity of degrees.

Online Colleges for Toledo Residents with the Most Online Degree Completions

Number of Online Degree Completions by Online College

Franklin University
Private, nonprofit  1,671

Are Online Degrees Worth It?

Online Adult Learner Choosing a School

Online degree programs aren't just popular—they're becoming a norm in higher education. For many colleges and universities, the demand for more accessible, flexible and affordable education has them

turning to online learning.

The shift from traditional to online education is especially apparent when looking at degree completion trends. According to labor market analytics firm Emsi, from 2013 to 2018, degree completions for online programs increased by 30.4%, while the number of degrees completed in non-distance programs actually decreased by 1.2%.

Source: EMSI

But as more and more institutions double down on online degree programs, how can you determine the best from all the rest? We created this guide to help you find out if an online degree is credible and a worthwhile investment.

Are Online Colleges Credible? Here's How to Tell.

Getting a degree is a large investment of time, energy and money. You want to make sure that getting your online degree will be worth it.

Choosing a [reputable online college](#) with high-quality programs, dedicated support services, and proven outcomes is key to success. Here are four things to do when evaluating the credibility of online colleges.

- **Make sure you know if an online college is accredited—and what type of accreditation it has.** Accreditation is the gold standard of quality in higher education. If you're looking for a program that passes the strictest quality standards, look for a regionally-accredited online college. Also, look research if the degree program you want to pursue is accredited, as individual programs, like nursing or business, have their own accrediting bodies.
- **Be extra mindful when evaluating for-profit online colleges.** Some for-profit institutions have a track record of producing inferior outcomes when it comes to online education. However, government regulation helped rein in some of the worst offenders. Now, some for-profit institutions have turned a corner, while others still put profit over student experience. If you're considering a for-profit institution, do in-depth research to ensure it's a high-quality school with demonstrated student success.
- **Look at completion percentages to see how many students finish their degrees.** Completion percentage is a good indicator of program quality and student support services, as well as a sign that students find their education worthwhile.
- **Talk to someone who has firsthand experience at the college or university.** There's only so much information you can gain through online research. Reach out to the institution to talk with admissions and faculty. Try to talk to a current student or alum. Talking to these people will help you get a complete picture of the student experience.

When it comes to paying for school, grants are among your best options. But do you know how to find them? Remove the guesswork by downloading this free guide.

Are Online Degrees Respected by Employers?

This is a question many potential online learners ask. But it's also a misleading question because online degrees aren't different than in-person degrees. The credential is the same—it's only the way you take classes that differs. So when a potential employer looks at your resume, they won't know if you got your degree online unless you tell them. But even if they do—it's not something you should worry about.

"There may have been a stigma around online colleges in the past, but the quality of online instruction has come so far," says Dr. Joel Gardner, assistant dean, Instructional Design at Franklin University.

"Now, online programs are not only on-par with in-person education, but some studies indicate they may surpass the effectiveness of face-to-face instruction."

Today's employers are looking at more than whether you got your degree online or in-person. What they're really looking at is your school, type of degree, skillset and professional integrity.

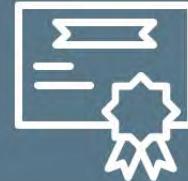

What Employers Really Care About

(Hint: It's Not if You Got Your Degree Online)

Institution

Employers want candidates with degrees from credible and well-respected institutions.

Type of Degree

Employers want your degree to align with specialized knowledge the job requires.

Skillset

Employers look for real-world skills that meet the day-to-day responsibilities of a job.

Professional Integrity

Recommendations and referrals from people who can validate your skills based on first-hand experience make a difference.

If these are the criteria employers care most about, how can you make sure an online college will prepare you to succeed? Here's what to look for to make sure your resume stands out:

- An institution that is regionally accredited. Bonus points for institutions with program-specific

accreditation.

- Look for online colleges with programs and curriculum that's up-to-date with industry best practices. New programs in specialized areas and regularly updated curriculum are signs of innovative online colleges.
- Find an online program that focuses on professional application, not just academic theory. Signs of these programs are hands-on simulations, collaborative projects, and the use of industry-standard tools.
- One of the benefits of getting your degree is growing your professional network—and online degrees are no different. Find a program with industry partnerships, relationships with professional societies, mentorship opportunities, and faculty who are industry practitioners.

7 Advantages of Online Degrees for Working Adults

Getting a degree as a working adult is very different than as a traditional undergraduate student. As a working professional, you're already balancing career, personal and community responsibilities. Even when completing your degree is a priority, you need a [program that caters to your unique needs](#).

Here are seven reasons an online college is an excellent option for adults looking to advance their careers.

- Online programs allow you more flexibility—from when you take classes to when you complete assignments. A lack of scheduling conflicts can also positively impact retention rates.
- You can often earn your degree faster than a traditional program. On the other hand, if you have a busy schedule with many personal and professional commitments, you can also take one course at a time. Ultimately, the pace you complete your degree is up to you.
- Online degrees designed for working adults focus on skill-building, rather than just theoretical comprehension. The right program will teach you skills you can use on the job in your current role while preparing you for advancement.
- Advanced technology provides the ability to create more engaging content. It allows you to easily collaborate with classmates and connect with instructors, so you don't lose out on the interactive

aspect of traditional courses.

- Online programs usually include more frequent check-ins and evaluations, which allow faculty to intervene more quickly if a student falls behind.
- Participation is expected in online coursework. You can't hide at the back of a lecture hall, you have to actively participate, which can help you learn the material more effectively.

If these advantages resonate with you, an online degree might be the next step in furthering your career.

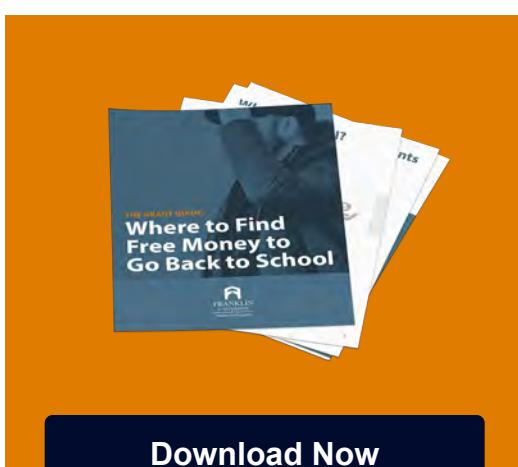

If You're the Right Type of Student, an Online Degree is Worth It

You understand the merits of an online degree. Now, you need to find an online college that aligns with your unique needs and professional goals.

Franklin University is dedicated to creating [online degree programs](#) designed for working adults by:

- Maximizing transfer credit—more than 90% of our students transfer credit from other schools.
- Offering flexible scheduling and accelerated degree programs.
- Bringing real-world perspectives to courses through experienced faculty and industry-relevant curriculum.
- Creating engaging courses that use cutting-edge and collaborative technology.

Online Colleges In Cleveland: What To Know Before Choosing

Online Adult Learner Choosing a School Ohio

If you're a Cleveland resident, there are a number of local four-year colleges and universities that offer

online degrees. From large public universities to small, private not-for-profits, these schools come in all shapes and sizes.

As a local Clevelander, you might think you know what these colleges are all about. But comparing online degrees is very different than in-person programs. So how do you know where to start? Let's look at how you can identify popular online colleges and degrees in Cleveland.

More importantly, let's discover how you can find the right online college for you.

Popular 4-Year Online Colleges for Cleveland Residents

One of the best ways to evaluate popular online colleges and universities is to develop an understanding of how many degrees were offered and completed online. Colleges with higher numbers of 100% online degree offerings usually have more sophisticated online programs and may offer dedicated support and services for online students.

Degree Completions for Online Colleges Serving Cleveland

INSTITUTION	TYPE	DISTANCE OFFERED DEGREE COMPLETIONS (2018)
Baldwin Wallace University	Private not-for-profit	46
Case Western Reserve University	Private not-for-profit	465
Cleveland State University	Public	551
Franklin University	Private not-for-profit	1,671
Kent State University at Geauga	Public	12
Lake Erie College	Private not-for-profit	57
Notre Dame College	Private not-for-profit	223
Ursuline College	Private not-for-profit	85

Source: EMSI

However, with the innovative technology fueling online degrees today, don't feel like you're limited to

online colleges with physical locations nearby. The most important factor in your decision should be finding an online college that's the right fit for your lifestyle and career goals.

Heading back to school? Make sure you max out your Financial Aid with the help of this free FAFSA report.

10 Things to Research About Online Colleges near Cleveland

Many individuals looking at online degrees in Cleveland are working professionals looking to advance their careers. As a working professional, you need to find an online college that will help you balance your education, career and personal life.

How do you find out if an online college in Cleveland will empower your success? Start by asking these questions.

- 1. Will I need to complete any synchronous courses as part of my degree program?** Synchronous courses are ones that require you to be online at a specific time—similar to an in-person class. Taking synchronous courses can be difficult for working professionals, so make sure you know if synchronous courses are required before you choose an online degree.
- 2. How often do courses start?** A college or university dedicated to online education won't just adhere to a traditional academic calendar. Instead of taking courses on a semester schedule, online colleges will offer course start dates every 6-8 weeks. This scheduling gives working professionals the flexibility to take courses on their own schedule.
- 3. How long does it take to complete an online degree?** There isn't a single answer to this question. But, an online college should be able to help you figure out how long it will take you. Figure out how many courses you can take at a time and how that will affect your graduation timeline.
- 4. How many credits can I transfer into my chosen program?** The best online colleges are transfer-friendly. If you have completed credit hours or professional certifications, they will help you maximize

transfer credits to shorten your time to graduation.

5. What programs, services or special assistance do you offer to support your online students?

An online college should offer the same level of support to its online students as it does for on-campus students. Look for an online college with stellar library services, tutoring sessions, frequent faculty availability, and career services.

6. How do you choose your faculty and what are their qualifications? Online degrees designed for working adults should focus on building real-world skills, not just understanding theory. The best way to do that? Hire faculty who are experts in their field because they have practical experience working in industry.

7. Are costs-per-credit-hour different if you take more than one course at a time? Some online colleges use tiered pricing. This means your cost per credit hour may decrease if you're taking multiple courses at once. But do you have the time to dedicate yourself to be successful in multiple courses? Make sure you fully understand tuition and fees as they apply to your unique situation.

8. What kind of interaction can I expect with my instructor and classmates? You shouldn't feel isolated because you take online courses. An excellent online program will provide collaborative learning opportunities—from online discussions to group projects. You should also have easy access to faculty when you have questions or want to discuss course material.

9. How often are your courses evaluated for industry relevance? The world is changing rapidly, so online courses should be regularly evaluated to make sure they follow industry best practices. Look for online colleges that have deep ties to industry and build courses with the input of employers and practitioners.

10. What career services do you offer to help connect students with employers or mentors? Make sure the online college you choose offers career services that can help you advance your career. Solid online colleges have strong reputations and connections with prominent employers and professional organizations.

Whether you do research on your own or reach out to admissions counselors at an online college, getting answers to these questions is critical. These answers should give you a clearer understanding of the quality of an online program and how it will meet your needs as a working professional.

Why Consider Franklin University if You Live in the Cleveland Area

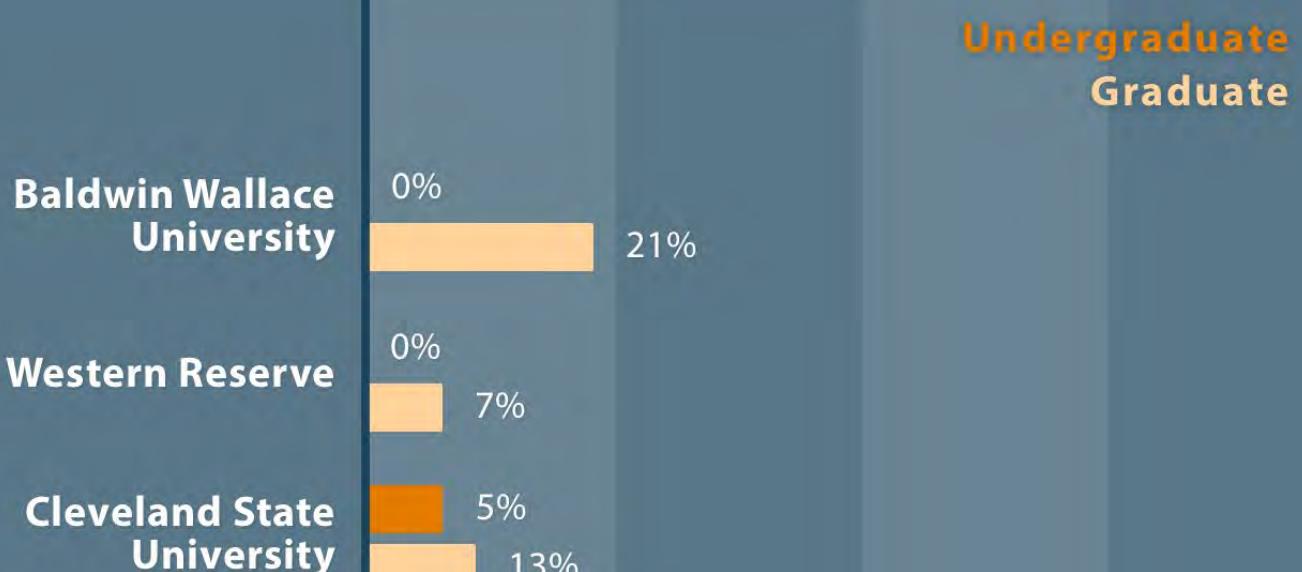

Reason 1: Franklin University Specializes in Online Education

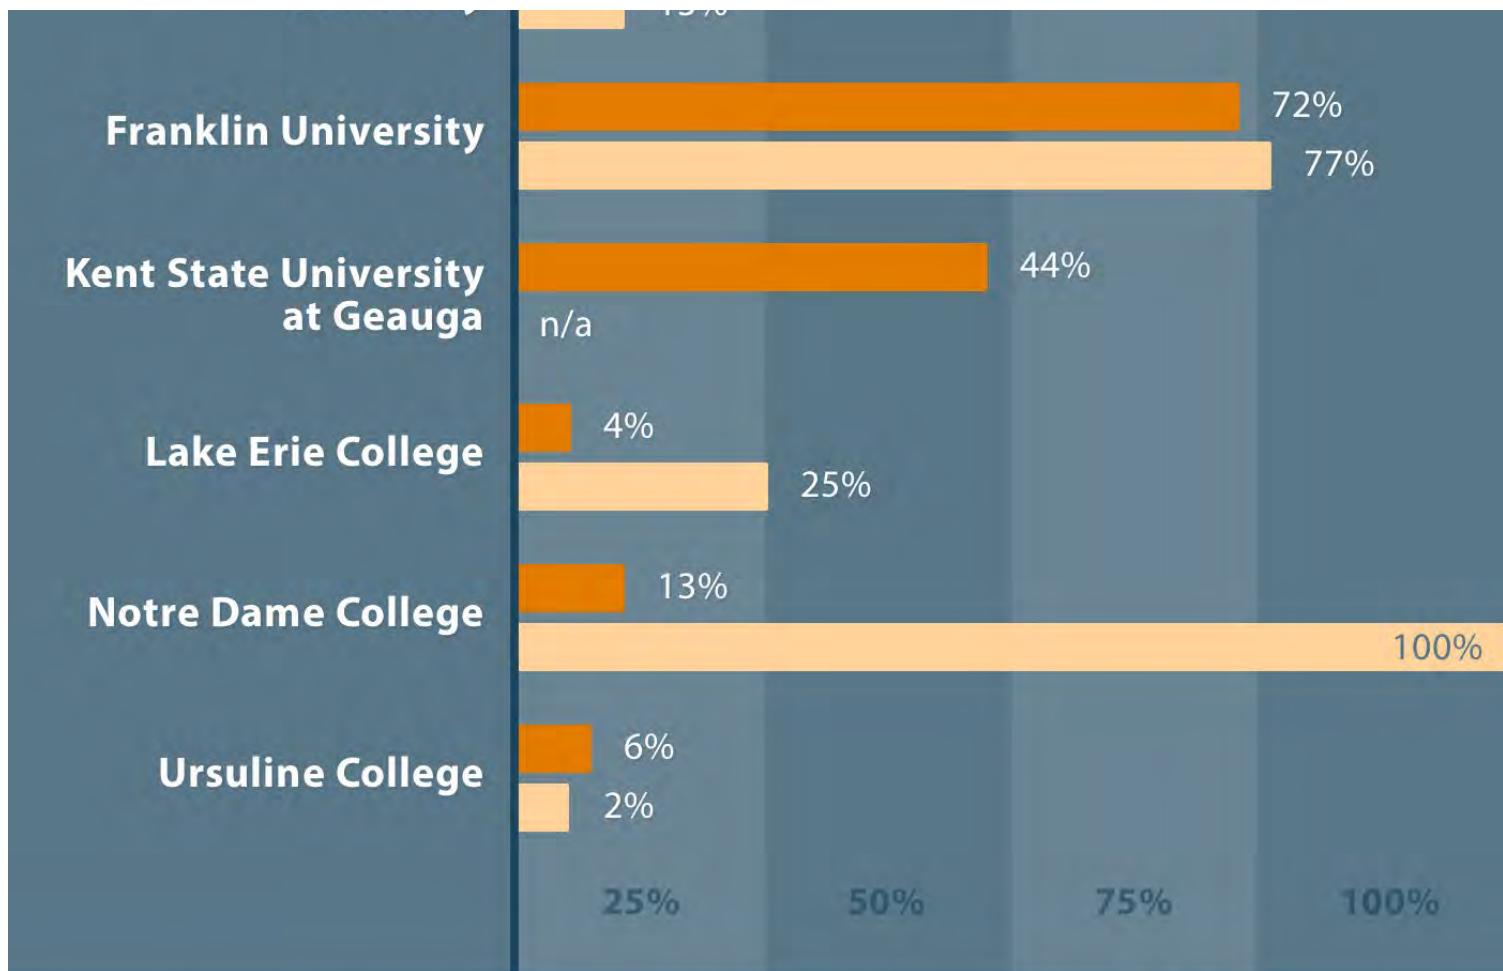

Franklin University has deep experience in online education and is dedicated to remaining on the cutting-edge.

"Franklin has been teaching students online for over 20 years," says Dr. Joel Gardner, assistant dean, Instructional Design, at Franklin University. "Over that time, we've honed our online methodology and courses to facilitate our students' success. Now, every course is a team effort between a subject matter expert—like a faculty member with extensive experience in the field—and an instructional designer—who is an expert in how people learn and how to best use technology to improve learning outcomes. This combination of content expertise and learning expertise is the foundation of creating high-quality online programs at Franklin."

At Franklin University, every degree is offered completely online—resulting in an online student population that thrives.

Students Enrolled Only in Distance Education

Source: National Center for Education Statistics (NCES)

Reason 2: Franklin University is the #1 Choice for Adults in Ohio*

Chosen by more adults than any other university in Ohio, Franklin University tailors its educational experience to the needs of working professionals. We understand the unique needs of someone who is balancing their career, personal life and education.

That's why we offer:

- Flexible scheduling that allows you to learn at your own pace
- Accelerated degrees that help you finish your degree faster
- A balanced approach to learning that spreads coursework out evenly over the length of a course

- Distinct support services to serve the needs of online learners

That's why the vast majority of our students are working professionals over the age of 25.

Institution	Percentage of Students Over Age 25
Baldwin Wallace University	9%
Case Western Reserve University	2%
Cleveland State University	24%
Franklin University	81%
Kent State University at Geauga	25%
Lake Erie College	8%
Notre Dame College	17%
Ursuline College	34%

Source: National Center for Education Statistics (NCES) Integrated Postsecondary Education Database (IPEDS). Retrieved November 2019; includes 2018 data for universities in Ohio.

Reason 3: Franklin's Degrees Are Very Transfer-Friendly

More than 90% of Franklin University students transfer credit from other schools. We help our students maximize their transfer credits—up to 94 credits toward a bachelor's degree, 12 master's level credits, or 24 doctoral-level credits.

One of the ways we can offer so many transfer credits is through our community college partnerships. In the Cleveland area, we work with Stark State College and Cuyahoga Community College. These partnerships allow community college students to seamlessly transfer credit to complete their bachelor's degree.

Reason 4: Franklin's Programs Focus on Building Real-World Skills

Franklin University programs focus on application over theory. Our goal is to teach students skills they can use immediately in their jobs while preparing them for advancement. That's why our curriculum is developed by experts who have extensive practical experience. Our programs are also overseen by advisory boards that ensure curriculum stays up-to-date with current industry practices and teaches students in-demand skills.

Choose the Best Online Program For You—Not Just the Closest

When choosing an online program, distance should not be a deciding factor. If you live in Cleveland, Akron, Canton or the surrounding areas in Northern Ohio, Franklin University is a great choice for getting your degree online.

Franklin offers a vast number of online degrees at all levels. [Explore all of our programs](#) to find the right online degree for you.

GET UP TO 10 COLLEGE CREDITS

Franklin University has partnered with Coursera Campus to provide cutting-edge certificates to learners seeking to advance. Courses are open to all learners. No application required.

Included in your subscription

Get unlimited access to over 7,000 offerings found on the Coursera website – including guided projects, specializations and professional certificates offered by hundreds of leading universities and companies. You also get access to all 39 professional certificates found in the Franklin Marketplace.

LEARN MORE

What You Will Learn

- Learn the fundamentals of data analysis, including how to identify data sources and gather data
- Practice data manipulation techniques, including developing data visualizations using spreadsheets and dashboards
- Work with relationship databases and real datasets, running SQL queries and accessing databases from Jupyter notebooks using SQL and R
- Grow your data science skills with hands-on labs and projects that challenge you to collect, analyze and visualize data using a variety of tools, including Tidyverse and R Shiny

About the IBM Data Analytics with Excel and R Professional Certificate

If you're looking to ready yourself with the skills, tools and professional portfolio to start your career as a data scientist or data analyst, then the IBM Data Analytics with Excel and R Professional Certificate is for you.

Developed by IBM, this eight-course certificate program is designed to equip you with the fundamental skills needed to work in the growing field of data analytics.

As you prepare for an entry-level role as a data analyst or data scientist, you'll learn how to collect, analyze, test, visualize and model data on real-world datasets from a wide range of data sources. You'll also acquire relevant experience using some of the most-powerful and popular analytics tools, like Excel, Cognos Analytics and the R programming language.

With this Professional Certificate program, you can study at your own pace as you work through the entire data analysis lifecycle and methodology. Here's just some of what you'll do: work with relational databases, engage in predictive modeling, create interactive dashboards, and communicate your findings to stakeholders and key constituents.

Through your applied learning assignments and a capstone project, you'll gain practical, hands-on data

experience with Excel, Cognos Analytics, SQL, the R programming language and related data science libraries, such as Tidyverse, Tidymodels, R Shiny, ggplot2, Leaflet, and rvest.

Required IBM Data Analytics with Excel & R Certificate Courses

Introduction to Data Analytics 

Excel Basics for Data Analysis 

Data Visualization and Dashboards with Excel and Cognos 

Assessment for Data Analysis and Visualization Foundations 

Introduction to R Programming for Data Science 

SQL for Data Science with R 

Data Analysis with R 

Data Visualization with R 

Data Science with R - Capstone Project 

Complete This Certificate. Get College Credit.

You know that skill-specific courses will open the door to specialized jobs, but did you know that they will also move you closer to a degree at Franklin University?

The University has evaluated hundreds of certifications for industry-recognized proficiencies and awards credit that equates to specific Franklin courses, as well as technical- or elective-credit requirements. See how much time and money you'll save toward your degree by building on prior learning credit.

SAS Visual Business Analytics Certificate Online

This SAS visual analytics certificate program is designed for professionals who want to become skilled in business analytics, data manipulation and SAS Visual Analytics reporting.

CERTIFICATE | INTERMEDIATE | 1-2 MONTHS ⓘ | COURSERA SKILLS:

PRICE: INCLUDED IN \$49 MONTHLY SUBSCRIPTION

GET UP TO 4 COLLEGE CREDITS

Franklin University has partnered with Coursera Campus to provide cutting-edge certificates to learners seeking to advance. Courses are open to all learners. No application required.

Included in your subscription

Get unlimited access to over 7,000 offerings found on the Coursera website – including guided projects, specializations and professional certificates offered by hundreds of leading universities and companies. You also get access to all 39 professional certificates found in the Franklin Marketplace.

LEARN MORE

What You Will Learn

- Learn how to use SAS Visual Analytics to access and investigate data
- Perform data discovery and create interactive reports using SAS Visual Analytics on SAS Viya
- Examine data structuring and restructuring and learn how to use SAS Data Studio to create geo maps and forecasts
- Practice performing network analysis, path analysis and text analysis in the evaluation of causal connections among variables

About the SAS Visual Business Analytics Professional Certificate

The SAS Visual Business Analytics Professional Certificate lets you develop and expand your skills so you can move into a variety of career roles, including data scientist, data miner, programmer analyst or business analyst.

This self-paced professional certificate program is comprised of five courses. Through your studies you'll learn about data access and manipulation, as well as using reports, graphs and dashboard to visualize and analyze data. You'll also take a deep dive into network, path and task analysis, and geomapping and forecasting.

Through interactive sessions and hands-on assignments, you'll gain practical, real-world knowledge and experience that will help you help organizations transform disparate data into insightful intelligence.

This professional certificate program is ideal for anyone wanting to develop some of the most important capabilities in IT today and for the future: thinking across functions and connecting the dots.

Required SAS Visual Analytics Certificate Courses

Getting Started with SAS Visual Analytics

Data Analysis and Reporting in SAS Visual Analytics

Using Data for Geographic Mapping and Forecasting in SAS Visual Analytics

Performing Network, Path, and Text Analyses in SAS Visual Analytics

Creating Advanced Reports with SAS Visual Analytics

Complete This Certificate. Get College Credit.

LEARN MORE

What You Will Learn

- Learn the fundamentals of data analytics fundamentals and examine the tools data analysts use to clean, analyze and share data
- Develop proficiency with Excel spreadsheets, including how and when to use Excel as a data analysis tool
- Explore how data is used to tell a story, then develop your own data visualizations and interactive dashboards using IBM Cognos Analytics and Excel
- Discover data manipulation techniques and gain a thorough working knowledge of databases, SQL and Python

About the IBM Data Analyst Professional Certificate

If you're a detail-oriented person who likes to delve into the meaning behind things, and you're looking for a growth-oriented career, this IBM Data Analyst Professional Certificate is for you.

Featuring nine courses developed by IBM, this certificate program is designed to equip you with the fundamental skills needed to work in data analytics. Data analytics is a growing specialty, which means the demand for analysts is high. And, with an anticipated 20% growth rate over the next 5 years, demand is getting even higher.

With this Professional Certificate program, you can study at your own pace as you learn to analyze datasets, create interactive dashboards, and visualize data. You'll develop technical expertise with some of today's most popular analytics tools and data sources, too, including Excel, SQL, Cognos and Python.

Plus, you'll get hands-on practice in data analytics, thanks to applied learning assignments and a capstone project -- all of which you can use to create a portfolio that showcases your skills and capabilities as a data analyst.

LEARN MORE

What You Will Learn

- Learn to design, develop and manage relational databases, including IBM DB2, MSQL and PostgreSQL
- Work with Linux commands, shell scripts, SQL and NoSQL databases and Database-as-a-Service (DaaS) offerings
- Understand Big Data processing tools, such as Hadoop and Apache Spark, and apply them to an extract, transform and load (ETL) for machine learning workflow use case
- Explore data extraction, export and transformation, and moving data through data pipelines with Bash, Airflow and Kafka

About the IBM Data Engineering Professional Certificate

The IBM Data Engineering Professional Certificate is ideal for anyone wanting to launch their data engineering career with excellence. This specialization is ideal for self-starting, problem-solvers looking to gain knowledge and skills in designing, deploying and managing structured and unstructured data.

With this 13-course program you'll study at your own pace as you train for the role of data engineer -- no prior data engineering or programming experience required.

This certificate program will help you develop such in-demand skills as using Python programming and Linux/UNIX shell scripts to ETL (extract, transform and load) data. You'll learn to work with relational databases (RDBMS) and Big Data engines like Hadoop and Spark, as well as extract and analyze insights using popular business intelligence tools.

You'll apply what you learn during through lab assignments and hands-on projects, giving you the practical experience to ready you for the data engineering role. You'll not only build a data pipeline, you'll also manage a database and work with data warehouses. You'll also have a capstone project to complete that involves designing, deploying and managing an end-to-end data engineering platform. Even better, this capstone project uses a real-world scenario so you'll get relevant experience with transactional data warehousing, NoSQL and Big Data repositories, and the data pipelines that connect them.

This Professional Certificate program will help you master the fundamentals of data engineering, including SQL, RDBMS, ETL, data warehousing, NoSQL, Big Data and Spark, giving you the skills and confidence

needed to make your goal of becoming a data engineer a reality.

Palo Alto Networks Cybersecurity Certificate Online

Launch your career as a security consultant or cybersecurity tech with Palo Alto certificate courses that teach you the fundamentals of network, SOC and cloud security.

**CERTIFICATE | INTERMEDIATE | 1-2 MONTHS ⓘ | COURSERA
SKILLS:**

PRICE: INCLUDED IN \$49 MONTHLY SUBSCRIPTION

GET UP TO 2 COLLEGE CREDITS

Franklin University has partnered with Coursera Campus to provide cutting-edge certificates to learners seeking to advance. Courses are open to all learners. No application required.

Included in your subscription

Get unlimited access to over 7,000 offerings found on the Coursera website – including guided projects, specializations and professional certificates offered by hundreds of leading universities and companies. You also get access to all 39 professional certificates found in the Franklin Marketplace.

LEARN MORE

What You Will Learn

- Learn the fundamental principles and concepts of cybersecurity, and examine the impact of real-world cyberattacks
- Discover how to recognize attacks, threats and vulnerabilities, as well as identify the various methods used to attack enterprise networks
- Learn how to maintain secure network and cloud computing environments, then set up and configure security zone, authentication and policies
- Examine the role of SecOps and look at automated prevention workflows as a means to identify, investigate and mitigate threats

About the Palo Alto Networks Cybersecurity Professional Certificate

The Palo Alto Networks Cybersecurity Professional Certificate is designed for individuals who want to start a career in cybersecurity. If you're known for being perceptive, persistent, and curious, this cybersecurity certificate program may be right for you.

The four, self-paced courses that comprise this certificate program can prepare you for an entry-level role in cybersecurity, with an emphasis on networking, network security, cloud security and security operations.

This online certificate program is structured as a beginner's course, so it gives you the opportunity to look at both the overall cybersecurity industry as well as Palo Alto Networks technologies.

As you complete the interactive lessons and hands-on projects to earn this Professional Certificate, you'll explore the fundamentals of Palo Alto Networks, including setting up and configuring security zones, maintaining a secure network, recognizing and mitigating cyber attacks, and identifying and responding to fast-evolving threats.

This specialization also includes access to additional resources that may be helpful in preparing for the PCCET Palo Alto Networks Certified Cybersecurity Entry-Level Technician exam.

Required Palo Alto Networks Cybersecurity Certificate

Courses

Palo Alto Networks Cybersecurity Foundation

Palo Alto Networks Network Security Fundamentals

Palo Alto Networks Cloud Security Fundamentals

Palo Alto Networks Security Operations Fundamentals

- Plan and prepare for the Google Cloud Professional Cloud Network Engineer certification exam
- What will I be able to do with my Preparing for Google Cloud Certification: Cloud Security Engineer Professional Certificate?

About the Google Cloud Certification: Cloud Network Engineer Professional Certificate

The role of security engineer, security specialist or security admin is not only essential in today's high-tech world, it's also challenging. Knowledge and skill are powerful tools against challenges, so if you're committed to becoming more confident and skilled in cloud security, this certificate program is for you.

The Preparing for Google Cloud Certification: Cloud Network Engineer Professional Certificate program can help you learn – and practice – designing and implementing secure workloads and infrastructure on Google Cloud.

This Professional Certificate is comprised of seven, self-paced courses that can help increase your proficiency in all aspects of cloud security, including access management, network security configuration, data protection and incident response.

In addition to interactive lessons, you'll participate in a series of applied learning projects, ranging from

assigning API permissions to providing access components within Google Cloud to leveraging network policies to apply restrictions and limit intra-cluster communication.

Even more importantly, the coursework in this certificate program features essential exam-related content, such as configuring access and network security, managing operations in a cloud solution environment, and security best practices, so you can have confidence in your preparation for Google Cloud certification.

Required Google Cloud Network Engineer Certificate Courses

Google Cloud Fundamentals: Core Infrastructure 

Networking in Google Cloud: Defining and Implementing Networks 

Networking in Google Cloud: Hybrid Connectivity and Network Management 

Hands-On Labs in Google Cloud for Networking Engineers

Preparing for Google Cloud Certification: Cloud Architect Certificate Online

Ready yourself for a career as a professional cloud architect with cloud computing certificate courses that introduce you to Google Cloud infrastructure design.

**CERTIFICATE | INTERMEDIATE | 2-3 MONTHS ⓘ | COURSERA
SKILLS:**

PRICE: INCLUDED IN \$49 MONTHLY SUBSCRIPTION

GET UP TO 6 COLLEGE CREDITS

Franklin University has partnered with Coursera Campus to provide cutting-edge certificates to learners seeking to advance. Courses are open to all learners. No application required.

Included in your subscription

Get unlimited access to over 7,000 offerings found on the Coursera website – including guided projects, specializations and professional certificates offered by hundreds of leading universities and companies. You also get access to all 39 professional certificates found in the Franklin Marketplace.

LEARN MORE

What You Will Learn

- Learn about the role of the cloud architect, approaches to infrastructure design and virtual networking configuration
- Explore GCP's infrastructure, computing and storage services with a focus on Compute Engine
- Deploy a wide variety of Google Cloud solution elements, including encryption keys, load balancing and infrastructure automation
- Develop a plan and prepare for the Google Cloud Professional Cloud Architect certification exam

About the Palo Alto Networks Cybersecurity Professional Certificate

The Palo Alto Networks Cybersecurity Professional Certificate is designed for individuals who want to start a career in cybersecurity. If you're known for being perceptive, persistent, and curious, this cybersecurity certificate program may be right for you.

The four, self-paced courses that comprise this certificate program can prepare you for an entry-level role in cybersecurity, with an emphasis on networking, network security, cloud security and security operations.

This online certificate program is structured as a beginner's course, so it gives you the opportunity to look at both the overall cybersecurity industry as well as Palo Alto Networks technologies.

As you complete the interactive lessons and hands-on projects to earn this Professional Certificate, you'll explore the fundamentals of Palo Alto Networks, including setting up and configuring security zones, maintaining a secure network, recognizing and mitigating cyber attacks, and identifying and responding to fast-evolving threats.

This specialization also includes access to additional resources that may be helpful in preparing for the PCCET Palo Alto Networks Certified Cybersecurity Entry-Level Technician exam.

[LEARN MORE](#)

What You Will Learn

- Build foundational skills used by successful cloud security engineers working with GCP
- Examine Google Cloud security controls and security best practices, ranging from VPC networks and firewalls to API access controls and encryption
- Learn to mitigate security vulnerabilities and practice securing resources with multiple Google Cloud services, such as Google Kubernetes Engine
- Plan and prepare for the Google Cloud Professional Cloud Security Engineer certification exam

About the Google Cloud Certification: Cloud Network Engineer Professional Certificate

The role of security engineer, security specialist or security admin is not only essential in today's high-tech world, it's also challenging. Knowledge and skill are powerful tools against challenges, so if you're committed to becoming more confident and skilled in cloud security, this certificate program is for you.

The Preparing for Google Cloud Certification: Cloud Network Engineer Professional Certificate program can help you learn – and practice – designing and implementing secure workloads and infrastructure on Google Cloud.

This Professional Certificate is comprised of seven, self-paced courses that can help increase your proficiency in all aspects of cloud security, including access management, network security configuration, data protection and incident response.

In addition to interactive lessons, you'll participate in a series of applied learning projects, ranging from assigning API permissions to providing access components within Google Cloud to leveraging network policies to apply restrictions and limit intra-cluster communication.

Even more importantly, the coursework in this certificate program features essential exam-related content,

such as configuring access and network security, managing operations in a cloud solution environment, and security best practices, so you can have confidence in your preparation for Google Cloud certification.

What You Will Learn

- Discover the fundamentals of working with Google Cloud Platform and its role in cloud engineering
- Learn about the core infrastructure and essential platform services of GCP, including architecting with Google Kubernetes Engine
- Explore how to use Google Cloud through the console and Cloud Shell
- Practice key job skills like setting up a cloud environment as you move toward preparing for Associate Cloud Engineer certification

About the Google Cloud Associate Cloud Engineer Certification

If you're an IT professional looking to start or advance your career in cloud architecture as you prepare to earn the industry-recognized Google Cloud Associate Cloud Engineer certification, then this Professional Certificate is for you.

The Preparing for Google Cloud Certification: Cloud Engineer Professional Certificate program features interactive presentations, demos and real-world scenarios to help you develop the in-demand skills required of top cloud engineers.

Through the six, self-paced courses that comprise this certificate, you'll work with such infrastructure components as networks, systems and applications services. Plus, you can expect your current or future employer to take notice of the relevant, real-world experience you'll gain from a variety of hands-on applied learning projects using the Qwiklabs platform.

As part of your certification prep, you'll also develop or deepen essential skills, such as setting up a cloud environment, configuring a solution and deploying it to the cloud.

Even better, if you're looking to earn full cloud engineer certification, this Professional Certificate program includes sample exam questions and quizzes so you can experience what it's like to sit for this all-important exam and better prepare yourself for it.

What You Will Learn

- Acquire a foundational understanding of social media marketing, including target audiences, channel selection and goal setting
- Learn how to establish, build and manage an effective social media presence through content creation, audience engagement and performance metrics
- Understand how paid advertising works on social platforms and create your own social media ad campaign
- Practice analyzing and optimizing ad campaigns on Facebook and Instagram

About the Facebook Social Media Marketing Professional Certificate

The Facebook Social Media Marketing Professional Certificate is for anyone who wants to start or further a career in social media marketing. Created by the digital marketing experts at Aptly and the analytic experts from Meta, the six courses in this program are ideal for creative thinkers looking for practical, real-world application across a variety of social media platforms.

The coursework in this social media certificate program will introduce you to digital marketing concepts, as well as teach you how to create a relevant and robust online presence and engage followers. Along the way, you'll develop in-demand skills, including creating, managing and evaluating social ad campaigns with Meta Ads Manager.

Once you complete all the courses and the hands-on project assignments, you'll earn both the Facebook Social Media Marketing Professional Certificate and the Meta Digital Marketing Associate Certification. Plus, you'll have access to the Meta Certification Career Network, where you can connect with social media professionals and search jobs posted by top employers.

Business Courses

Enter a new career field or advance your current skill set with online management training and business skills programs including several that lead to professional certifications.

CERTIFICATE ⓘ | SKILL LEVEL, TIME TO COMPLETE AND COST WILL VARY BY COURSE | ED2GO
SKILLS:

Franklin University has partnered with ed2go to provide online training to learners. Courses are open to all learners. No application required.

How It Works

1. Browse the list below of highlighted self-paced certificate and training courses.
2. Click the course that interests you or select "View All" for a complete list of available programs.
3. When you are ready to begin the course, you will be redirected to ed2go to create your account, provide payment and enroll.

Career Training Courses

Career training courses are flexible, self-paced non-credit certificate programs designed to assist with career preparation or advancement. Each course is developed by a team of experts and includes support from ed2go advisors who'll support you as you train in high demand fields and prepare for industry-based certifications. Upon completing the course with a passing score, you'll receive a certificate of completion from Franklin University, and when applicable, a voucher to sit for the certification exam.

Benefits of Online Career Training Programs

- **Real-world insights in an engaging online learning environment:** Programs are designed by in-field professionals, who work to provide learners with effective web-based experiences.
- **Flexibility:** Start anytime and work at your own pace.
- **\$0 additional fees:** Textbooks and learning materials are included in the course price.
- **Convenient support services:** Support offered via phone, email, or live chat 7 days a week.
- **Personalized attention:** Take advantage of 1:1 assistance from instructors, as well as phone, email and chat support from a dedicated enrollment team for advising and course registration.

Learning for Every Facet of Your Life

Whether you're building specific skills that pave the way to your next career opportunity or looking for a way to stay-on-top of trending topics for your own personal growth, you'll find what you are looking for at an

affordable price point and in a format that fits even the busiest schedule.

Bolster Your Professional Skills

Take back control or rethink your career by strengthening your skills with a training or certificate class through FranklinWORKS Marketplace. Learn, hone or master job-related skills with self-guided, on-demand classes that won't break the bank or gobble up your free time. These online courses let you feed your curiosity and develop new skills that have real value in the workplace.

Deepen or Broaden Your Expertise

Stay focused on areas where you excel, or spread your wings and try something new – risk free. Whether you're moving into a new field or progressing in your current one, hands-on projects offer real-world examples that help illustrate your skills and abilities. Course completion is required to earn your Certificate.

Dive into Trending Topics with Your Industry

You'll have the capability to stay at the forefront of any topic that interests you professionally. Course subject areas run the gamut, from business and entrepreneurship to healthcare and teacher professional development.

FAQs

When can I start my course?

Courses are open enrollment, so you can register and start the course whenever you are ready. Access to your course can take 24-48 business hours

Do I have to be enrolled in Franklin University to take a course?

No, anyone can take these non-credit online courses.

What kind of support will I receive?

The course instructor will be available by email to answer any questions and provide feedback on your performance. Occasionally, your course may be supported by a team of industry experts. You will also receive support from the student advising team. Your advising team and instructor contact information are listed in your [ed2go student center](#).

Can I register for this course if I am an international student?

Yes, ed2go courses are completely online. However, keep in mind that not all certifying bodies or industry-

specific certifications are recognized internationally. Please review your country's regulations prior to enrolling in courses that prepare for certification.

What if I don't finish the course in the time frame provided?

The time allotted for course completion has been calculated based on the number of course hours. However, if you are unable to complete the course, contact the student advising team to see what options you may have available to work out a suitable completion date. Please note that an extension fee may be charged.

Can I get financial assistance?

Ed2go courses are non-credit, so they do not qualify for federal aid, including the Pell Grant. In some states, vocational rehab or workforce development boards may provide funding to take courses. Additionally, you may qualify for financial assistance if you meet certain requirements.

How can I get more information about this course?

For assistance related to our career training courses, visit our [career training site](#) to live chat, call, or request information. For assistance with fundamentals courses, visit our [help page](#). You can also call ed2go at 1-877-221-5151 during regular business hours (Central time) to have your questions promptly answered.

IBM AI Engineering Professional Certificate Online

Gain the skills and proficiency of an AI engineering professional with IBM AI engineering certification training that equips you to build, test and deploy ML and deep learning models.

**CERTIFICATE | INTERMEDIATE | 7-8 MONTHS ⓘ | COURSERA
SKILLS:**

PRICE: INCLUDED IN \$49 MONTHLY SUBSCRIPTION

GET UP TO 10 COLLEGE CREDITS

Franklin University has partnered with Coursera Campus to provide cutting-edge certificates to learners seeking to advance. Courses are open to all learners. No application required.

Included in your subscription

Get unlimited access to over 7,000 offerings found on the Coursera website – including guided projects, specializations and professional certificates offered by hundreds of leading universities and companies. You also get access to all 39 professional certificates found in the Franklin Marketplace.

LEARN MORE

What You Will Learn

- Get an overview of machine learning, including model evaluation and ML algorithms
- Build your own deep learning models and neural networks using Keras, PyTorch and TensorFlow
- Learn about object recognition, computer vision, image and video processing and other classification and detection models
- Apply deep learning to a real-world challenge that demonstrates your mastery and ability to create a deep learning pipeline

About the IBM AI Engineering Professional Certificate

If you want to be at the forefront of artificial intelligence (AI) and its transformative power, then this IBM AI Engineering Professional Certificate is for you.

The six courses that comprise this Professional Certificate were developed by IBM and are designed to help you master the essentials of deep learning and machine (ML) learning, including supervised and unsupervised learning.

You'll learn how to use a variety of tools and languages, ranging from Tensorflow to Python, as well as develop, test and deploy AI models through algorithms and neural networks. You'll build your data science skills, too, and gain real-world experience in creating solutions that enable machines to perform human-like tasks.

If you're a forward-thinking, collaborative team player who wants to become an AI engineer and help organizations leverage cutting-edge technologies to make informed decisions, then this IBM AI engineering certificate is for you.

Required IBM AI Engineering Professional Certificate Courses

Introduction to Data Engineering

Python for Data Science, AI & Development

Python Project for Data Engineering

Introduction to Relational Databases (RDBMS)

Databases and SQL for Data Science with Python

Hands-on Introduction to Linux Commands and Shell Scripting

Relational Database Administration (DBA)

ETL and Data Pipelines with Shell, Airflow and Kafka

Getting Started with Data Warehousing and BI Analytics

Introduction to NoSQL Databases

Introduction to Big Data with Spark and Hadoop

Machine Learning with Apache Spark

Data Engineering Capstone Project

IBM Applied AI Professional Certificate Online

Develop practical skills in Python and IBM applied AI thanks to deep learning courses that show you how to design, build and deploy AI-powered apps.

CERTIFICATE | BEGINNER | 4-5 MONTHS ⓘ | COURSERA

SKILLS:

PRICE: INCLUDED IN \$49 MONTHLY SUBSCRIPTION

GET UP TO 10 COLLEGE CREDITS

Franklin University has partnered with Coursera Campus to provide cutting-edge certificates to learners seeking to advance. Courses are open to all learners. No application required.

Included in your subscription

Get unlimited access to over 7,000 offerings found on the Coursera website – including guided projects, specializations and professional certificates offered by hundreds of leading universities and companies. You also get access to all 39 professional certificates found in the Franklin Marketplace.

LEARN MORE

What You Will Learn

- Gain an understanding of artificial intelligence (AI) concepts, including machine learning, deep learning and neural networks
- Use IBM Watson to develop and deploy chatbots and virtual assistants
- Learn Python programming basics, including working with data and solving real-world problems
- Develop AI-enabled apps, create interactive information retrieval systems, and build and run unit tests

About the IBM Applied AI Professional Certificate

Let this IBM Applied AI Professional Certificate kick-start your AI career. Through the six courses in this program, you'll learn the in-demand skills needed by AI developers and professionals, including Python, IBM Watson AI services, and APIs.

This specialization is ideal for those looking to explore machine learning and computer vision techniques in applying AI and AI-powered solutions to support smart devices, valuable data and efficient Cloud-based tools.

Through self-paced coursework and hands-on projects, you'll gain a better understanding of the transformative power of AI and its application and use cases. You'll also create and deploy a variety of smart solutions, including a chatbot, computer vision web app, and speech-enabled virtual assistants for social media.

This Professional Certificate program is ideal for individuals who like to learn, grow, and experiment, and who have a passion for innovation and technology. Upon completion, you'll be prepared to pursue a variety of AI-focused career positions, including ML engineer, AI developer and data engineer. Plus, you will have earned the widely recognized IBM badge that demonstrates your proficiency in the emerging technologies of AI.

Required IBM Applied AI Professional Certificate Courses

Introduction to Software Engineering

Introduction to Artificial Intelligence (AI)

Generative AI: Introduction and Applications

Generative AI: Prompt Engineering Basics

Introduction to HTML, CSS, & JavaScript

Python for Data Science, AI & Development

Developing AI Applications with Python and Flask

Building Generative AI-Powered Applications with Python

Generative AI: Elevate your Software Development Career

Software Developer Career Guide and Interview Preparation

IBM Full Stack Cloud Developer Certificate Online

Build your cloud developer portfolio with this hands-on IBM full stack cloud developer certificate course that uses the latest tools and technologies to manage full stack cloud native apps.

**CERTIFICATE | INTERMEDIATE | 5-6 MONTHS ⓘ | COURSERA
SKILLS:**

PRICE: INCLUDED IN \$49 MONTHLY SUBSCRIPTION

GET UP TO 18 COLLEGE CREDITS

Franklin University has partnered with Coursera Campus to provide cutting-edge certificates to learners seeking to advance. Courses are open to all learners. No application required.

Included in your subscription

Get unlimited access to over 7,000 offerings found on the Coursera website – including guided projects, specializations and professional certificates offered by hundreds of leading universities and companies. You also get access to all 39 professional certificates found in the Franklin Marketplace.

LEARN MORE

What You Will Learn

- Learn about cloud computing and front-end development languages and tools, including HTML, CSS and JavaScript
- Use back-end web development languages and frameworks, such as Express, Node.js, Python and Django
- Build several apps using a variety of technologies and languages and deploy these applications on a cloud platform using Cloud native methodologies like Kubernetes
- Showcase your portfolio of projects by publishing them on a GitHub repository you can share with current or future employers

About the IBM Full Stack Cloud Developer Professional Certificate

The IBM Full Stack Cloud Developer Professional Certificate can help you launch a career in app development. If you love a challenge and are an innovative thinker, then this Cloud technologies specialization is for you.

Through the 10 courses in this program, you'll acquire both the know-how and experience needed to become a Full Stack Cloud developer, without having any previous programming experience.

In this Professional Certificate program you'll learn how to build both Cloud-based and Cloud native applications using the same tools and technologies that in-demand software developers use.

As you work through each course at your own pace, you'll be adding a wide variety of technologies to your skill set, too, including: application security, Bootstrap, CI/CD, Cloud foundations, Cloud native practices, containers, CSS, databases, DevOps, Django ORM, Docker, GitHub, HTML, Istio, JavaScript, Kubernetes, microservices, Node.js, NoSQL, OpenShift, Python programming, React, serverless computing, SQL and more.

You'll also apply what you learn through lab assignments and hands-on projects, giving you relevant experience building, deploying, testing, running and managing Full Stack Cloud native applications.

And when you successfully complete all of your certificate program courses and capstone project, you'll have a career portfolio that showcases your work using front-end and back-end technologies to develop and deploy applications on a Cloud platform using Cloud native methodologies.

We Meet You Where You Are

As a university focused on serving the needs of working adults, we know that plenty of learning takes place outside of the classroom. We also know that the wage gap between college-degree earners and high-school diploma holders continues to widen. At Franklin, we connect the job-specific credentials you've earned, and the college credits you need, to provide a seamless path to degree completion.

Prior Learning Assessment is a process used to evaluate the knowledge that you gain through professional training, certificates, certifications and licensure programs against specific course outcomes to be able to award college credit toward a degree. Credit for prior learning acknowledges your life experience and saves you time and money toward a degree.

Franklin University awards prior learning credit based on recommendation services from the American Council on Education (ACE) and National College Credit Recommendation Service (NCCRS) and adheres to the Ohio Department of Higher Education Career-Technical Credit Transfer guarantees. The university evaluates experiences from

accredited institutions and organizations that are recognized by the Council for Higher Education Accreditation (CHEA).

\$6M in Savings

Since 2017, Franklin students have saved more than \$6 million by using prior learning credit to satisfy degree requirements.

Get College Credit for What You Already Know

Boost Your Skills Quickly and Affordably

If you're looking to build new in-demand skills or refine your existing skill set, Franklin provides learning options that are accessible, accelerated and affordable. Choose from a wide range of industry-aligned courses that match your ability level and align with your career path. With 120 years of experience helping ambitious adults realize their potential, Franklin can help you achieve your professional goals.

Flexible + Convenient

At Franklin, you're in the driver's seat with 100% online courses. In addition, our self-paced learning options put you in control of how soon you can get started – and when you finish. Our partnerships with other leading

education providers provide you with the FranklinWORKS Marketplace, a one-stop-shop for building your knowledge in a wide range of topics and specializations.

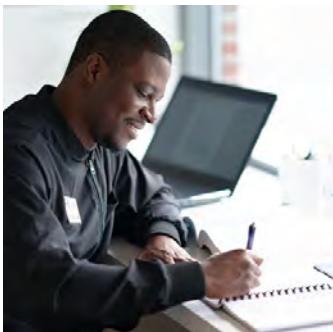

Tailored to Your Ambition

When it comes to learning, one size does not fit all. At Franklin, you can curate your own learning portfolio by completing stackable courses and credentials that increase your professional marketability. If earning a degree is part of your education plan, the courses you take through Franklin can be evaluated for degree credit so you can continue to build on what you already know.

Affordable

If you have the will, cost shouldn't stand in your way. Franklin provides affordable options ranging from monthly subscriptions to low per class and per credit hour rates so you can invest in your education without breaking the bank.

Find Education Options for Every Phase of Your Career

In today's dynamic work environments, adaptive professionals thrive. Education options from Franklin, Ohio's #1 adult-focused university, give you the knowledge and skills to meet the challenges ahead. From courses and professional certificates to entire degree programs, Franklin has learning options that fit your needs.

About Franklin

Accredited, nonprofit and dedicated to educating adults since 1902, Franklin provides on-site course options at our Main Campus in Columbus, Ohio, and is an innovator in providing personalized online education.

With curriculum designed with input from industry experts and courses taught by in-field practitioners, learners get an education aligned with employer expectations. The University offers in-demand programs including bachelor's, master's and doctoral degrees; certificates and microcredentials that enable ambitious adults to achieve their educational and professional goals.

From entrepreneurs to CEOs, more than 50,000 Franklin alumni can be found around the world contributing to the communities in which they live and work.

TUITION COMPARISON

[HOME](#) / [TUITION & FINANCIAL AID](#) / [UNDERGRAD TUITION COMPARISON](#)

Compare Costs and Determine Value

While cost is one factor that impacts your college choice, as you consider returning to school it is important to ensure that you get the experience that you want in an environment that will enable you to be successful.

Scheduling Assistance

75% of students count on advisors for class registration.

Compare Costs: Private, Nonprofit Universities

A nonprofit, private institution solely dedicated to serving working adults, Franklin University's tuition rate is 67 percent lower than the national average for private, nonprofit four-year colleges.

*Franklin annual tuition is 31 credit hours at the 2021-22 rate. The national average private, nonprofit is from the Trends in College Pricing 2021. Source: College Board.

Franklin Delivers More for Adults

At Franklin University, we demonstrate our commitment to helping you finish your degree by investing nearly every tuition dollar collected back into the resources and services necessary to help you be successful.

We Know the Problem and We Can Solve It

Education isn't one-size-fits-all. As an adult returning to school, your life is different than it was when you started your journey. At Franklin, we've been removing obstacles to higher

education for busy adults since 1902. It's all we've ever done - and it's what we will do for you.

□

Most Never Complete

Only one-third of students who stop out of college eventually complete their degree.

We're here to help you finish

Any school can help you get started - our specialty is helping students, like you, finish. You're back in the game and you're ready to succeed. Count on us to provide the support you need to achieve your personal and career goals.

Early Alert

We'll make sure you stay on track and reach out to assist when it seems like you might be struggling.

JaVonne, Community College Transfer

JaVonne Landed Her Dream Job

“During my last semester at Franklin, I began to update and submit my résumé. When I graduated, I had about 7 interviews and 3 job offers. One of those offers actually was for my dream job.”

Javonne transferred her previously earned credits from a community college and earned her bachelor's degree in accounting. She's now an internal auditor. In addition to earning her dream job, she says she was proud to be an example for her son showing him that “he can do everything mommy can do, plus more.”

From

to Succeed

“When I made the decision to go back to school, I was nervous about being able to succeed while juggling the care of raising five kids ages 5-16. Franklin provided the tools I needed to study and be successful. I was able to attend school and not be able to afford it possible by having a complete scholarship for my entire life.”

When Vaughn made the decision to go back to school, she was nervous about being able to succeed while juggling the care of raising five kids ages 5-16. Franklin provided the tools that were in place to help her succeed. She completed her bachelor's degree, and is currently working on her master's degree at Franklin as well.

Vaughn, Persistent Degree Seeker

Vaughn Kept His Promise

“When I walked across the stage and heard my name at graduation, I realized that I achieved something that I started 20 years ago. It was like a boulder had been lifted off of my shoulders.”

Vaughn built a career without finishing his degree and when weighing the time and cost investment necessary to finish, he wondered how much he really even needed it. However, Franklin’s reputation for serving working adults and a promise he made to himself that he wanted to set an example for his daughter pushed him to completion. A financial advisor with the intention to one-day have his own brokerage, Vaughn believes his degree opens the door to more opportunities.

Find a program that meets your busy life, thanks to online programs, after-work classes, and more.

Balanced Learning Approach

Our balanced learning approach equally allocates workload throughout the course to help you balance your study time with other commitments. And because our courses are fully detailed, week-by-week and assignment-by-assignment on the course website, you can plan your studies around your life - instead of the other way around.

□

Variable Course Lengths

Schedule classes that work for your busy life. Pick the class format that works best for your learning and lifestyle.

□

Multiple Start Dates

Start and finish faster -- and more conveniently -- with college classes that fit your life and schedule. Variable class start dates help you customize your schedule and keep things as interruption-free as possible.

360-Degree Learning

Be surrounded by like-minded people who understand where you are -- and where you're going. At Franklin, you're immediately connected to a built-in network of professionals at both the faculty and peer level; each ready to share what they know, each ready to help you stay the course and finish your degree.

Flexible Online Programs

Our 100% online degree programs are the no-hassle way to finish earning your college degree.

No matter how busy your work or home life is or gets, Franklin's 100% online programs are a convenient option for working adults like you who want to earn a college degree. As a leader in online learning, Franklin gives you the freedom to take classes on your terms - just like 80% of our students. Even when you're online, you're never alone. With faculty and peer support, interactive assignments, and much more, Franklin's online learning programs help you achieve your goals without disrupting your life.

College for Adults Since 1902

For more than 120 years, we've pioneered higher education for ambitious, goal-oriented adults. Designed especially for the busy, working professional, our continually evolving degree programs provide just the right amount of structure along with 360-degree, start-to-finish support. Each year, thousands of Franklin students earn a college degree while enjoying school-work-life balance -- and you can, too.

Franklin University is accredited by the Higher Learning Commission ([hlcommission.org/800.621.7440](https://www.hlcommission.org/800.621.7440)) and authorized by the Ohio Department of Higher Education.

Franklin University is committed to being an inclusive community free from all forms of discrimination and harassment.

VALUED BY EMPLOYERS

[HOME](#) / [THE FRANKLIN EXPERIENCE](#) / VALUED BY EMPLOYERS

Employers Choose Franklin Grads

Earn a get-ahead degree employers look for -- and respect. Through a wide variety of institutions, brands and businesses, more than 50,000 Franklin University alumni can be found creating and contributing to top organizations around the world.

Businesses Choose Franklin

Trust your education to a university preferred by employers.

Jobs After Graduation

When it comes to landing your first job or making your next career move, Franklin's reach is as impressive as its reputation.

Top employers of alumni & students include:

- Abbott

- Abercrombie & Fitch

- American Electric Power

- Anheuser Busch, Inc.

- AT&T

- Bath & Body Works

- Bread Financial

- Cardinal Health

- Discover Financial

- Services

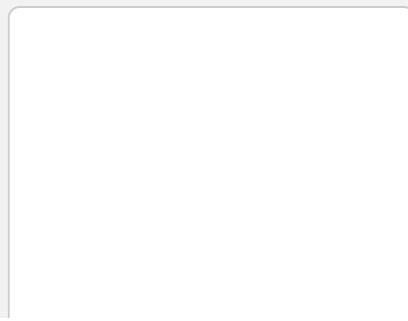

- FedEx

- Gap Inc.
- Honda Manufacturing
- Huntington Bank
- IBM Corporation
- JPMorgan Chase
- Nationwide

- Nationwide Children's Hospital
- Ohio Health
- State of Ohio
- United Parcel Service
- Verizon Wireless
- Walmart
- The Wendy's Company
- Xerox

Companies Trust Franklin's Educational Programs

From Fortune 100 companies to regional powerhouses, employers recognize the importance of education as an investment in professional and institutional growth.

In partnership with

Hear from Employers

From academic excellence, to community engagement, to partnerships with industry leaders, Franklin is well-respected among employers. Employers know that our graduates possess critical thinking abilities, effective communication skills, and strong principles and ethics. More importantly, they value what our graduates are prepared to do: make a difference in business, in government, and in the world.

Chris Rutter

Vice President of Human Resources & Franklin University Graduate

When I am looking at applicants as an employer, and bringing them into the organization, I'm looking for not only the work history, but their educational background as well. I think just having this

education from Franklin
has really allowed me to
be the successful,
professional I am today
and without it, I would not
be where I am today for
sure.

Zenios Michael Zenios

Business Owner & Franklin University Graduate

If you're thinking about
doing your MBA, if you're
thinking about joining
Franklin University, do it.

Brian Brooks

President and Co-Owner of E.E. Ward Moving & Storage

The Franklin University
curriculum and the real
world emphasis on it
applies to the everyday
business world. It's real
time. It's accurate. It's
really geared toward those
who are trying to create a
career path.

Matina Zenios

President & Owner at Artina Promotional Product

Franklin University is sort
of an extension of me, of
course it's a part of my
past and I feel like it's a
part of my future.

Will My College Credits Expire?

Transfer Credit

Community College

We often hear questions from students who have taken a break in their pursuit of a degree, and one goes a little like this, "It's been 10 years since I worked on my degree at another school. Can I get any transfer

credit for all that work?"

The question is a smart one. Transferring college credit may help maximize your collegiate and life experience to shorten the time you can expect to spend in the program of your choice. That said, the process of transferring to another college can be a challenging experience, and the topic of college credit expiration is often a bit of a grey area.

So **will** your college credits expire? And is that really what determines if they'll transfer to your chosen program or not?

Do My College Credits Have a Shelf-Life?

Technically, the answer is no. Credits never expire. However, the likelihood that they will transfer into a program may diminish over time.

For the most part, you can assume:

Core classes are evergreen. If you're going back to finish your undergrad degree, most standard core classes transfer easily between schools. These are the general education courses that you took as a part of your initial education.

- **STEM (Science, Technology, Engineering and Math) courses have a 10-year shelf-life.** This is typically because advancements in the field evolves the understanding or practical methodologies used within them. A rule of thumb: If your STEM courses are older than 10 years, they may not transfer.
- **Graduate courses have a 7-year shelf-life.** However, courses that are aligned to professional needs are harder to transfer in. The methodologies taught then may be considered outdated now.
- **Life experience is sometimes relevant.** Some programs allocate transfer credit for real-world experience. If you've worked in the field or industry of your degree path, it's possibly you could earn credit for that experience. For example, Franklin offers credit for professional experience in our healthcare programs.

Keep in mind these are not exact requirements or expiration dates—different programs and institutions have varying acceptance protocols for previously completed college credit.

Look for innovative and accredited programs that will find ways to provide you with some credit, benefit, or recognition for the work you've already completed. Choosing these programs may make a huge difference in the amount of time (and cost) that will be required to complete your education. Do some research using the following sources during your search:

- **College Transfer Net:** Use this website to enter coursework from a previous college or university and find out how they could possibly transfer into credits.
- **Admissions Representatives:** reach out to your prospective schools' admissions representatives. They'll be able to help distinguish what types of additional credit/recognition the school can provide, if any.

Accelerate your completion time and lower your total tuition cost at every academic level. Download this free guide for tips on maximizing your transfer credit.

The 3 Big R's To Determine Credit Shelf-Life

While credits won't "expire," you may run into some roadblocks when it comes to getting them accepted by your new school. To assess the likelihood of your earned credit transferring, take into consideration the three big R's of your completed courses:

- **Relevance.** This essentially comes down to a) whether any of your courses qualify as Core Curriculum/General Education at your target school, and b) whether any of them are relevant to your proposed area of study. In many cases, past courses that aren't necessarily relevant toward your new major could still be useful, as they could count for any electives the program requires.
- **Recency.** Though it is rarely written down anywhere, the truth is that some schools do impose "use by" dates for credits. These limits can range from 5 to 10 years. These are fast-developing fields in which

advancements are always occurring, so coursework taken several years ago may no longer be relevant or valid today.

- **Reputation.** If your current or former school is not accredited, your courses will not transfer. Even if you have completed them recently. Even if they count as Core Curriculum. **If your courses were not taken at an accredited institution, whether or not they will transfer becomes a moot point.**

To do some initial research on credit equivalency, and get an idea of how your credits stack up in terms of relevance to your (new) major, a good place to start is [Transferology](#) (you will need to create an account, but it's free).

→ Will My Courses Transfer?

See how your courses will transfer to another school. Enter your coursework and search for matches.

Don't want to transfer? [Find a Replacement Course](#) that you can take elsewhere for credit at your current school.

For further research on credit equivalency, Individual states and universities will also often have credit equivalency information listed online.

How Do I Know What Credits I Have?

The best way to do this is to contact the school, or schools, where you completed coursework. Simply contact the registrar at your school and verify the procedure they follow. Most schools have an option to complete this online, and some programs may fax or e-fax your transcript.

However, in some instances, a written transcript may be required. In that case, just copy/paste the following template into a word doc and send to your school:

Registrar

<Name of School>

<School Address>

Date: 00/00/0000 (Month/Day/Year)

To Whom It May Concern,

Please process my request for a copy of my full transcript. I have enclosed the \$00 processing fee that is required by the school. To help locate my records, I attended <school name> from [start year] to [end year]. My Social Security number is 123-45-6789 and my student ID number was 128987.

Please mail (or email) the transcript to the address as indicated below:

<Name of Recipient>

<Mailing Address> or <Email Address>

Thanking you in advance for your prompt assistance.

Yours truly,

John Doe

We suggest sending by certified mail so you can validate if and when your request was received. If you already know where you are transferring, be sure to ask your new school how they prefer to receive your transcripts and include that information in your letter (if applicable).

How do I Check the Eligibility of My College Credit?

Already know what credits or experience you have at your disposal, and want to do some initial research to see how likely it is they'll transfer into your chosen program? Some schools provide free tools to help you determine the eligibility of your credit toward their programs. These tools can be immensely helpful in your planning process.

Franklin University, for example, designed a credit equivalency tool called [myTransferCredit](#). You can easily input your completed courses, and the tool will generate an output of hours that could transfer over.

>Bear in mind, however, that the final decision as to which courses will be accepted will be made by the admissions department of your target university.

How can I Get Maximum Credit?

In reality, college credits never “expire.” Once you’ve completed the course, and passed, you’ll always have that achievement and knowledge. Transferring that credit, however, is dependent upon a host of circumstances and criteria.

If you want to transfer that experience to a new program, there are definitely ways that you can stack the deck in your favor. Even in cases where your coursework is 10, 20, or even 30 years old, it’s possible to be rewarded for your old college credit. The key lies in finding the institution that works with your experience—not against it.

INTERNATIONAL INSTITUTE FOR INNOVATIVE INSTRUCTION

[HOME](#) / [DEGREES](#) / [DEGREES BY COLLEGE](#) / INTERNATIONAL INSTITUTE FOR INNOVATIVE INSTRUCTION

Provide more effective learning with instructional design courses and degrees

“The learner comes first.” This is the prime directive of innovative and effective teaching. It’s also the founding principle of Franklin University’s International Institute for Innovative Instruction and [School of Education](#).

At its core, the Institute is a collaboration hub of doctorally prepared instructional designers, multimedia experts and teaching effectiveness experts. Together, curriculum design, teaching and learning assessment, and technology training professionals develop engaging, effective and relevant learning experiences.

Through the Institute, you can learn how to create ideal learning environments, promote

learner success and lead the way to innovative instruction. Explore all our instructional design courses and degree programs now.

DEGREE COMPLETION PROGRAMS

[HOME](#) / [DEGREES](#) / DEGREE COMPLETION PROGRAMS

Earn your degree in record time with a degree completion program

Whether in the classroom or on the job, Franklin thinks what you've learned deserves to be honored. Let us help leverage the work you've put in and move toward faster completion of your college degree. With one of our 100 percent online bachelor's degree programs and generous transfer credit policy, you can add new capabilities -- without repeating what you've already learned. Find out more about fast-tracking your way to finishing your degree.

Finish Faster

Get 24 hours of technical credit.

How it Works

Transfer a substantial portion of prior credit

Whether you've earned college credit at a community or technical college, or achieved professional certification or licensure in your field, you may be eligible to apply up to **24 hours of previously earned credit**.

Here are a few other things to know about Franklin's online degree completion programs.

- Our bachelor's of science degree completion programs are designed to help you finish faster.
- You must go through our official transfer credit process to see if you qualify for prior learning credit.
- The number and type of allowable transfer credits varies from degree program to degree program.
- You must complete a minimum of 36 hours of general education credit even if you've

earned one or more of the following:

- Associate of Applied Science (A.A.S.)
- Technical training
- Other college credit

MINORS

[HOME](#) / [DEGREES](#) / [MINORS](#)

Augment your skills with a minor

Customize your degree by taking additional courses of interest, known as a minor, as part of your academic program.

What is a minor and, more importantly, what can it do for you?

Minors are additional courses outside of your major field of study. They usually enhance your major in some way, such as allowing you to develop special expertise within your field; or they allow you to add a new skillset to complement the ones you're already acquiring within your major.

For example, an accounting major may want to minor in business economics to secure a more segmented economics job in the field. Or, an information systems major may want

to minor in communication in order to become a better presenter. The additional qualifications as a result of taking minor courses may lead to new opportunities and future advancement.

And because you choose your minor based on your interests, your degree becomes completely unique to you. There's no limit to how many minors you can have, though, with careful planning, you may be able to complete your minor as part of your required degree program hours.

Minors

Accounting (16 hours)

Business Analytics (16 hours)

Business Economics (16 hours)

Business Forensics (16 hours)

Communications (16 hours)

Criminal Justice Administration (16 hours)

Data Analytics (16 hours)

Emergency Mgmt & Homeland Security (16 hours)

Entrepreneurship (16 hours)

Financial Management (16 hours)

Fire & Emergency Service Administration (16 hours)

Global Business (16 hours)

Health Education and Promotion Minor (16 hours)

Healthcare & Society (16 hours)

Healthcare Management (16 hours)

Human Resources Management (16 hours)

Information Systems (16 hours)

Management & Leadership (16 hours)

Marketing (16 hours)

Marketing Promotions (16 hours)

Performance Management (16 hours)

Public Administration (16 hours)

Public Relations (16 hours)

Public Safety Management & Leadership (16 hours)

Sport Management (18 hours)

Web Development (16 hours)

Minor Requirements & Policies

The academic minor provides an opportunity to gain knowledge or skills in a topic area that complements the student's major area program of study. With careful planning, students may be able to complete the requirements for a minor without taking additional hours beyond those required for their degree program. Each academic minor successfully completed will be documented on the student's transcript.

Requirements

- All officially designated minors consist of 16 credit hours, of which at least half must be earned in residence at the University.
- Each minor course must be completed with a grade of “C” or higher and may not be take Credit/Non-Credit.
- General Education Elective, Major Area Electives, and University Electives may be used to fulfill the minor requirements.
- No more than four credits from the Major Area Required courses may be used to fulfill the Minor requirements.
- General Education Required course may not be used to fulfill the minor requirements.
- Any prerequisites to courses in the minor must be honored

Why Choose Franklin

We're Experts

Helping learners reach their professional goals is an essential part of Franklin's mission. With industry-aligned

curriculum and a faculty of in-field practitioners, what you learn at Franklin can be applied immediately on the job – and that's the reason Franklin has been a top-choice for working adults since 1902.

□ Learning Pathways Tailored to Your Ambition

It's your career plan, but we're committed to helping you fulfill it. With our learning dashboard, you'll see how courses you complete can build on one another or create an entry point to other in-demand skill areas that will enable you to maximize your marketability.

Get Credit for What You Know

If earning a degree is something you aspire to do, the courses you take through Franklin can be evaluated for credit to save you time and money toward a degree.

□ Lower Your Costs Not Your Expectations

Franklin has been removing barriers to education for 120 years. With affordable payment models ranging from monthly subscriptions to low per class and per credit hour rates, Franklin makes it possible for you to access high-quality learning options without breaking the bank.

Microcredential Options at Franklin

Designed for ambitious adults, Franklin's microcredential options align with the university's

tradition of providing relevant, in-demand educational options in convenient learning formats. Microcredential courses can be stand-alone or part of a larger degree-program. Like our degree programs, microcredentials are aligned with industry standards, as well as business and market demands.

[VIEW NON-CREDIT OPTIONS](#)

[VIEW FOR-CREDIT OPTIONS](#)

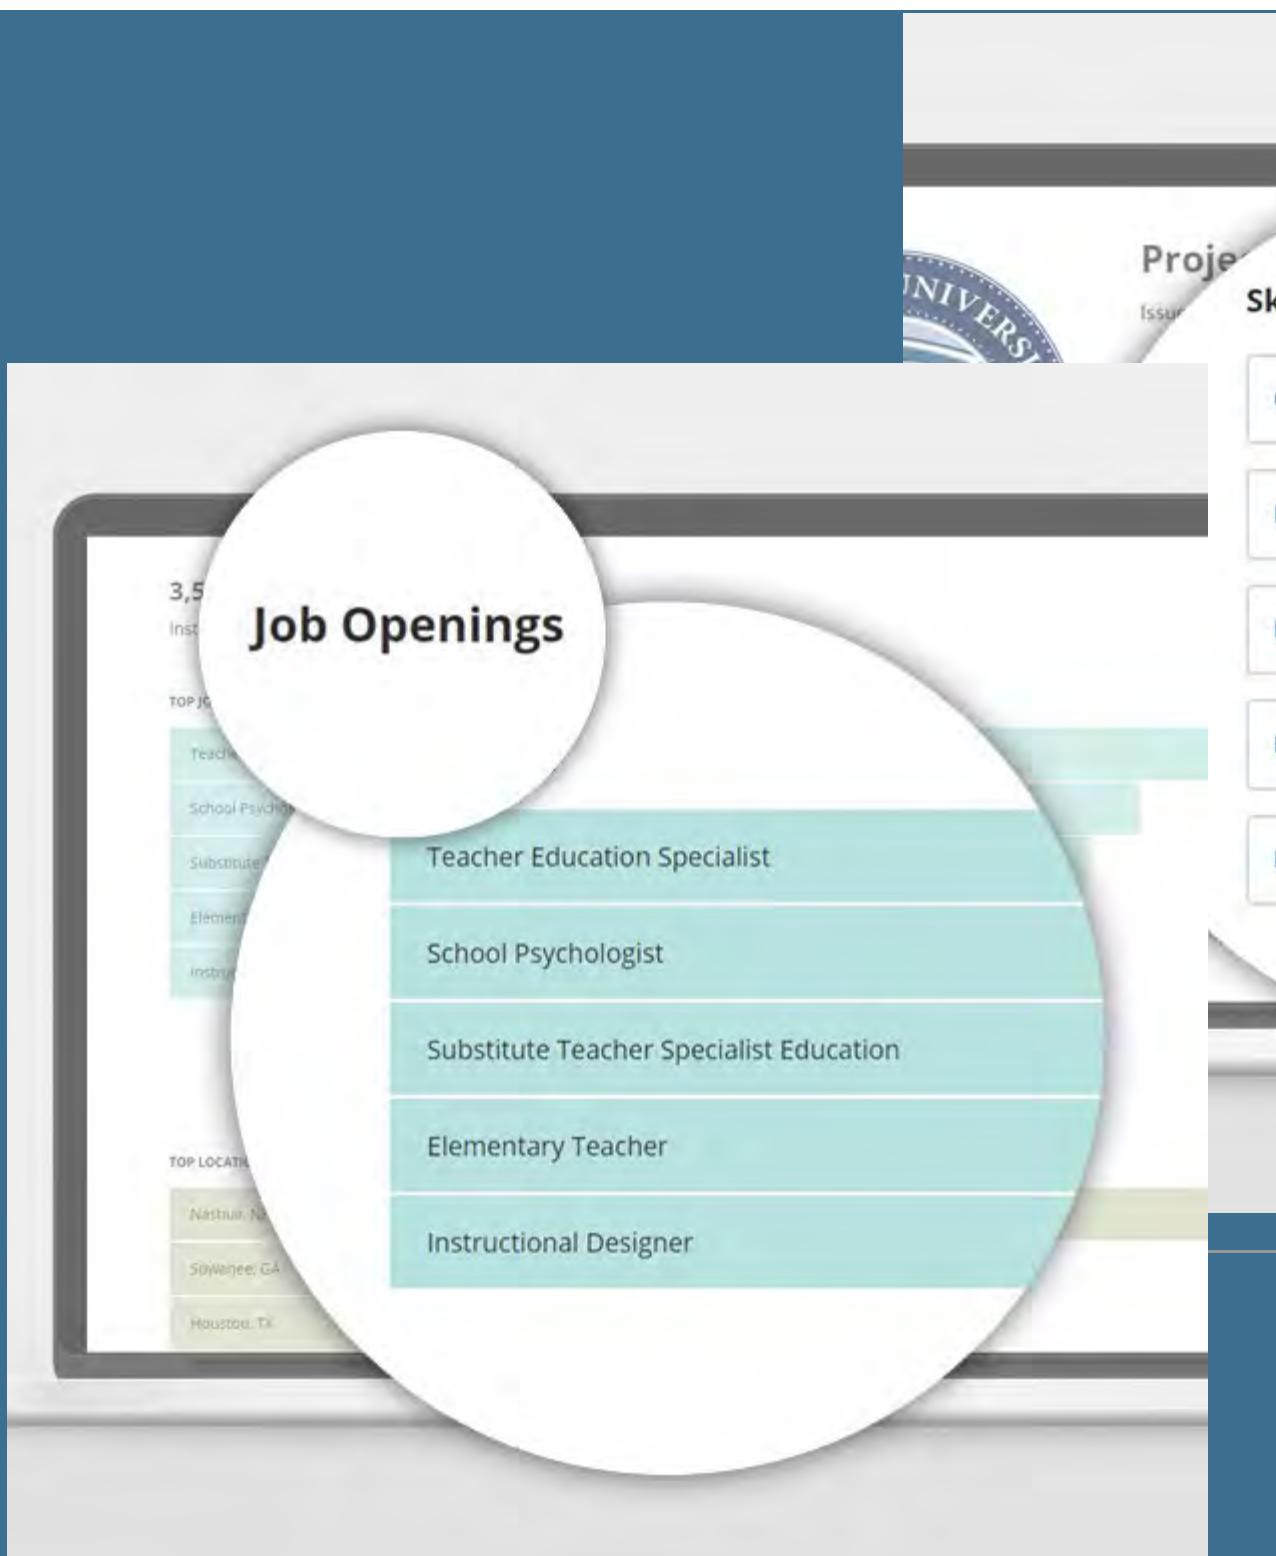

Benefits of Microcredentials

Skill Specific

Focus on a specialized ability or new knowledge specific to your industry. Updated skill sets increase your productivity in your current role and broaden your opportunities for promotion or career change.

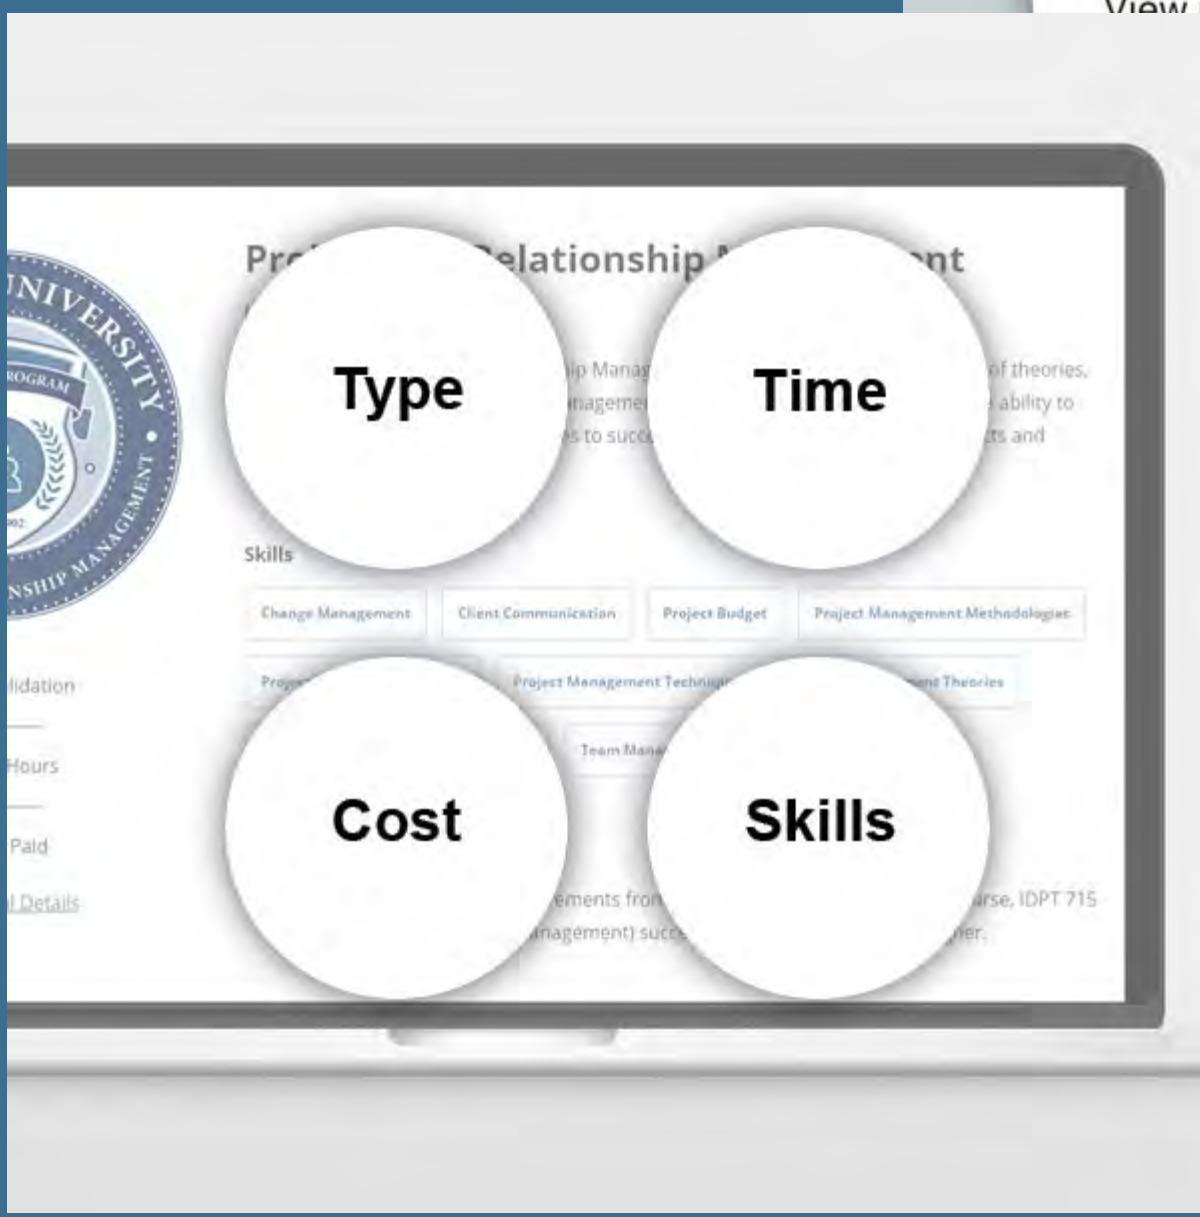

Market Driven

Boost your qualifications and get on the path to your dream job. Microcredentials and their associated competencies support professional advancement and career planning. The skills associated with each microcredential are directly linked to currently available positions, leading

copies of your résumé, or in your email signature. The electronic badge provides a way for you to share your abilities online with your peers, and current and potential employers in a way that is simple, trusted and easily verifiable.

Personalized

Put Your Microcredential to Work for you

Earn a job-specific credential quickly

Designed with specific outcomes in mind, microcredentials help you gain or build skills to increase your productivity or make you more marketable. To accommodate the needs of working adults, microcredentials are accelerated and offered in convenient formats.

See the market value of your skill

Franklin University has partnered with Credly to translate your learning into a digital badge that is issued through the company's Platform. Within the platform, you'll see the skills that comprise each competency and how those map to currently available positions, leading employers, top geographic locations and expected salary ranges.

Promote your professional achievement

Learning is an on-going process and the workplace is a dynamic environment. Currently, traditional models for recognizing job-related achievements don't meet the needs of today's ambitious professionals. Microcredentials bridge this gap with a digital badge that can be shared on social media, on electronic copies of your résumé, or in your email signature in a way that is simple, trusted and easily verifiable.

UNDERGRADUATE ACADEMIC CERTIFICATE

[HOME](#) / [MICROCREDENTIALS & CERTIFICATES](#) / [UNDERGRADUATE CERTIFICATES](#)

Build specialized skills quickly with an online certificate program

Increase your marketability or tweak your career path with an online certificate from Franklin. Our certificate is designed for a quick ROI, so you can complete them in about a year.

Because many of the certificate courses are part of larger degree programs, you'll get the same industry-relevant knowledge taught by in-field professionals. In addition to helping you build specialized skills quickly, a certificate is a great way to test-drive a degree program. And for an added bonus: Many of the certificate courses give you credit that can be transferred directly toward a Franklin degree.

UNDERGRADUATE STUDENTS

[HOME](#) / [ADMISSIONS](#) / UNDERGRADUATE STUDENTS

Find The Path To Your Undergraduate Degree

Starting something new is never easy, and deciding to earn your [undergraduate degree](#) is no exception. We understand getting started can seem overwhelming and want to help by providing clarity and transparency throughout the entire process.

Below we detail, step-by-step, everything you need to know to begin your undergraduate journey at Franklin. From [applying online](#) to new student orientation, you'll understand what you need to do, where we can help, how much it will cost, and how long it will take.

Institutionally Accredited

We meet rigorous HLC academic standards.

Apply Online

Undergraduate Admission Requirements

tab_icon/color/time Created with Sketch.	tab_icon/color/cost Created with Sketch.	tab_icon/color/completion Created with Sketch.	tab_icon/color/notes Created with Sketch.
Time	Cost	Completion	Notes

How long will it take?

- On average, you can complete our online application in about 20 minutes.
- Once submitted, we'll process your application within 48 hours.

START YOUR FRANKLIN
APPLICATION

Transfer Your Credits

Going back to school doesn't mean starting over.

We know that the more credits you transfer, the less time and money it takes for you to earn your degree. That's why we look at every available option to help you finish faster and spend less. Today, 90% of Franklin undergraduates transfer college credits from at least one other institution. There are also a number of other ways to maximize your transfer credit, including leveraging your previous work experience and training.

To help you get started, here's a look at the official transcripts we'll need, based on your current level of education.

With your consent, we can attempt to request transcripts on your behalf. If we are unable to obtain a transcript for you, an admissions advisor will contact you to provide details on which transcripts you will need to request.

Identify Your Financing Options

Minimize the out-of-pocket expense of your degree.

It's important to think about your financing options early in the admission process.

Financing your education can include options such as federal financial aid, employer tuition reimbursement, school funding programs for active military and veterans, as well as a variety of Franklin scholarships and grants.

To find out if you're eligible for federal financial aid, complete the FAFSA (Free Application for Federal Student Aid) online application. Be sure to include Franklin University's FAFSA code, 003046.

Learn how the cost of a degree at Franklin University will impact your finances with [our cost estimate calculator](#). From funding sources to education expenses, you'll get a comprehensive view of the variables that can alter the bottom line.

tab_icon/color/time Created with Sketch. Time	tab_icon/color/cost Created with Sketch. Cost	tab_icon/color/completion Created with Sketch. Completion	tab_icon/color/notes Created with Sketch. Notes
--	--	--	--

How will I know it's complete?

- It depends on how you decide to pay for your education. Be sure to have early conversations about your options with your admissions advisor to determine your best course of action.
- If applying for federal financial aid, your application will likely be processed within a few days of submission.

Complete the Admission Process

Prepare for your success as a Franklin student.

Your success as a student is important to us, so we want to be sure you start off on the right foot. Depending on your academic background, visa status or intended program, there could be additional paperwork or steps needed before you can register for classes. Your admissions advisor will work closely with you to ensure you've completed each of the steps necessary to be accepted into Franklin University.

Additional requirements could include the following:

Placement Tests

Finalizing Financing

Technical Credit

Earn additional college credit for subjects you already know:

Credit By Exam

tab_icon/color/time Created with Sketch.	tab_icon/color/cost Created with Sketch.	tab_icon/color/completion Created with Sketch.	tab_icon/color/notes Created with Sketch.
Time	Cost	Completion	Notes & Tips

How long will it take?

- Placement tests are typically scheduled within 3 days of contacting the testing facility. You can expect to complete each test in 1-3 hours.
- Time needed to secure finances is dependent on your method of payment. If you've met the priority deadline for the trimester, you can expect federal financial aid to be completed within a few days after you've submitted your FAFSA application.
- Verifying work experience for transfer credit may require additional time. Be sure to have conversations with your admissions advisor to determine your best course of action.
- Credit By Exam test times vary by examination. Time limits typically range from 90 minutes to 3 hours.

We'll help you get started.

Your registration appointment is a critical step in the process, giving you the opportunity to select the courses you would like to take during your first term, get final questions answered, and start your Franklin experience in the best possible way. If you live close to our downtown Columbus campus, you can attend your registration appointment in person. Or, if you prefer, you may have your appointment over the phone.

We know you're busy and need flexible scheduling options. That's why our admissions advisors are available over lunch, during the evenings, and even some Saturdays.

During your appointment, your admissions advisor will help you register for classes. Once complete, you'll have a clear picture of your first-term schedule. You'll also receive your registration statement detailing the courses you've chosen, payment balance, as well as your Franklin email address, and the login information to our online student portal.

tab_icon/color/time Created with Sketch.	tab_icon/color/cost Created with Sketch.	tab_icon/color/completion Created with Sketch.	tab_icon/color/notes Created with Sketch.
Time	Cost	Completion	Notes & Tips

How long will it take?

Once you're accepted, your registration appointment will be scheduled as soon as possible. Appointments are typically scheduled a few days after you've completed the steps needed to register for classes. The appointment usually lasts about an hour.

Complete Orientation

Log in and get started. We'll help navigate.

We pride ourselves on providing innovative ways to help you reach your goals. Our online New Student Orientation takes just an hour to complete and is packed with information to help familiarize you with processes, policies and guidelines to be a successful student at Franklin.

Your orientation session will help you understand our unique approach to learning, as well as provide you with important resources and information to prepare you for your Franklin experience. Your admissions advisor will give you log in details following your registration appointment. You can access your orientation session 24 hours after your registration is processed.

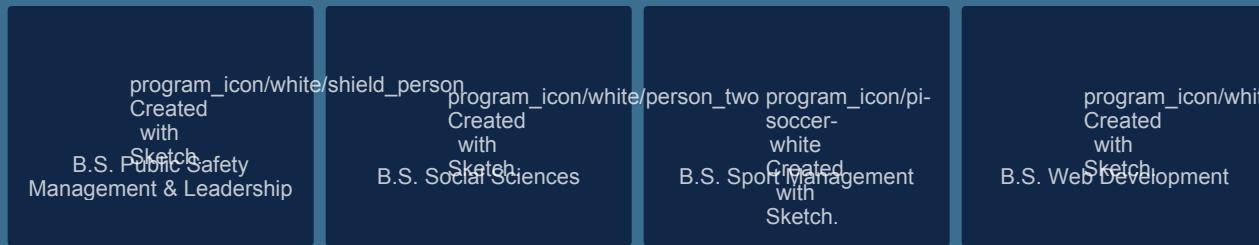

tab_icon/color/time Created with Sketch.	tab_icon/color/cost Created with Sketch.	tab_icon/color/completion Created with Sketch.	tab_icon/color/notes Created with Sketch.
Time	Cost	Completion	Notes

How long will it take?

Most students complete online orientation in about an hour.

Hear What Our Bachelor's Degrees Graduates Are Saying

Michelle O.

B.S. Human Resources Management '15

"Franklin's course format helped me because the assignments were laid out for me and organized. I knew what I needed to complete and by when. It helped me with my time management and helped me to be successful."

Tiphanie B.

B.S. Business Administration '20

“Achieving my degree is a goal I set many years ago. I am proud and excited to see the new opportunities this will lead me to on a new career journey.”

Shelby S.

B.S. Middle Childhood Education '20

“I have grown so much as a person during my time with Franklin University.”

Juan B.

B.S. Business Administration '11

"Franklin taught me how to be a more effective leader. I learned I don't always have to be out in front and in charge to be a leader. Effective leaders identify the strengths of every person to advance the team."

Kevin S.

B.S. Human Resources Management '16

"It was important for me to feel supported during my education. The 3+1 transfer program exceeded by expectations."

Andrea M.

B.S. Human Resources Management '20

“Receiving my degree is one of the happiest moments of my life, as it solidifies the hard work and time dedicated to achieving this throughout these years. I now look forward to the future and opportunities ahead of me.”

Steve N.

B.S. Business Administration '20

“I am so happy and proud of this accomplishment. I am a first-generation college graduate.”

Sarah D.

B.S. Business Administration '20

"This accomplishment
means everything to me.

Being a single mom,
working full time, and
going to school definitely
required a lot of faith,
strength and dedication -

but I did it!"

Taylor A.

B.S. Human Resources Management '20

"This accomplishment has
brought a sense of pride
as well as confidence that I
can do anything I set my
mind to."

Chris R.

B.S. Human Resource Management

"Having this education
from Franklin has really
allowed me to be the
successful, professional I
am today and without it, I

would not be where I am
today for sure."

Alexandra R.

B.S. Business Administration '20

"I feel like I now have the
tools to being successful in
everything that I do."

Franklin University is committed to being an inclusive community free from all forms of discrimination and harassment.

GRADUATE STUDENTS

[HOME](#) / [ADMISSIONS](#) / GRADUATE STUDENTS

Start to Finish – Our Hoop-Free Path to Grad School

Everything about Franklin University – from our academic programs to course formats and student services – is designed specifically for working adults, like you, who balance multiple priorities. Our admission process is no exception. Because we value your time, we keep things straightforward and hassle free.

The Admissions team guides you through each phase, answering questions and providing resources that save you time. Our team empowers you to succeed – from start to finish. The information below details, step-by-step, everything you'll need to know from application to orientation.

12-28 Month Completion

Finish your master's degree faster.

Apply Online

Apply. Anytime. Anywhere.

With multiple start dates each year, applications are accepted year round. Aside from choosing your program of interest, the application requires you to provide demographic information and names of the institutions you have previously attended.

Master's-Level Admission Requirements

DBA Admission Requirements

DHA Admission Requirements

DNP Admission Requirements

DPS Admission Requirements

Ed.D. Admission Requirements

tab_icon/color/time Created with Sketch. Time	tab_icon/color/cost Created with Sketch. Cost	tab_icon/color/completion Created with Sketch. Completion	tab_icon/color/notes Created with Sketch. Notes
--	--	--	--

How Long will it Take?

- On average, our online application can be completed in 20 minutes.
- Once submitted, applications are processed within 48 hours.

START YOUR FRANKLIN APPLICATION

Submit Support Material

Complete & Submit Supporting Materials

The graduate admission process requires the additional materials listed below in order to predict your ability to succeed in graduate school. Be sure to review the requirements carefully, fully answer all questions, and complete all required documents.

Transcripts

Résumé

Nursing Applicants

International Applicants

tab_icon/color/time Created with Sketch.	tab_icon/color/cost Created with Sketch.	tab_icon/color/completion Created with Sketch.	tab_icon/color/notes Created with Sketch.
Time	Cost	Completion	Notes

How Long will it Take?

You should allow 7-10 days for us to receive your transcripts from your previous schools.

Finance Your Education

Minimize the out-of-pocket expense of your degree

Make your degree more affordable by taking advantage of employer tuition reimbursement, federal financial aid or installment payment plans.

Your admission advisor, along with our Financial Aid Office will work with you to help identify what opportunities are available given your specific situation.

Learn how the cost of a degree at Franklin University will impact your finances with [our cost estimate calculator](#). From funding sources to education expenses, you'll get a comprehensive view of the variables that can alter the bottom line.

Employer Tuition Reimbursement

Federal Financial Aid

Payment Options

tab_icon/color/time Created with Sketch. Time	tab_icon/color/cost Created with Sketch. Cost	tab_icon/color/completion Created with Sketch. Completion	tab_icon/color/notes Created with Sketch. Notes
--	--	--	--

How Long will it Take?

- The process to secure financing will depend on how you decide to pay for your education. Be sure to have conversations about your options early with your admissions advisor to determine the best course of action.
- If applying for federal financial aid, you can expect your application to be processed within a few days after it has been submitted.

Register For Classes

Prepare for your success as a Franklin student

Once your admissions advisor notifies you of your acceptance, they will reach out to you to set up a phone meeting to register for classes.

This is a required step that enables your admissions advisor to register you for your first term courses. However, if you indicated that you plan to use federal financial aid, you must submit your FAFSA before you can be registered for your first-term courses.

Once you're registered, you'll be emailed a registration statement and a "First Steps" flyer

that provides you with helpful tips for success.

tab_icon/color/time Created with Sketch.	tab_icon/color/cost Created with Sketch.	tab_icon/color/completion Created with Sketch.	tab_icon/color/notes Created with Sketch.
Time	Cost	Completion	Notes

How Long will it Take?

- Your advisor will contact you within 48 hours to register for your first class.
- The registration appointment will take approximately 30 minutes.

Attend Your Online Orientation

Log in and get started. We'll help navigate.

Your admissions advisor will provide you with login information for your online orientation session and you'll be able to access orientation 24 hours after your registration has been processed.

Orientation is not required, but is highly recommended because you'll be introduced to Franklin's engaging, intuitive online learning environment and get acquainted with other resources and policies.

tab_icon/color/time Created with Sketch.	tab_icon/color/cost Created with Sketch.	tab_icon/color/completion Created with Sketch.	tab_icon/color/notes Created with Sketch.
Time	Cost	Completion	Notes

How Long will it Take?

The Online Orientation takes about 8 hours to complete and can be completed at your own pace. It is recommended that you complete it prior to your first class, but it will remain open during your first trimester as a resource.

Hear What Our Master's Degree Graduates Are Saying

Christie A.

MBA

"Franklin really has prepared me for my career and my future. Franklin taught me how to interact in the business community.

The networking side of it really helped prepare me for the working world and beyond. It made me a well

rounded person. I really
grew as an employee right
before my employers eyes
just because I was at
Franklin."

Derrick Y.

Master of Healthcare Administration '20

Franklin University's
Master of Healthcare
Administration program
fundamentally taught me
about myself. This
program has helped
prepare me to become the
best healthcare
professional possible and
helped me become a
continuous and lifelong
learner.

Nicole E.

MBA '20

"Earning this degree
means having so much
more confidence in myself!
I am eternally grateful to
my professors, classmates
and my family for the

support and guidance that
has been given to me."

Oyauma G.

MBA

"I learned how to stand out
and become the leader I
knew I could be."

Emily M.

M.S. in Business Psychology '21

Completing my master's
degree has provided me
the opportunity to show my
children that it is possible
to accomplish your goals,
no matter what.

Alexandra D.

Master of Healthcare Administration '21

"This accomplishment
gives me the ability to have
a greater impact and give
back to healthcare in our
community."

Angela B.

M.S. Human Resource Management '20

I'm overjoyed. In just a short time, I was able to transition from my previous job, to a career in HR.
Make a plan and turn it into reality.

Tonya P.

Master of Healthcare Administration '21

"Obtaining my master's degree in healthcare administration allows me to expand my horizons and my career."

Nathan, MBA '20

"A dream come true for me! Dreams can come true if you work hard and set your sails toward the goal."

Mahlet B.

M.S. Computer Science '20

Receiving my degree from

Franklin University means
a lot to me. I was always
taught that education is a
path to reach ones'
destiny, create a cultivated
mind and enable growth
personally and
professionally.

Matt, B.S. '16 + MBA '18

U.S. Army Veteran

"I started my degree online
at Franklin while I was still
enlisted. Franklin accepted
my previously earned
credit and made the
transfer process easy."

COMMUNITY COLLEGE STUDENTS

[HOME](#) / [ADMISSIONS](#) / COMMUNITY COLLEGE STUDENTS

Turn Your Associate Degree Into a Bachelor's -- Fast

Earn your bachelor's degree faster (and more affordably) at Franklin, where we accept more community and technical college credits than other institutions. Learn how you can transfer your community college credits to Franklin, and get started earning your bachelor's degree right away.

Success Path

Enjoy seamless transfer of community college credit.

How it Works

1. Finish your associate degree at your community college

Earn your associate degree at your local community or technical college and keep the credit you've earned when you transfer to Franklin to finish your bachelor's degree.

2. Apply online to Franklin

[Complete Franklin's admission application](#) quickly and easily online. Transfer credit will not be evaluated for acceptance until you've applied for admission.

3. Send us your transcripts

Get an official transfer credit evaluation by requesting that your official transcripts from your previous schools be sent to Franklin for review.

4. Finish your bachelor's degree at Franklin

Once your community college credit evaluation is complete and your credits are transferred, you'll be ready to earn your bachelor's degree from Franklin. Take your bridge courses at your local community college or Franklin, and then finish your bachelor's degree coursework with Franklin.

Transferring From a Community College

Your hard work at other schools is worth something and we are committed to helping community college students like you make the most of your tuition dollars. In fact, more than 90 percent of our students transfer credit from other schools.

Career-Focused Programs

Take advantage of a wide variety of degree programs – including business, technology and cybersecurity – that lead to in-demand civilian jobs. On-site and online course options help you tailor your education with your lifestyle and your learning style.

Priority Registration

Maximize your VA benefits with early access to course selections. Priority registration guarantees that you get the classes you need in the format you want.

Military Student Lounge

Connect with other military and veteran students and enjoy increased interaction with our dedicated Office of Military & Veteran Affairs (OMVA) team in the Military Student Lounge, just one piece of the community in place to support you as you pursue your education.

Hear What Our Military Veteran Students & Faculty Are Saying

Ray Forbes, Ph.D.

U.S. Navy Veteran + Program Chair, M.S. in Business Psychology

"As a current faculty member and retired veteran myself, I can personally attest that Franklin offers a veteran-friendly educational environment geared for the experienced adult. And, Franklin's many degree options provide a great next career step."

Rob Wood, Ed.D.

U.S. Navy Veteran + Faculty

"As a Navy Submarine Veteran, I know from firsthand experience what it means to achieve and maintain mission readiness. I also know that the veteran/military students that take one of my classes will always be 'mission-ready', because they receive support and advice from a team of experts well versed in

veterans' unique needs."

Charles Saunders, Ph.D., CFE, CIA, CCSA, CRMA, CPA (OH inactive)

U.S. Air Force Veteran + Program Chair, Forensic Accounting & Business Forensics

"We know and understand veterans! Through our adult-oriented, practitioner-taught, real-world programs in accounting and business, we at Franklin are ideally positioned to help build on their teamwork, experience and maturity--qualities that are in demand in today's business world."

Garry McDaniel, Ed.D.

U.S. Air Force Veteran + Program Chair, Human Resources Management

"Veterans provide an invaluable service to our nation and Franklin University seeks to provide the best support and education possible to ensure their skills and knowledge are at the highest level."

Roger Kisiel, MSA

U.S. Navy Veteran, Aviator, Test Pilot + Adjunct Faculty

"We served, you served;
let us help you define and
achieve your career and
life goals."

Jerome Council, MBA

U.S. Navy Veteran + Adjunct Faculty

"I remember using the GI
Bill while an
undergraduate attending
College back in the 80's
and its importance to my
dreams. Now semi-retired
and living my dreams here
in Central Ohio...I am very
appreciative of all that has
happened from the
benefits of the investment
of a higher education."

Rafael, B.S. Business Administration '18

U.S. Army Veteran

"My advisor has been
excellent from day one.

She has truly guided me through this journey. She showed a different way to approach getting my degrees in business and worked well with my VA vocational rehab advisor."

Jeremy, MBA '11

Ohio National Guard Veteran

"I chose the MBA at Franklin for a number of reasons, but one area that stood out was the support team available to me and the assistance and flexibility they provided. As a full-time Army Guard member I could be called for an emergency at a moment's notice, and I was confident Franklin would work with me as to not disrupt or set back my education."

Stephania

Doctor of Healthcare Administration Student, U.S. Air Force Veteran + Alumni Military Scholarship Winner

"I'm proud to represent the military as a recipient of this scholarship and with the money, I'm earning an education to better the community."

Diana

B.S. Accounting + Business Administration Student + U.S. Army Veteran

"Being out of school for so long, Franklin has many options to help me integrate back into the process smoothly, alleviating the stress of being a new student again after so many years."

Matt, B.S. '16 + MBA '18

U.S. Army Veteran

"I started my degree online at Franklin while I was still enlisted. Franklin accepted my previously earned credit and made the transfer process easy."

Gig

MBA Student, U.S. Army Veteran + Alumni Military Scholarship Winner

“This scholarship will enable me to finish my MBA, which I plan to use to launch a nonprofit organization that assists veterans with housing and employment.”

Flexible Payment Options

Franklin offers you several convenient ways of paying for college tuition, including monthly payment installments, deferred payment plans, and employer reimbursement.

PAYMENT OPTIONS

Cost of Attendance

Estimate costs for your education and living expenses using our sample student budget.

The Cost of Attendance (COA) is the estimated cost for you to attend Franklin University during the award year. Your COA estimate may include such costs as:

- Tuition and fees
- Living Expenses
- Books and supplies
- Transportation
- Personal and miscellaneous expenses

Other costs that are allowed but not built into your budget include: child care, elder care or a computer purchase. To include these items in your budget, please submit costs and supporting documentation to Franklin's Financial Aid Office.

View a Sample Student Budget

COA estimates are for information only and are used to determine your financial aid eligibility and estimated costs associated with attending Franklin University.

If you have filed the 2023-24 FAFSA and have received your Offer Letter, please refer to the first page of your letter for the appropriate year to obtain your actual cost of attendance.

If you have NOT filed the FAFSA, the following COA models can be used to determine a best estimate of your educational expenses:

2023-2024 Cost of Attendance Examples

- [Undergraduate Cost of Attendance example 2023-24](#)
- [Graduate Cost of Attendance example 2023-24](#)
- [Active Duty and Military Cost of Attendance example 2023-24](#)

2024-2025 Cost of Attendance Examples

Apply to Franklin

Get Started by Applying to Franklin

Step into your future by applying for admission to Franklin University, one of few nonprofit universities nationwide that is dedicated to educating busy, working adults. Complete our simple and secure [online application](#) in about 20 minutes.

File Your FAFSA

Submit a Free Application for Federal Student Aid (FAFSA)

If you're interested in getting financial aid to help pay for college, you first must file a [FAFSA](#). The FAFSA is used to determine your eligibility for aid, so you must file a new FAFSA every school year. Be sure to include Franklin's school code, 003046, on your FAFSA. *New students who plan to use financial aid to assist in financing their education are required to complete the FAFSA before registering for their first semester.*

FAFSAs are accepted on a rolling basis; however, we do encourage you to apply by the priority deadline to have the best opportunity for federal and state grants. Funding may be limited for those who complete the FAFSA after these priority deadlines.

File the 2024-25 FAFSA by the Priority Processing Deadlines

Term	Priority Date*
Summer 2024	March 15, 2024
Fall 2024	June 15, 2024
Spring 2025	October 1, 2024

basis; these are priority dates

*FAFSAs accepted on a rolling

Preparing to file your FAFSA? Download this [free report](#) and get insider tips to help you avoid common FAFSA mistakes and receive the maximum benefit possible.

[Other Tuition Assistance](#)

[FAFSA Verification](#)

Review Your SAR

Check the Accuracy of Your Student Aid Report (SAR)

Once you've filed your FAFSA, it takes about two weeks for the Department of Education's Central Processor to notify you by email that your Student Aid Report (SAR) is available on the FAFSA website. If, after two weeks, you do not receive your SAR notification, please call FAFSA customer service at 1-800-433-3243.

Once you've received notification, sign into the FAFSA website using your FSA ID (username and password). Review your SAR for accuracy. If you need to make changes or updates to any of the information you reported on your FAFSA, make the necessary corrections and submit them.

Your SAR will not tell you how much financial aid, if any, you'll get. Franklin, however, uses the information to calculate your aid and send you an Offer Letter.

Sign & Submit Your Offer Letter

Your Offer Letter

Once you've completed enrollment and all other documentation is received, Franklin's Financial Aid office will determine your financial aid eligibility and calculate your award. The Financial Aid Office's review process usually takes about 15 days.

If you've applied for financial aid from Franklin, you'll receive an official Offer Letter. Offer Letters are sent electronically through your Self-Service.

Your Offer Letter shows the type(s) and amount of college financial aid you are eligible for within a specific school term or academic year.

Accepting Your Offer

Please review your Offer Letter. Sign and click to send your acceptance. Your financial aid or student loan will not be processed until we receive your signed Offer Letter. Please contact Student Financial Services with any questions or concerns.

Important Notes

How to read the "Terms of Award" on Your Offer Letter

Additional Information

Because Franklin University wants to make sure you maximize all available financial aid resources while minimizing your debt obligations, we've compiled some other information you should know about federal financial aid and student loans.

Federal & State Aid for College

When it comes to paying for college, you have lots of options -- including federal and state financial aid. And, if you're an eligible undergraduate student, you may be able to get a grant that does not need to be paid back (unlike student loans).

The U.S. Department of Education, your home state, your college, organizations, private industry and nonprofits all offer a variety of financial aid and tuition

Student Financial Services

[Contact Information](#)

[Office Hours](#)

assistance programs. Franklin annually awards about \$13 million in institutional aid each year, and more than half of our students receive federal financial aid.

For more information on your eligibility, please visit [Federal Student Aid](#).

Federal Student Aid

The U.S. Department of Education awards approximately [\\$112 billion annually for college tuition](#), fees, books and other college expenses. You may be eligible to receive a portion of federal funding to help you pay for your college education and living expenses for the time that you are enrolled in classes. Federal financial aid comes in many forms, including grants, student loans and work-study programs.

Need some help finding free money for college? Download this [free guide](#) designed to help you find grants to cut college costs.

State Financial Aid for College

Most states offer a variety of financial aid programs to help in-state residents pay for their college education. You may be eligible for state-funded grants or loans, depending on need and program requirements. Like federally funded programs, there are eligibility considerations and application deadlines, so be sure to understand and adhere to rules, requirements and deadlines.

INSTITUTIONAL AID & PRIVATE LOANS

[HOME](#) / [TUITION & FINANCIAL AID](#) / INSTITUTIONAL AID & PRIVATE LOANS

Private Student Loans for College

When federal financial aid doesn't cover the cost of tuition, you may need to fill the gap with a private student loan. Franklin can help you understand how to get a student loan to pay for college if you need it.

Student Financial Services

[Contact Information](#)

[Office Hours](#)

Institutional Aid

We know college tuition is a big expense. We also know the end-goal -- your degree -- is worth it. So we offer need- and merit-based institutional aid to help making paying for college a little easier.

Schell Loan Program

Private Loans

What are private loans?

Banks and other independent lenders offer private loans to help pay for the costs of college not covered by financial aid, including current tuition and past-due balances. Private loans are subject to lender approval based on a credit review and other lender-specific requirements.

Before you apply for a private loan, we recommend that you pursue eligibility for federal loans, such as Federal Direct, PLUS and Grad PLUS. Federal loans are usually less expensive than private loans and offer more flexible repayment options.

Selecting a Student Loan Lender

Franklin reviews its list of private education lenders each year. Our Director of Financial Aid provides comparative information of borrower benefits for Private Education loans to the Executive Director of Student Affairs Operations, and makes recommendations that include at least three unaffiliated lenders.

Selection criteria are based on the following:

1. Competitive interest rates
2. Competitive front-end and back-end benefits
3. Efficiencies in processing loan transactions through Scholar.net.
4. That lender scopes loan information in Nelnet FastChoice and makes updates as necessary
5. Must be able to certify the loan through the Scholar.net system
6. Loan funds are disbursed through CDS at Nelnet, Inc.
7. At least three lenders are unaffiliated with other preferred lenders, meaning they are *not*
 - *Under the ownership or control of the same entity or individuals;*
 - *Wholly or partly owned subsidiaries of the same parent company;*
 - *Under the direction of directors, trustees, general partners or individuals exercising similar functions, who constitute a majority of the persons holding similar positions with the other lender; or*
 - *Making loans on their own behalf and also holding loans as a trustee lender for another entity.*

PAYMENT OPTIONS

[HOME](#) / [TUITION & FINANCIAL AID](#) / PAYMENT OPTIONS

Tuition Payment Plans & Options

It's nice to have options when it comes to paying for college tuition -- and Franklin offers plenty of them. In addition to financial aid, we offer installment payment plans, deferred tuition reimbursement and direct company billing. Plus, we make it convenient to make payments online through myFranklin.

Important Dates & Deadlines

All business-related forms should be submitted prior to the first day of class. All documents and forms may be submitted by email, fax, or USPS mail.

Scheduled Payment Plans

How it works:

Avoid late payments with Franklin's installment payment plan. With this plan, you make monthly payments throughout the trimester without having to pay your full tuition balance at the beginning of the term.

Who can use it:

You're eligible for this payment plan if you:

- Personally pay for any portion of your tuition and fees, and
- Cannot pay your balance before the first day of classes.

How do I apply:

Each trimester, log in to myFranklin and choose the payment plan from your payment options that best fits your need. If you need your current balance put into a payment plan, then choose the current balance payment plan. If you know a portion of your balance will be covered by another financing source that has not applied to your account yet, then choose the self-determined payment plan.

Deferred Tuition Payment

How it works:

If your employer offers tuition reimbursement benefits, Franklin can defer your tuition payment for the current trimester. Once grades are posted and your employer makes payment to you, log in to myFranklin to make your tuition payment.

Who can use it:

You're eligible for this payment plan if your employer pays for college coursework through an employee tuition reimbursement program.

How do I apply:

You must obtain proper authorization from your employer. Visit myFranklin payment options to submit Franklin's Employer Tuition Reimbursement application. You must submit the application each term you want to defer your tuition payment.

Direct Company Billing

How it works:

With this option, your employer or other agency pays your college tuition directly to Franklin and will provide you with a letter of credit or voucher to give to Franklin's Student Financial Services Office.

Who can use it:

You're eligible for this payment option if your employer offers to pay Franklin directly for your college education.

How do I apply:

Once your employer gives you the letter of credit or voucher with the details of what they will pay on your behalf, then submit the form to Franklin's Student Financial Services Office.

When do I apply:

Submit a letter of credit or voucher to the Student Financial Services Office before the start of classes each trimester.

Free Report: 8 Ways to Maximize Your FAFSA Benefits

Get insider tips to help you avoid common FAFSA mistakes and receive the maximum benefit possible.

[DOWNLOAD NOW >](#)

Ways To Pay

You may pay your tuition balance with a MasterCard®, Visa®, Discover®, AmericanExpress®, personal check, cashier's check, money order, or international funds transfer. Payments can be made online through your myFranklin account with a checking or savings account, debit or credit card information, linked 529 account, or wire transfer for foreign currency.

The University has provided a secure server so you can safely make financial transactions on the e-Payment site.

You can access this site by logging into [myFranklin](#) and clicking on "Payment Options" next to the "Total Amount Due" from your account summary.

If you are paying with a credit/debit card, then a convenience fee will be assessed. Each 529 payment made from a linked account will be assessed a \$10 service fee. To avoid the convenience fee and service fee, please pay using the electronic check option which will ask for your checking/savings account & routing number.

Checks and money orders can be dropped off in person at the University's Welcome Center or mailed to the University's Business Office at:

Franklin University
201 S. Grant Ave.
Columbus, OH 43215

If an employer or agency is paying Franklin directly, then submit the letter of credit or

voucher to the Student Financial Services Office.

All tuition and fees are due by the first day of class. In the event you are unable to pay your full balance by the deadline of the first day of class, then you can enroll in a monthly installment plan administered by the University. The installment plan allows you to break up your balance for the term into monthly payments to avoid administrative restrictions on your account and potential finance charges.

Transfer Guidelines

Franklin values your hard work with a generous and seamless transfer-credit policy that helps you get maximum credit for what you've already learned.

- Credits must be submitted to Franklin from an accredited institution, such as those recognized by the Council for Higher Education Accreditation (CHEA) and/or the U.S. Department of Education.
- Coursework from non-accredited institutions must go through Franklin's formal, case-by-case review process to determine transferability. The details of this review process are available in Franklin's Transfer & Articulation Manual.
- Credit will be accepted for any college course completed with a grade of "D" or higher, including grades of "Pass" and examination credit, subject to GPA and course requirements of the major program.
- "D" grades are not permitted in major area courses regardless of where the course is taken.
- Some majors, such as Accounting, Computer Science and Financial Management, may have rules regarding the transferability of credits taken 10+ years ago.
- Credit is awarded based on subject matter, prerequisites, level and laboratory requirements.

- Transfer credit for Franklin's degree programs is at the discretion of the receiving institution.

How to Transfer Credit

When you apply for admission, we ask for official copies of your transcripts so we can evaluate all your previous coursework, training, and experience. Using our generous transfer-credit policy and a careful assessment of your prior learning, we'll help you maximize all possible transfer credit so you can complete your degree as fast and affordably as possible.

The Affordable Choice Complete Your Bachelor's Degree for Less

For busy adults deciding to earn a bachelor's degree, finances are often a key

consideration. Whether you're building on your community college credits or starting from scratch, our low undergraduate tuition rate makes it possible for you to earn an affordable bachelor's degree.

	1st Year	2nd Year	3rd Year	4th Year	Total
3 Years at a Community College + 1 Year at Franklin University	\$5,885	\$5,885	\$6,670	\$11,940	\$30,380
2 Years at a Community College + 2 Years at Franklin University	\$5,885	\$5,885	\$12,736	\$12,736	\$37,242
4 Years at Franklin University	\$12,338	\$12,338	\$12,338	\$12,338	\$49,352
4 Years at Private University	\$35,830	\$35,830	\$35,830	\$35,830	\$143,320

Source: Private university cost based on National College Board, Annual Survey of Colleges (2018-19). Community college tuition information (2018-19) sourced from communitycollegereview.com. Franklin University tuition rates are current for the 2019-20 academic year.

Take Advantage of Our Low Tuition

Think you can't afford to earn your bachelor's degree? Franklin's low undergraduate tuition rate is 66% less than the national average for private, nonprofit universities. Plus, when you pair Franklin's low tuition rate with your previously earned credit, finishing your bachelor's degree is a value that's too good to pass up.

No Application Fee

With Franklin's free, online application, there's no risk to getting started. It's time to put your plan into action.

□

\$398 Per Credit Hour

At \$398 per credit hour, your tuition dollars go further at Franklin, whether you're using employer benefits, financial aid or your own funds.

MILITARY TRAINING CREDIT

[HOME](#) / [TRANSFERRING CREDIT](#) / [TYPES OF TRANSFER CREDIT](#) / MILITARY TRAINING CREDIT

Get college transfer credit for military training

Thank you for your service. We appreciate our service members and want to honor your contributions. That's why we offer college credit for military experience for active duty, reserve, National Guard members and veterans.

Get credit what you've already achieved by transferring your military training and certifications to Franklin -- and earn your [college degree](#) faster and more [affordably](#).

Credit for Military Training

Receive transfer credit for your military service.

Submit Your Military Transcripts

Whether you're on active duty, reserve, a member of the National Guard, or a military veteran, your military training could count toward college credit at Franklin.

The Army, Marine Corps, Navy and Coast Guard use a synchronized transcript service called JST or Joint Services Transcript. Students request an official copy be sent to Franklin University for transfer credit consideration by completing the online Joint Service Transcript service. Service members can also access an unofficial version of their JST any time by logging into the JST system and completing the required steps.

The [JST transcript](#) consists of:

- Personal service-member data
- Military course completions with descriptions
- Military experience & training (per each MOS)
- College-level test scores (CLEP & DANTEs)

- Other learning experiences
- Summary page (with Service members Opportunity Colleges (SOC) transferability codes)
- Academic institution courses page

ACE provides quality assurance and policy guidance to the [Army](#), [Navy](#), [Coast Guard](#) and [Marine Corps](#) for military transcripts. [The Air Force](#) is still testing the JST process. Students with Air Force service training and experiences will continue to order their military transcripts through the Community College of the Air Force (CCAF).

Coast Guard transcripts can be requested through the US Department of Homeland Security via the Coast Guard Institute application CGI-1561J, found [here](#). Or you can order it electronically through the [Joint Service Transcript service](#).

To submit your military training for course credit, please upload your military transcripts to Franklin University's [Learning Exchange](#). The Learning Exchange is a free, web-based tool that simplifies the process of submitting non-traditional credit for evaluation. Through the [Learning Exchange](#) you can collect certificates, military training, advanced placement, proficiency tests and other learning experiences for evaluation toward college credit.

To find out how your credits will transfer, request a free unofficial evaluation. Or, if you're ready, [apply online now](#) to receive your official evaluation.

Free Guide for Transfer Students

Get the ultimate guide to maximize your college transfer credit so you can accelerate your completion time and lower your total tuition cost at every academic level.

TESTING CREDIT

[HOME](#) / [TRANSFERRING CREDIT](#) / [TYPES OF TRANSFER CREDIT](#) / TESTING CREDIT

Earn college credit with proficiency exams

Demonstrate college-level learning and earn college credit for what you already know by testing for it or by showcasing your knowledge and experience.

1:1 Transfer Support

We'll work with you to make sure you maximize all possible transfer credits

Get College Credit for What You Already Know

Franklin wants to help you get all the college credit you deserve so you can save time and money on earning your degree. That's why we're pleased to accept proof of college-level learning in the form of proficiency exams.

Test out of some of your degree program courses and earn college credit by examination for passing CLEP, DSST and other proficiency examinations.

Submitting Materials for Evaluation

Most schools are well-equipped to evaluate prior classroom for course credit, while awarding credit for professional training, testing, certifications and other nontraditional learning proves to be more difficult. That's not the case at Franklin. Franklin's [Learning Exchange](#) is a convenient tool that enables you to collect certificates, military training, advanced placement, proficiency tests and other learning experiences for evaluation toward college credit. You can upload your materials at any point within the admission process or during your time as a student.

For information on how CLEP, DSST, FUPE, Advanced Placement (AP) testing and UExcel exams transfer toward Franklin course credit, email TheLearningExchange@franklin.edu

College Level Examination Program (CLEP)

The College-Level Examination Program or CLEP is a widely trusted credit-for-course examination program. CLEP currently offers 33 different exams, including a number of math, science and business disciplines.

With the exception of the combination multiple-choice and essay College Composition exam, each CLEP is a computerized, 90-minute, multiple-choice test.

Find CLEP exam guides at your local library, at the Franklin University Learning Commons, most major bookstores, and the CLEP website at www.collegeboard.com

DSST

DSST, formerly known as the Defense Activity for Non-Traditional Education Support (DANTES), is a nationally recognized prior learning assessment program. It lets you earn college credit for learning done on the job or through independent study -- including reading.

DSST currently offers 30 different exams in such subject areas as math, applied technology and business. Because Franklin University sets its own policies regarding qualifying credit, please talk to your admissions or academic advisor about your DSST eligibility before scheduling testing.

DSST examinations measure achievement one course at a time so you can study for one anytime, including while taking other courses.

Each exam is a computerized, two-hour, multiple-choice test (with the exception of public speaking, which also includes a 20-minute speech prep and presentation).

Find DSST study guides at the [DSST website](#).

Franklin University Proficiency Examination (FUPE)

Franklin University Proficiency Examinations (FUPes) are Franklin-created proficiency

exams that assess prior knowledge and experience for course credit. FUPE course credit is only available at Franklin and is not transferrable to other institutions.

Franklin offers nearly two dozen different exams in a wide variety of subjects, however, Franklin does not offer FUPEs for subjects available through CLEP or DSST examination.

You may be eligible for a FUPE exam if your experience, training or independent reading is equivalent to what you would learn in the college classroom.

For more information or a list of available FUPEs, visit Franklin University's [Learning Commons](#).

Advanced Placement Testing

Take an advanced placement test at your high school and earn a score of three, four or five, and you could be awarded University credit -- even before you start college.

UExcel® Exams

Learn -- then earn -- equivalent course credit through Excelsior College's UExcel® exams.

Approved for credit by Franklin University, UExcel proficiency exams let you earn some of your college credits by exam rather than by taking an online class or college course.

UExcel offers dozens of lower- and upper-level credit-by-examination subjects. Learn more at www.excelsior.edu/exams/uexcel-home.

HOW TO TRANSFER COLLEGE CREDIT

[HOME](#) / [TRANSFERRING CREDIT](#) / HOW TO TRANSFER CREDITS

Find out how to transfer college credit

You've put in the time, done the work and gotten the grade. At Franklin, we think that's worth something: college credit toward your Franklin [degree](#).

As a [transfer-friendly](#) school, we help you maximize previously earned credit and make it simple and seamless to transfer [previously earned college credit](#) toward an [associate](#), [bachelor's](#), [master's](#) or [doctoral](#) degree program at Franklin.

[Maximize Transfer Credits](#)

More than 90% of undergraduate students transfer credit to Franklin.

Applying Online to Franklin

Before we can accept and evaluate your transfer credit, you must first apply for admission.

But don't worry, completing our admission application is quick, easy and free for undergraduate students.

[APPLY ONLINE](#)

Sending Your Transcripts

After you've applied to Franklin, request the transcripts from all of your previously attended schools be sent to Franklin for evaluation. The best way to do this is to contact your previous school's Office of the Registrar or Office of Records and ask specifically for an official, unaltered, sealed transcript to be sent directly to Franklin.

We will evaluate your transcripts for free, however, other institutions (colleges & high schools) may charge a processing fee when you request your transcripts be sent to us. You can expect to pay between \$3-\$10 per institution.

Send Electronically

Send Through Mail

International Students

Assessing Your Transcripts

Upon receipt of all your transcripts, we will assess your credits for transfer eligibility as quickly as possible. You should allow for about 4 weeks to complete this process. Once complete, you will receive an email notifying you that your transcript assessment is complete.

Free Guide for

Transfer Students

Get the ultimate guide to maximize your college transfer credit so you can accelerate your completion time and lower your total tuition cost at every academic level.

[DOWNLOAD NOW >](#)

Reviewing Your Credit Evaluation

You can follow the link in your email notification to review your evaluation. If you have any questions or concerns with the results, you can contact your admissions advisor for further explanation.

STUDENT SUPPORT

[HOME](#) / [THE FRANKLIN EXPERIENCE](#) / STUDENT SUPPORT

Real Student Support for Real Life

Having someone in your corner is always a good thing. At Franklin, you'll have lots of "someones" in your corner – and then some – including a variety of services and resources all designed to help you cross the finish line.

Free Resources

Get tutoring or writing and research help at no cost.

Your Own Academic Advisor

From your first class through graduation, you're never alone at Franklin. Your own personal academic advisor is committed to your success, and always willing to help.

Your advisor will:

- Work with you to explore college major and career options
- Help you schedule your classes
- Review your course selections, academic progress and graduation requirements
- Go over your academic evaluation with you so you understand it
- Assist in developing goals and overcoming obstacles

Free Learning Tools

Become more successful with help from our Learning Commons, a portfolio of library, tutoring and testing resources that includes free learning tools, such as writing workshops, as well as course resources like e-textbooks and research assistance.

Workshops & Support

Enjoy access to free workshops, tutoring and 1:1 services, including online writing reviews, concept reinforcement, foundational level support, encouragement and more.

Testing Help & Services

Get access to Franklin's wide-variety of high-integrity testing services, including placement and proficiency testing, proctoring services, and out-of-class and make-up testing.

Library & Resources

Find help when, where and how you need it. Get research assistance, borrow materials, attend a workshop, reserve a group study room, find events and resources through our social media pages, and much more.

Growth & Learning

Enhance your student experience in all the best ways with help from Franklin's Office of Student Life, which offers a variety of opportunities for growth and learning.

Student Advocate

Get access to Franklin's free ombuds service for help in overcoming obstacles and challenges while pursuing your degree.

Financial Wellness

Find information and assistance about the impact of financial competency inside and outside your education.

Student Organizations

Find opportunities for involvement, learning and networking through academic and co-curricular student collaboration.

CAREER DEVELOPMENT

[HOME](#) / [THE FRANKLIN EXPERIENCE](#) / CAREER DEVELOPMENT

Career Development Programs to Fuel Your Future

While you have to do your part to stay professionally relevant, you don't have to do it alone. As a student or Franklin graduate, you have free access to all the resources and support offered by our Center for Career Development. Whether you want to start, change or enhance your career, let us help you keep up and move ahead.

1:1 Support

Reach your goals with personalized support, feedback and more.

Prepare for Your Job Search

Look to us for help in presenting your new college credentials and positioning your previous work experience in the best light for your first (or next) employer.

Résumé Services

Market your strengths and showcase your skills with help from Franklin's complimentary, comprehensive résumé services for students and alumni. From résumé creation tools courtesy of CareerBeam, to expert résumé reviews by industry professionals, we've got you covered.

Interview Prep

Learn the secrets to successful

interviewing. As a Franklin student or grad with an active myFranklin account, you have free access to our career development program, featuring proven interview preparation tools, information and support.

1:1 Appointments

As a current Franklin University student or grad, put yourself in a position to rise to the top with a 1:1 virtual appointment. Get both guidance and feedback to help you clarify your path, and reach your career development goals.

Find Job Openings & Opportunities

Get built-in access to a network of professionals (including hiring managers), as well as free access to a virtual career center featuring millions of worldwide job postings.

Job Fairs

You don't have to go looking for the

best employers -- we bring dozens of them to you at our Main Campus in downtown Columbus, Ohio. Open to students and alumni, our career development opportunities include free job fairs where you'll make critical connections, meet recruiters, and network with company representatives.

MyCareer

Capitalize on professional opportunities, get 24-7 access to search jobs and connect with employers. MyCareer is a career tool designed to streamline interactions between job seekers and employers with the needs of busy Franklin students and alumni in mind.

Networking

Franklin offers a wide range of interactive career development workshops focused on helping you recognize, develop and articulate your skills, and expand your professional network.

NONPROFIT

[HOME](#) / [THE FRANKLIN EXPERIENCE](#) / [NONPROFIT](#)

A Nonprofit University that Puts You First

Your education should be just that – yours. As a private, nonprofit [online college](#) invested solely in student success, Franklin University's [mission](#) is to make higher education, personal growth and professional achievement possible for everyone.

Student Focused

Students matter -- profits don't.

Why Being a Nonprofit College Matters

Our commitment is always to you. Learn how our educational, research, and quality-minded investments yield better, more far-reaching benefits for you than just earning a college diploma.

Focused On Your Success

When it comes to for-profit vs. nonprofit universities, the most crucial difference is this: You. As a nonprofit online college, we invest in your success, not in making a profit or pleasing shareholders.

Leadership Committed To Your Learning

As a nonprofit school, we're under the direction of an all-volunteer Board of Trustees with strong ties to local communities and industry leaders, as well as advisory boards that help shape each of our programs.

Career-Focused Academics

Unlike for-profits, we have no shareholders to please. That means Franklin has unique freedom and flexibility to innovate, respond to, and invest in new programs, technologies and trends. Our unwavering commitment is to creating highly responsive and relevant academic programs that prepare you for career success today and tomorrow.

Solid, 360-Degree Student Support

We continually invest in bringing our students the latest learning technologies, resources and tools. From advising, to academic support and career development, we're here to help you, the busy working adult, earn your college degree.

Nonprofit vs. For-Profit Colleges & Universities

Learn how our status as a nonprofit university allows Franklin to serve you better.

---	---	--	---

Nonprofit

Institutions like Franklin are free to focus on creating and delivering a high-quality education without having to concern themselves with turning a profit or answering to revenue-focused interests.

For-profit

These institutions have a different focus and priority -- earning a profit for their shareholders and other stakeholders.

Nonprofit Schools Invest in Your Future

As a nonprofit institution, Franklin does not report to shareholders or private equity groups. That means we're free to embrace change, and to recruit and retain accomplished staff and instructors to advance the scope and quality of your education.

Highly qualified faculty and staff

Continuous improvement of academic offerings

Partnerships that benefit you

Globally infused academics

Serving local communities

Providing useful, far-reaching student resources

COMMUNITY COLLEGE PARTNERSHIPS

[HOME](#) / [ABOUT US](#) / [PARTNERSHIPS](#) / COMMUNITY COLLEGE PARTNERSHIPS

Increase Graduation Rates With 3+1 and Pathway Portal Partnerships

Help your students reach their education potential by becoming a Franklin University community college partner. Together, we'll engage your students in start-to-finish, stay-in-the-community degree programs that begin with associate degree credits at your institution, followed by bachelor's degree credits at ours.

Contact Us

Samantha Shear

Executive Director, Community College Alliance

Phone: 614.947.6051

email:

samantha.shear@franklin.edu

Our partnerships, which include 3+1 transfer partnerships and the Pathway Portal \$298 per credit hour tuition rate for eligible students, are designed to improve your retention rates, graduation outcomes, tuition revenue and more. Plus, your faculty and staff can take advantage of our free professional development opportunities, and exclusive tuition reduction program.

Pathway Portal

Cutting-edge online tool facilitates seamless transfer.

Pathway Portal + \$298 Tuition=One of the Nation's Best Transfer Options

A shared belief in the importance of degree completion has fueled Franklin's 3+1 partnerships with community and technical colleges for more than 30 years. With the

addition of the Pathway Portal, partner institutions are able to make transfer and articulation information more relevant for students by providing it in a way that is personalized, timely and actionable.

Developed collaboratively with Edison State Community College in 2021, the Pathway Portal is an innovative, user-friendly online tool that provides students with real-time information on how their associate degree credits apply toward each of Franklin's bachelor's programs to create a cost-effective and seamless transfer experience.

Beginning in fall 2023, all community colleges that partner with Franklin to offer the Pathway Portal will secure a \$298 tuition rate for bachelor's degree courses at Franklin for all students who:

- Opt in to the Pathway Portal
- Earn an associate degree from the partner community college
- Apply through the Pathway Portal

See How Efficient Transfer Can Be

The Pathway Portal provides real-time, personalized information on how completed associate degree courses apply toward a bachelor's degree at Franklin University.

Pathway Portal Provides Greater Access for More Students

Working with our community and technical college partners, we're making bachelor's degrees more accessible than ever before by providing the most seamless and efficient transfer process for students.
